- ☞ A member from each district must work on at least one bid, to assist the cooperative in meeting its goal of competitive and fair bidding. This requires that members step up and take active roles in organizing, preparing, distributing and analyzing bids, as is necessary.
- ☞ There are several **MANDATORY** meetings each year, which must be attended by a representative of the school district. If a district is not represented at these meetings, without prior acceptable notification to the Bid Chair, they will be unable to participate in the bid cycle for that period.
- ☞ Districts must provide yearly, by September 1, a Board approved Resolution, granting the district permission to participate in the cooperative and authority for the Coop to recommend bid awards to the Board. This resolution is passed at the reorganization meeting in school districts, however, **you** are responsible for getting it approved and submitted by September 1 of each year, to the Cooperative Secretary. If the resolution is not received, the district will not have access to bid prices for one year.
- ☞ Districts must provide the names and addresses of the Food Service Director and the Assistant Superintendent of their district. In addition, they must have email or the ability to access email, as much correspondence in the coop is done via email. If district's email or address changes, the district must notify the Cooperative Coordinator and Secretary.

- It is the district's responsibility to stay involved with other cooperative members to remain aware of dates, requirements, etc. This includes and is not limited to bid development, item specifications, district needs in terms of volumes, deliveries, etc. All established timelines must be met. If any are not met the district forfeits bid participation for that period and/or maybe assessed an additional fee up to \$2,000 for covering cost to complete tasks assigned and not done in a timely fashion. The fee will cover the cost of personnel and time to complete the original task.
- It is also the district's responsibility to submit the bids to their board of education for award and approval to conduct business with recommended vendors.

Dear Ms. Hoffman:

We respectfully submit this proposal for your consideration in the selection of accountants for the fiscal year ending June 30, 2018 with an option to renew for 2019 through 2022.

We believe we are qualified to offer the Rocky Point Union Free School District (District) the same quality and timely service that we currently provide to our other local municipal clients; in evaluating our firm please consider the following:

- Cullen & Danowski, LLP (Firm) is a firm of certified public accountants licensed in the state of New York, serving the New York and metropolitan area since 1971.
- Five of our firm's six partners specialize in municipal auditing and accounting.
- In addition to the Firm's audit partners and principal, our management team includes five senior level directors and managers, and four audit supervisors overseeing ten audit teams.
- Employee longevity, resulting in a highly qualified audit staff, is one of the keys to our success. Our staff has acquired the special knowledge, skills, and experience needed to serve local municipalities effectively and efficiently.
- With over forty professionals, our firm is the ideal size for providing services to the 14 school districts that we currently consult with. In total we engage more than 90 school districts that we provide accounting, internal audit or external audit services for.

- Our expertise and reputation are also recognized by the New York State Education Department, which has requested our assistance in providing special accounting and oversight services for school districts on several occasions.
- We continuously provide our clients with up-to-date information regarding the many changes promulgated by both state and federal governments, as well as the Governmental Accounting Standards Board.
- Prior to release, to ensure your satisfaction with our services, your financial statement report is put through an extensive review by our Quality Control (QC) Department.
- We encourage a continuous, year-round dialogue in order to be responsive to all your needs. *Rocky Point Union Free School District is important to us!*

We would be pleased to serve as accountant for the Rocky Point Union Free School District, and have attached a detailed proposal and quoted fees for the services to be rendered.

If you have any questions or require additional information, please feel free to call.

Respectfully submitted,

Peter F. Rodriguez, CPA
Partner

Accounting Team Qualifications

Our management team includes five managers, some with more than twenty-five years of experience with our firm. These managers supervise ten teams. This allows us to properly plan the audit and supervise the staff accountants assigned to the engagement.

We staff each of our engagements with a team of degreed accountants, the majority of whom are certified public accountants, with the remainder working towards certification. All members of our teams are permanent, full-time employees.

We have a highly experienced staff, as our firm has had extremely low employee turnover. Employee longevity is one of the keys to our success.

New York State requires all professionals to receive at least forty hours of continuing professional education (CPE) per year. Firm members involved in municipal and not-for-profit audits are also required by the Single Audit Act to fulfill the CPE requirements of the Government Accountability Office (GAO).

All staff meet the continuing education requirements of the New York State Education Department, the U.S. Comptroller General, and the American Institute of Certified Public Accountants.

Individuals from our firm are also actively involved in the training of municipal and not-for-profit personnel.

We serve as speaker at the meetings of business officials for both Eastern and Western Suffolk BOCES that take place throughout the year.

Firm members actively participate in the New York State Society of Certified Public Accountants (NYSSCPA) Public School Accounting Committee. Our firm also participates in the American Institute of Certified Public Accountants (AICPA) Certificate of Educational Achievement Programs. Three of our partners have earned the AICPA Governmental Accounting and Auditing Certificate of Educational Achievement.

As a member of the American Institute of Certified Public Accountants (AICPA) Division of Firms, Cullen & Danowski undergoes a mandatory peer review of the accounting and auditing practice. This triennial review is conducted according to the quality control standards issued by the AICPA. At the conclusion of our most recent peer review, the review concluded the Firm met the objectives and received a "pass" opinion. Peer review opinions are classified as "passed," "passed with findings" or "failed." The receipt of a "passed" opinion is testimony to our commitment to the highest standards.

Our firm is independent as defined by both generally accepted auditing standards and the Government Accountability Office's *Government Auditing Standards* with regard to your district. As such, there are no conflicts of interest.

We provide general accounting, auditing, taxation, and management consulting services for clients in the private and public sectors. A major portion of our practice is devoted to providing services for governmental and not-for-profit organizations and, in particular, auditing local municipalities. Consequently, all staff members spend considerable time serving our municipal clients.

We keep our clients updated by mailings and we hold and/or participate in several informative workshops during the year for board members, superintendents, business officials and other staff members. Some of the topics include: internal controls, the internal audit function, types of audits, GASB Statements, district treasurer duties, payroll reporting, personnel compliance, reserve funds, fund balance management and New York State Teachers' and Employees' Retirement contributions.

We are experienced in dealing with the major bond counsels and fiscal advisors serving school districts. Our firm maintains associations with attorneys and other professionals who are helpful in providing a variety of services to school districts. We have interacted on behalf of our clients with federal and state government agencies on a variety of matters.

Fees for Services

We use a computerized client time record system, which enables us to track the actual time spent on an engagement by date, staff level, and work code. This time record assists us in projecting proposed fees. Based on our extensive experience in school district auditing and our estimate of the time required, we will undertake and complete the engagement for the fiscal year ending June 30, 2018 for the fee of \$8,500. If we are engaged at the discretion of the Board of Education for the following four years, the fees will be:

<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>2022</u>
<u>\$ 8,600</u>	<u>\$ 8,700</u>	<u>\$ 8,800</u>	<u>\$ 8,900</u>

The fee estimates are based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the engagement. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate before we incur the additional costs.

Peter F. Rodriguez, CPA, as partner of the firm of Cullen & Danowski, LLP, certifies that he is empowered to submit this bid and authorized to sign a contract with the Rocky Point Union Free School District on behalf of the Firm.

Every bid or proposal hereafter made to a political subdivision of the state or any public department, agency or official thereof where competitive bidding is required by statute, rule, regulation, or local law, for work or services performed or to be performed or goods sold or to be sold, shall contain the following statement subscribed by the bidder and affirmed by such bidder as true under the penalties of perjury: Non-collusive bidding certification.

The Firm is organized as a Limited Liability Partnership (LLP) engaged in the general practice of public accounting. The practice includes accounting and auditing services, tax planning and preparation, management advisory services, and computer consulting. Our diverse client base includes governmental entities, educational institutions (including public and private colleges), health and welfare funds, pension funds, legal funds, nonprofit organizations, commercial businesses, professional firms, industrial firms, and individual tax work.

The Firm operates based on specialty Practice Units. Each Practice Unit is comprised of industry specialists from each of our offices. We are able to draw upon the experience of our industry specialists to provide our clients with the level of service they require. These specializations allow us to adapt to the rapidly-changing needs of our clients. We have developed these specialized areas and have assigned personnel with such expertise to manage those engagements. Our Firm has extensive experience with auditing school districts within New York State and has successfully and consistently met the demands that these complex engagements require.

Our Philosophy

At D'Arcangelo & Co., LLP, our success is measured in terms of our clients' complete satisfaction. Meeting all of your most specific needs is our first priority. Our staff is large enough to address our client's needs, yet small enough to maintain personalized services. Our clients receive individual attention backed by a wealth of experience and resources.

The partners of our Firm are an integral part of the audit team. They are not only involved in supervising staff but are directly involved in planning the audit, reviewing internal controls, designing audit procedures, meeting with client management, and developing reports. We believe this level of involvement is necessary to provide our clients with personal attention and to effectively respond to their requests and needs.

Quality Assurance

D'Arcangelo & Co., LLP is a member of the AICPA's Division for CPA Firms. As a member of the Division for CPA Firms, we must undergo a rigorous peer review during which another CPA firm examines our operating procedures and issues an opinion as to whether those procedures are sufficient to assure that our auditing and accounting work meets industry's standards. We received a rating of pass in our most recent peer review in 2013.

FIRM PROFILE

Our quality control procedures require that reports issued be subjected to review and approval by the Quality Control Department. All reports that leave our offices comply with current accounting, SEC (if appropriate) and other statutory requirements.

As members of the AICPA Center for Audit Quality, the AICPA Governmental Audit Quality Center, and the AICPA Employee Benefit Plan Audit Quality Center, we must also comply with additional training and oversight requirements.

Professional Activities and Training

In addition to our client experience, the Firm's partners and staff devote substantial time to improving themselves and servicing the profession. All audit personnel are required to complete a minimum of 40 hours of professional training annually. Partners and managers/in-charge accountants generally concentrate their training in their area of specialization.

JAE Club Proposal: Journalism Club (3rd and 4th Grade)

Updated

Date of Proposal:

January 9, 2017 – *Updated on April 24, 2017 to include 3rd and 4th grade students*

Club Advisor:

David Falcone

Club Name:

Journalism Club (3rd and 4th Grade)

Club Description:

The Journalism Club is for 3rd and 4th grade students at the Joseph A. Edgar Intermediate School in Rocky Point, NY. Students learn about journalism, the news media, and create an online student newspaper called “The Edgar Eagle” (www.edgareagle.org).

Grade Level:

Grades 3 and 4

Opportunities for Students:

The Joseph A. Edgar Intermediate School does not offer a club like the Journalism Club. The club at JAE can prepare students to write for the middle school and high school student newspapers.

Through the Journalism Club, JAE will have an online student newspaper called “The Edgar Eagle” (www.edgareagle.org). The online newspaper will schedule four issues a year. Additionally, the students in the club can learn about various aspects of journalism through my connections to NewseumEd in Washington D.C. and the Center for News Literacy at Stony Brook University.

Frequency of Meetings:

The Journalism Club will meet at least 25 times a year. Student enrollment will determine if the club will be broken up into smaller groups for meetings. This would be done in a similar way to the Crafty Cooks Club. The Journalism Club will meet at least twice a month (starting at the end of September) and will create at a minimum of four online student newspapers. While creating specific newspaper issues, the club will have meetings on a weekly basis.

STEM Science Club Proposal-Grades 3 & 4

The purpose of the club is to allow students the opportunity to complete various science activities that involve design, engineering and reflection. Each activity will begin with a planning/brainstorming phase. Next, the students will design their idea. After the design phase, the students will test their creation and analyze if modifications are needed. Lastly, students will explain if their design accomplished the task. Each activity will utilize a writing component in the form of a graphic organizer and/or a science journal.

Student collaboration is an important part of STEM learning. Students are encouraged to work collaboratively in groups to help them learn valuable communication skills. Being supportive and respectful help group members achieve their goals.

Grade 3 will meet twice a week for 12 weeks during October, November and December.

Grade 4 will meet twice a week for 13 weeks during January, February and March.

Option 1 - Same group of children from each grade level for the entire club season.

Option 2 – To accommodate more students, (2) six to seven week club sessions will be created for each grade level.

Potential STEM activities

- Drinking straws tower
- Mini plastic spoon launcher
- Tinfoil boat
- Newspaper parachute design

Why Is STEM Education So Important?

According to the U. S. Department of Commerce, STEM occupations are growing at 17%, while other occupations are growing at 9.8%. STEM degree holders have a higher income even in non-STEM careers. Science, technology, engineering and mathematics workers play a key role in the sustained growth and stability of the U.S. economy, and are a critical component to helping the U.S. win the future. STEM education creates critical thinkers, increases science literacy, and enables the next generation of innovators. Innovation leads to new products and processes that sustain our economy. This innovation and science literacy depends on a solid knowledge base in the STEM areas. It is clear that most jobs of the future will require a basic understanding of math and science. Despite these compelling facts, mathematics and science scores on average among U.S. students are lagging behind other developing countries.

What is STEM?

STEM stands for science, technology, engineering, and mathematics. STEM is important because it pervades every part of our lives. Science is everywhere in the world around us. Technology is continuously expanding into every aspect of our lives. Engineering is the basic designs of roads and bridges, but also tackles the challenges of changing global weather and environmentally-friendly

challenges to our home. Mathematics is in every occupation, every activity we do in our lives. By exposing students to STEM and giving them opportunities to explore STEM-related concepts, they will develop a passion for it and hopefully pursue a job in a STEM field. A curriculum that is STEM-based has real-life situations to help the student learn. Programs like Engineering For Kids integrates multiple classes to provide opportunities to see how concepts relate to life in order to hopefully spark a passion for a future career in a STEM field. STEM activities provide hands-on and minds-on lessons for the student. Making math and science both fun and interesting helps the student to do much more than just learn.

Why STEM?

"In the 21st century, scientific and technological innovations have become increasingly important as we face the benefits and challenges of both globalization and a knowledge-based economy. To succeed in this new information-based and highly technological society, students need to develop their capabilities in STEM to levels much beyond what was considered acceptable in the past." ([National Science Foundation](#))

Who benefits from STEM?

STEM education helps to bridge the ethnic and gender gaps sometimes found in math and science fields. Initiatives have been established to increase the roles of women and minorities in STEM-related fields. STEM education breaks the traditional gender roles. In order to compete in a global economy, STEM education and careers must be a national priority. Each and every decision made uses an aspect of STEM to understand the implications.

In conclusion, STEM education is critical to help the United States remain a world leader. If STEM education is not improved, the United States will continue to fall in world ranking with math and science scores and will not be able to maintain its global position. STEM education in school is important to spark an interest in pursuing a STEM career in students. However, teachers do not carry the whole burden of STEM education. Parents also must encourage their children to pursue STEM activities and increase awareness and interest at home and in extracurricular activities of the merits of STEM education.

Programs outside of school can help children to see that STEM is more than a class to finish. Having activities that show real-life implication of STEM can pull together the ideas presented in school and help to show how they benefit our society and even our world as a whole. Children can see that what they are learning now is pertinent to their future and the future of the whole world, creating an interest often lacking when learning new concepts that do not seem to carry real-world application. Engineering For Kids, for example, offers a suite of STEM enrichment programs for children ages 4 to 14.

The Middle School Shared Decision Making Team worked for an entire school year on the goal of creating an intramural program. After inviting our past athletic director, Mrs. Amy Agnesini and current athletic director, Mr. Charlie Delargy; a plan for implementing this new program was recommended through SDM.

The club proposal for the Middle School is that two clubs be recommended for “Middle School Intramurals.” Both intramural club advisors would receive a stipend to run the intramural program for sixth, seventh, and eighth grade students. Specifically, the intramural program will run before school during “0” period from 7:15 – 7:52 in the Middle School Gymnasium. In the Fall and Spring seasons the intramural program would be open only to sixth grade students on Mondays, Tuesdays, and Fridays during “0” period. During the winter season, 6th grade students would attend on Mondays; 7th grade students on Tuesdays, and 8th grade students on Fridays.

The SDM team recommended this intramural program to provide students not eligible to play sports in 6th grade with opportunities to engage in athletics at school. In addition, it would provide 7th and 8th grade students during lower playing seasons, such as winter, additional opportunities to play sports.

Dear Susann,

I am writing you this letter due to the numerous requests made by several students promoting the idea of sponsoring a "Variety Show" performance in the High School. For the past two years I have helped in assisting students coordinate and supervise this "student run" performance. As you are aware, several dates have been established and approved in preparation for this year's upcoming show in April. My wish is to make this an annual performance and identified on the schools event calendar. Each year I am absolutely blown away at the amount of true talent we have here at Rocky Point. I hope this request is given serious consideration to properly continue providing a vehicle for students to perform their talents.

Thank you for your consideration and please let me know if any additional information is required.

Rocky Point High School's Peer-2-Peer Writing Center

2016 – 2017

Proposal written by: Miss Rachel Allenger and Miss Jessica Schnall

Proposal and Objectives

Writing centers help students become more effective writers by highlighting the importance of the writing process in a low stakes, comfortable environment. Through guided revision techniques, writing centers encourage young writers to collaborate and experiment with different writing techniques and styles to be able to create sound, authentic writing pieces. The ultimate purpose of a writing center is to improve writing for all high school students involved through peer-to-peer, one-on-one tutoring.

The Peer-to-Peer Writing Center (P2P Writing Center) will provide individual writing support to assist students who struggle with the writing process, who have difficulties with grammar and the mechanics of writing, and who need help in revising and editing a draft before submission. Writing assistants will read through completed writing assignments and provide verbal feedback to help the student writer enhance his writing, fine-tune ideas, and minimize errors before submitting a piece to be graded.

Based on the model used by many college and universities, the objectives of the writing center include:

- Improving language usage and proofreading skills for students as well as writing assistants
- Expanding peer-to-peer academic services
- Assisting students on properly conveying and responding to constructive feedback
- Encouraging students of diverse academic backgrounds to work collaboratively

Program Benefits

The entire school community at Rocky Point High School will benefit from the writing center. A successfully run program provides school-wide benefits such as increasing peer-to-peer communication and collaboration, raising a global understanding of academic challenges as well as the diversity in learning styles in the school community, and increasing cost effective learning services that benefit all students across all content areas.

Student Benefits include:

- Low stakes environment for personalized feedback on writing
- Authentic responses to writing
- Engagement with peers

- Concentrated resources including personal feedback, rubrics, and writing samples and tutorials
- Providing volunteer opportunities
- Social interaction and community building
- Differentiated instruction
- Increased student accountability for writing assignments
- Reinforcing good writing habits

Writing Assistant benefits include:

- Increased understanding of writing and the writing process
- Collaborating learning
- Confidence in speaking, writing and overall communication with peers
- Active listening skills practice
- Participation in a community program
- Building identity and confidence as a writer
- Fostering authentic interaction with peers
- Transferable work experience and resume enhancement

Teacher benefits include:

- Encourage students to reflect on their own writing
- Allows more time for students to conference about their writing
- Increases formative assessment
- Cross content writing support for all students in all courses

Materials and Logistics

A successful writing center will provide writing assistants and students with all the needed resources to help maintain a high level of productivity and effectiveness. Advisors will provide an initial training to writing assistants and continue with monthly meetings to ensure the writing center maintains a high level of effectiveness and integrity as well as continues to meet its objectives.

The materials that will be provided to writing assistants include:

- Peer tutor binder (Which will include: tutoring contracts, rubrics, outlines/graphic organizers)
- Highlighters, pens, pencils and other basic supplies
- Writing assignments from faculty members with writing samples
- Sign-in sheets
- Peer tutor schedule

In order to implement a successful program, writing assistants will understand and continue to work towards the objectives of the writing center. Advisors will ensure students are meeting and exceeding expectations. All writing assistants will participate in numerous training sessions where the advisors will convey the importance of constructive criticism, reader-based feedback, hands-off editing, and the power of listening.

Other logistical considerations include:

- Bi-weekly schedule (with the option to expand to weekly based on student demand), meeting in the library under the supervision of club advisors.
- Scheduled appointments between writing assistants and students. Walk-ins are not guaranteed writing assistance however, efforts will be made to accommodate.
- Writing assistants will complete an application, including a teacher recommendation, before being asked to join the program.
- Writing assistants and students will be required to complete a post-session form to monitor student and program progress.

What students can expect from the Writing Center:

1. Students can visit the Writing Center after they have completed a writing assignment before it is submitted for grading.
2. Students will sit beside a peer tutor and first discuss the writing assignment. Students may discuss a writing assignment from any discipline, not just English.
3. Students will then be asked to outline some of their concerns. During this time, the peer tutor will take notes.
4. The peer tutor will read the student's writing aloud. The student should highlight sentences or passages they would like to review.
5. After the reading, the peer tutor will address the student's concerns and specific areas of concern. The student will take notes and write down peer tutor suggestions.
6. At the end of the session, the peer tutor will address any remaining questions or concerns and schedule a follow-up appointment, if necessary.

What students (and/or teachers) should NOT expect from the Writing Center:**1. Editing of the paper:**

The philosophy of the writing center is that *writing is a process*. The writing center focuses on interactive tutoring sessions and guided revision techniques. Therefore, at no point will a peer tutor write on a student's paper or re-write any aspect of the essay verbally. The peer tutor will make suggestions to the writer and also record these suggestions so they are easy to remember and accessible to the student's teacher, if necessary. The writer must take ownership of his/her own assignment.

2. Addressing every possible problem or error

The peer tutor will address the concerns of the writer and will make suggestions regarding organization and clarity. It is not expected nor possible to address every problem or flaw within the writer's essay during the tutoring session. Therefore, the writer must take responsibility for his/her assignment and thoroughly inspect the assignment for completion before submitting the assignment for grading.

3. An automatic "A"

It is up to the student to take the suggestions made by the peer tutor. The peer tutor is there to aid the student toward improvement, not perfection. The student should take ownership of his/her own writing.

I agree to the aforementioned expectations of the Rocky Point Writing Center and will abide by the guidelines. I am accountable for my own improvement and success.
