Dear Residents,

Please use the following information to advocate for our schools. Presently, the Governor and legislators are working on the school aid for the 2008-09 year. The current proposal could negatively impact our District and local taxpayers.

I recommend that you write, e-mail or call the Governor to express your concerns. Please feel free to [use the sample letter as a template](#). Yes, each correspondence to our politicians makes a difference.

1. Call the Governor at: (518) 474-8390
