Sachem Student Presents Research at National Summit

Sachem High School East science research sophomore Asweel Mehaboob has been selected to present his research at the American Medical Informatics Association's 2020 Informatics Summit on Mar. 24 in Houston.

Asweel's research was selected from approximately 500 submissions spanning content areas including translational bioinformatics, clinical research informatics, implementation informatics and data science. As part of his expansive research, Asweel has worked with a team of college students at Stony Brook University over five weeks to develop and created an application for people with neurodegenerative diseases that improves touch accuracy on touchscreen devices. The application aims to ensure easier touchscreen device use for people suffering from conditions such as Parkinson's and Huntington's disease.

"Doing this research was a great experience," Asweel said. "It was very interesting to assist people suffering such complex diseases. It is incredible to know that I can already contribute to assist people with these types of conditions."

Featured News

The multipurpose room at Hiawatha Elementary School transformed into a courtroom as fifth grade students participated in mock trial proceedings, where the famous storybook character Goldilocks was tried for her suspected crimes against the Three Bears.

On Saturday, Jan. 25, the Seneca Middle School Lego Robotics Team competed in the FIRST Lego League Robotics qualifier event at Huntington High School.

For 20 years, Tom McGrath's seventh grade technology classroom at Sagamore Middle School has transformed into the Sagamore Speedway to culminate a lesson on aerodynamics with a wooden racecar competition between classmates.

Local professional boxer Cletus Seldin recently visited the Sachem High School North Little Theatre to speak about his professional boxing career and hand out Funko Pop! figures as part of his Pop for Tots organization.

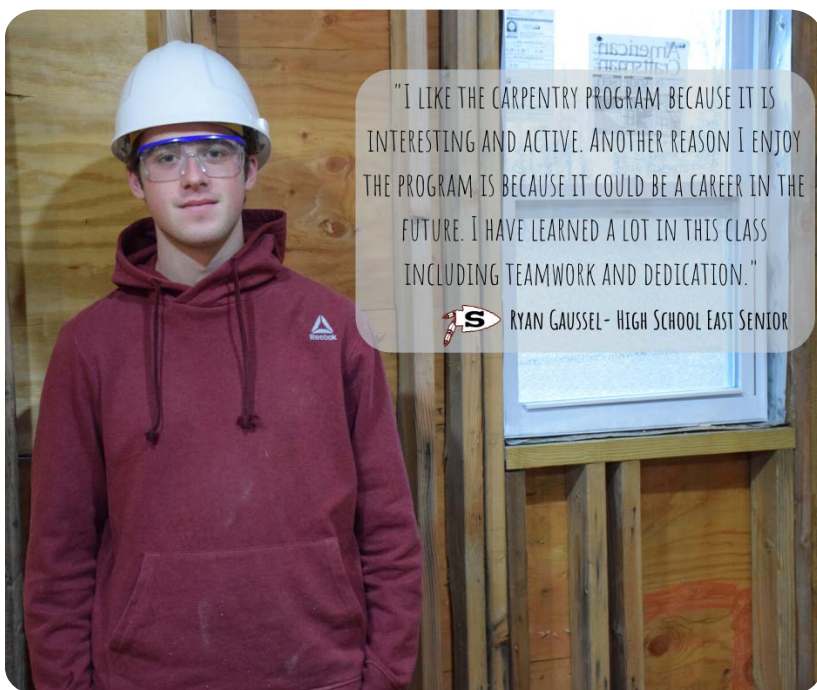

The Sachem Central School District Board of Education recently recognized a large group of student-musicians for their participation in music ensembles on the county, state, regional and national levels.
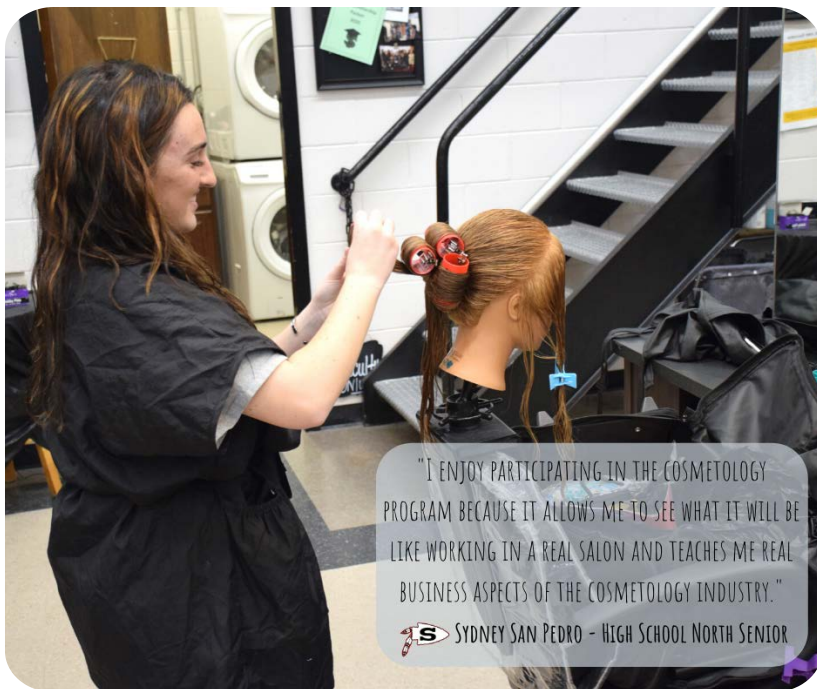

Before Valentine's Day, students across grade levels at Lynwood Avenue Elementary School donated items to the Northport Veterans Affairs Medical Center as part of the Valentines for Vets initiative.
