### Sahuarita Unified School District No. 30

December 22, 2020

Citizens and Governing Board Sahuarita Unified School District No. 30 350 West Sahuarita Road Sahuarita, AZ 85629-9000

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Sahuarita Unified School District No. 30 (District) for the fiscal year ended June 30, 2020.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2020, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2020, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

#### PROFILE OF THE DISTRICT

Sahuarita Unified School District No. 30 has been identified as a district of high growth in Arizona. With the continued expansion of the master planned community of Rancho Sahuarita, the District experienced a 1 percent increase in its student population last school year. Growth is expected to continue. That development, along with the traditional sections of the District such as the historic town site of Arivaca, Amado, the Elephant Head area, McGee Ranch, the Tri-Ranch area, Sahuarita Heights and the Santo Tomas area, has allowed the District to strengthen its service to the children of the community. The District receives its community services from three municipalities, Pima County, the City of Tucson, and the Town of Sahuarita. It has traditionally been an agricultural, mining, and ranching community and has now transitioned to a diversified suburban area. In recent years, there has been a significant increase in the residential presence of families with professional affiliation to federal immigration and law enforcement functions, such as U.S. Border Patrol and the Office of Homeland Security. There is also close proximity to a major defense installation, Davis – Monthan Air Force Base, and defense contractor, Raytheon Missile Systems. The Town of Sahuarita just completed a new Manufacturing Technology Center (SMTC). Northwest Medical Center in Sahuarita opened in fall 2020. Both will provide enhanced service and new employment sectors.

The Sahuarita Unified School District No. 30 is one of eighteen public school districts, with a current (FY20) population of 5,903 students, located in Pima County, Arizona. The District provides a program of public education from preschool through grade twelve.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five representatives elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. The District's major operations include education, pupil transportation, food service, construction and maintenance of District facilities, and athletic functions.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board. The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds.

The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have overexpenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

District policy indicates the District shall utilize the budget format prepared and prescribed by the Superintendent of Public Instruction in conjunction with the auditor general. The budget format is designed to allow school districts to plan and provide in detail for the use of available funds. Available operational funds include current year state formula funding, voter approved initiates such as a Maintenance and Operations (M&O) Fund override allowing the District to increase operational spending as well as budget balance carryover from the prior fiscal year. Through controlled spending, the District was able to grow its reserves in fiscal year 2019-20, to be better positioned in the new fiscal year.

#### FACTORS AFFECTING FINANCIAL CONDITION

Historically, Sahuarita Unified School District's local economy has been based on mining, ranching, and agricultural products. The copper industry has regained its position as a major employer and economic influence in the community. This has been enhanced by the continued important role of copper in the world market. Recent changes in the world market have created uncertainties in the price of copper and related metal, but the long-term role of mining in the region is foreseeably significant. Similarly, the large pecan grove, owned by Farmer's Investment Company (FICO), in the School District continues to enjoy economic success and is a major business partner and employer in the area. Recently, FICO received approval for long-term plans to develop the area, including plans for 19,000 new homes. The Company has entered in a voluntary agreement to provide multiple school site, and a school impact fee. The ranching areas of our community also continue to enjoy economic success. Many parents of the District's students travel for employment reasons into the metropolitan Tucson area, with a large number being employed by Raytheon Missile Systems, IBM, the University of Arizona, the U.S. Air Force, the U.S. Department of Homeland Security, and other private and public sector organizations. The

school community is also in close proximity to a major military installation, Davis-Monthan Air Force Base. Thus, numerous military families are represented among the school community. The Town of Sahuarita, which is included within the boundaries of the School District, has a comprehensive plan, which includes areas for light industry and commercial property. There have been recent announcements about the Town's possible annexation plans for significant property east of the current Town limits, and within the boundaries of the School District.

Rancho Sahuarita has continued to develop a shopping center located within its master planned community anchored by a Fry's Marketplace Food and Drug store. The Sahuarita School District lends a strategic business and education partnership to develop regional goal setting and development efforts. The Town received a large federal grant to construct an innovation center to support targeted economic development in identified technology oriented industries.

Long-term Financial Planning. Sahuarita Unified School District is continuing to experience growth in its student body. The assessed valuation increased 13.28 percent from 2018-19 values. The District utilized its bonding capacity to generate a \$27.0 million bond issue to finance new construction in fiscal year 2009-10 and beyond. Part of the bond issue has been used for new construction, remodeling of existing buildings, building an aquatics complex, and enhancing a new K-5 elementary school. In fall 2016 a \$20.0 million bond referendum was successful. The District's ninth (9) school Wrightson Ridge School is now open and serving almost 800 students in grades K-8.

In recent years, a land agreement was reached with a major land developer in the area for the contribution of 13.1 acres of land for the School District. This site is now home to the Sahuarita Educational Center, which includes an Aquatics Complex, the new Early Childhood Center and Copper View Elementary School. The current average age of school buildings is 26 years. The District opened its second high school, Walden Grove High School, in August 2011. This project was funded by the Arizona School Facilities Board with supplemental support from local bond programs. It opened with approximately 400 freshman and sophomore students enrolled in 2011-12. The enrollment number grew to 650 students for the 2012-13 school year. Walden Grove graduated its first class in May of 2014. Currently, over 1,100 students are enrolled.

The unprecedented growth, though recently slowing, will continue to be a challenge to the District finances. The District will have to consider additional sources of funding to meet the challenges of the growth. Construction of new buildings, to meet growth in student population, will necessitate consideration of additional bond elections as well as a continuation of the Maintenance and Operations Override. A 14 percent Maintenance and Operations override was renewed in November 2018. In 2016, a \$1,000,000 annual capital override was successful. These local funds have been critical to advancing the District's plan, especially in the current economic situation and uncertainty of stability with regular state funding streams. Assessed valuations have decreased especially for major mine properties. Additionally, recent State legislation has overtly increased the qualifying tax rate, thus further pushing the total tax liability upon the local tax payer. The District is continuing innovative approaches to cost management, such as the current energy savings initiative. The District has implemented an energy savings plan, highlighted by a large scale solar energy program across all schools and the District.

#### AWARDS AND ACKNOWLEDGMENTS

Awards. The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2019. This was the thirtieth consecutive year that the District has received this prestigious award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2019. In order to be awarded these certificates, the District published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2020 certificates.

### FINANCIAL SECTION

(This page intentionally left blank)

#### INDEPENDENT AUDITOR'S REPORT

Governing Board Sahuarita Unified School District No. 30

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sahuarita Unified School District No. 30 (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Sahuarita Unified School District No. 30, as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Change in Accounting Principle

As described in Note 1, the District implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, for the year ended June 30, 2020, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, and net pension liability information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory Section, Combining and Individual Fund Financial Statements and Schedules, and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Fund Financial Statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The Introductory Section and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2020, on our consideration of Sahuarita Unified School District No. 30's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sahuarita Unified School District No. 30's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Sahuarita Unified School District No. 30's internal control over financial reporting and compliance.

Tucson, Arizona December 22, 2020 MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (Required Supplementary Information)

(This page intentionally left blank)

As management of the Sahuarita Unified School District No. 30 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

#### FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities increased \$2.1 million which represents a four percent increase from the prior fiscal year primarily as a result of increased state aid revenues.
- General revenues accounted for \$54.7 million in revenue, or 83 percent of all current fiscal year revenues. Program specific revenue in the form of charges for services and grants and contributions accounted for \$11.2 million or 17 percent of total current fiscal year revenues.
- The District had approximately \$63.8 million in expenses related to governmental activities, an increase of seven percent from the prior fiscal year primarily due to an increase in salaries and related expenses.
- Among major funds, the General Fund had \$43.8 million current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$41.8 million in expenditures. The General Fund's fund balance increase from \$6.0 million at the prior fiscal year end to \$8.0 million at the end of the current fiscal year was primarily due to an increase in state equalization funding.
- The Debt Service Fund had \$6.1 million in current fiscal year expenditures. The Debt Service Fund's fund balance increased from \$989,190 to \$2.2 million, primarily due to increased property tax revenues.
- The Energy and Water Savings Fund had \$5.4 million in fiscal year expenditures. The Energy and Water Savings Fund's fund balance increased to \$11.2 million at fiscal year end as a result of a new capital lease agreement for energy efficient upgrades and solar energy structures.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are reported as governmental funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Debt Service, and Energy and Water Savings Funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and pension plan. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General Fund as required supplementary information. Schedules for the pension plan have been provided as required supplementary information.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$59.9 million at the current fiscal year end.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related outstanding debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2020 and June 30, 2019.

| Total net position               | \$ 59,927,470       | \$ 57,566,970       |

The District's financial position is the product of several financial transactions including the net result of activities, the issuance and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The following are significant current year transactions that had an impact on the Statement of Net Position.

- The addition of \$8.2 million in capital assets primarily due to a new capital lease for solar panels, and renovations of school sites.
- The principal retirement of \$4.0 million of bonds and capital leases.
- The increase of \$4.2 million in pension liabilities.

**Changes in net position.** The District's total revenues for the current fiscal year were \$65.9 million. The total cost of all programs and services was \$63.8 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2020 and June 30, 2019.

**Expenses - Fiscal Year 2020** 

The following are significant current year transactions that have had an impact on the changes in net position.

- The decrease of \$1.5 million in capital grants and contributions was due primarily to a decrease in funding from the School Facilities Board due to the completion of roofing projects in the prior year.
- State aid revenues increased \$2.1 million due to an increase in state equalization funding.
- The overall increase in expenses of \$4.0 million was due to increased salaries and related expenses.

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

- The cost of all governmental activities this year was \$63.8 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$11.2 million.
- Net cost of governmental activities of \$52.6 million was financed by general revenues, which are made up of primarily property taxes of \$24.2 million and state and county aid of \$30.3 million.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$28.6 million, an increase of \$13.2 million due primarily to a new capital agreement in the Energy and Water Savings Fund for solar panels and other energy efficient upgrades.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The General Fund comprises 28 percent of the total fund balance. Approximately \$7.4 million, or 92 percent of the General Fund's fund balance is unassigned.

The General Fund is the principal operating fund of the District. The increase in fund balance of \$2.0 million to \$8.0 as of fiscal year end was a result of an increase in state equalization funding. General Fund revenues increased \$3.0 million as a result of increased state equalization funding. General Fund expenditures increased \$1.5 million as a result of increased salaries and related benefit costs.

The Debt Service Fund's fund balance increased from \$989,190 to \$2.2 million as of the current fiscal year end, primarily due to increased property tax revenues.

The Energy and Water Savings' Fund fund's balance increased to \$11.2 million at fiscal year end as a result of a new capital lease agreement for energy efficient upgrades and solar energy structures.

#### **BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revised the General Fund annual expenditure budget for increases in student attendance. The difference between the original budget and the final amended budget was a \$2.8 million increase, or six percent primarily due to increased regular education salaries and related expenses.

Significant variances for the final amended budget and actual revenues resulted from the District not being required by the State of Arizona to prepare a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The overall favorable variance of \$5.4 million was a result of budgeting to the maximum general budget limit to maximize the budget carryforward to provide capacity in future years.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

**Capital Assets**. At year end, the District had invested \$185.8 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$8.0 million. Total depreciation expense for the current fiscal year was \$4.0 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2020 and June 30, 2019.

|                                   | As of         |             |    | As of        |

| Total                             | \$            | 133,031,760 | \$ | 128,849,276  |

The estimated cost to complete current construction projects is \$12.1 million. Additional information on the District's capital assets can be found in Note 7.

**Debt Administration.** At year end, the District had \$61.6 million in long-term debt outstanding, \$4.6 million due within one year. Long-term debt increased by \$12.5 million due to a capital lease entered into during the year for solar panels and other energy efficient upgrades.

The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 30 percent of the total net full cash assessed valuation) and the statutory debt limit on Class B bonds (the greater of 20 percent of the net full cash assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$105.3 million and the Class B debt limit is \$70.2 million, which are more than the District's total outstanding general obligation and Class B debt, respectively.

Additional information on the District's long-term debt can be found in Notes 8 through 10.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2020-21 budget. Among them, the fiscal year 2019-20 budget balance carry forward of an estimated \$5.0 million.

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund increased three percent to \$49.4 million in fiscal year 2020-21. State aid and property taxes are expected to be the primary funding sources. No new programs were added to the 2020-21 budget.

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Sahuarita Unified School District No. 30 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2020, the District implemented the provisions of GASB Statement No. 84, *Fiduciary Activities*. This Statement establishes criteria for identifying fiduciary activities for accounting and financial reporting purposes, and provides guidance as to how those activities should be reported. Student Activities reported in the prior year as fiduciary activities do not meet these new fiduciary activities criteria and have been reclassified as special revenue governmental funds. Beginning balances of the governmental funds and governmental activities have been restated by \$242,342 accordingly.

The more significant of the District's accounting policies are described below.

#### A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, and athletic functions.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities or fiduciary activities

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted federal, state and county aid, and other items not included among program revenues are reported instead as general revenues.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

<u>Fund Financial Statements</u> – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due.

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Property taxes, state and county aid, tuition and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as unavailable revenues on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

The District reports the following major governmental funds:

General Fund – The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District's Maintenance and Operation Fund as well as certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

<u>Debt Service Fund</u> – The Debt Service Fund accounts for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

<u>Energy and Water Savings Fund</u> – The Energy and Water Savings Fund accounts for capital investment monies, energy related rebate, or grant monies, and monies from other funding sources to fund energy or water savings projects in school facilities in accordance with A.R.S.

#### D. Cash and Investments

A.R.S. require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. All investments are stated at fair value.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable deposit insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

#### **E.** Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the governmental fund financial statements.

#### F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles. Interfund balances between governmental funds are eliminated on the Statement of Net Position.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## G. Property Tax Calendar

The County Treasurer is responsible for collecting property taxes for all governmental entities within the county. The county levies real and personal property taxes on or before the third Monday in August, that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

## H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased in the fund financial statements.

## I. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, furniture, and equipment; and construction in progress, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements 5 - 20 years Buildings and improvements 20 - 50 years Vehicles, furniture and equipment 5 - 15 years

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

## **K.** Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. Accrued sick leave is earned by all full-time employees at a rate of one day for every month with a maximum of 200 accrued days. All full-time classified employees earn vacation at rates depending on length of service. The current and long-term liabilities, including related benefits, for accumulated vacation and sick leave are reported on the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

#### L. Pensions

For purposes of measuring the net pension liability, related deferred outflows of resources and deferred inflows of resources, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### M. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Deferred amounts on refunding result from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

## N. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds.

## O. Net Position Flow Assumption

In the government-wide financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

#### P. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### NOTE 2 – FUND BALANCE CLASSIFICATIONS

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

**Nonspendable**. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

**Restricted**. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

**Committed.** The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District does not have a formal policy or procedures for the utilization of committed fund balance, accordingly, no committed fund balance amounts are reported.

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action. The District does not have a formal policy or procedures for the utilization of assigned fund balance, accordingly, no assigned fund balance amounts are reported.

*Unassigned*. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had be restricted, committed, or assigned.

The District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### NOTE 4 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

<u>Individual Deficit Fund Balances</u> – At year end, the following individual non-major governmental funds reported deficits in fund balance.

|  | <u>I</u> | Deficit |
|--|----------|---------|
| Non-Major Governmental Funds:          |          |         |
| Title I Grants                         | \$       | 31,946  |
| Title IV Grants                        |          | 29,168  |
| Limited English and Immigrant Students |          | 1,785   |
| Special Education Grants               |          | 40,328  |
| Vocational Education                   |          | 1,400   |
| Other Federal Projects                 |          | 58,543  |
| Gifted                                 |          | 80,838  |
| Other State Projects                   |          | 6,040   |
| Career Technical Education             |          | 32,085  |
| Building Renewal Grant                 |          | 28,686  |

The deficit arose due to capital purchases made during the year and/or because of pending grant and other reimbursements. Additional revenues received in fiscal year 2020-21 are expected to eliminate the deficit.

<u>Excess Expenditures Over Budget</u> – At year end, the District had expenditures in funds that exceeded the budgets, however, this does not constitute a violation of any legal provisions.

#### **NOTE 5 – CASH AND INVESTMENTS**

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$1,326,074 and the bank balance was \$1,308,236. At year end, \$409,554 of the District's deposits were covered by collateral held by the pledging financial institution's trust department or agent but not in the District's name. The Energy and Water Savings Fund also had \$13,406,318 held in an escrow account to be used to fund solar panels and other energy efficient equipment.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

#### NOTE 5 – CASH AND INVESTMENTS

The State Treasurer's pools are external investment pools, the Local Government Investment Pool (Pool 5) and Local Government Investment Pool-Government (Pool 7), with no regulatory oversight. The pools as an investment company are not registered with the Securities and Exchange Commission. The fair value of each participant's position in the State Treasurer investment pools approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. No regulatory oversight is provided for the County Treasurer's investment pool and that pool's structure does not provide for shares. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

At year end, the District's investments consisted of the following:

|                                     | Average Maturities | Fair Value    |
|-------------------------------------|--------------------|---------------|
| County Treasurer's investment pool  | 202 days           | \$ 10,950,560 |
| State Treasurer's investment pool 7 | 44 days            | 874,686       |
| Total                               |                    | \$ 11,825,246 |

*Interest Rate Risk*. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County's investment pool did not receive a credit quality rating from a national rating agency. The State Treasurer's investment pool 7 had a weighted average rating of AAA at year end as it was invested in obligations of the U.S. Government or obligations guaranteed by the U.S. Government.

Custodial Credit Risk – Investments. The District's investments in the State and County Treasurer's Investment pool represent a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

#### **NOTE 6 – RECEIVABLES**

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District's individual major and non-major governmental funds in the aggregate were as follows:

| Total depreciation expense – governmental activities | \$ 3,971,009 |

<u>Construction Commitments</u> – At year end, the District had contractual commitments related to energy efficient upgrades and other District renovations. At year end the District had spent \$5.8 million on the projects and had estimated remaining contractual commitments of \$12.1 million. These projects are being funded with bond proceeds, SFB revenues, and the Energy and Water Savings Fund.

## **NOTE 8 – OBLIGATIONS UNDER CAPITAL LEASES**

The District has acquired busses under the provisions of a long-term lease agreement classified as a capital lease. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of its future minimum lease payments as of the inception date. Revenues from the Unrestricted Capital Outlay Fund, a non-major governmental fund, are used to pay the capital lease obligation. Amortization of assets recorded under capital leases is included with depreciation expense.

The District has also financed energy efficient upgrades and solar energy structures that meet the District's capitalization threshold under the provisions of long-term lease agreements classified as capital leases. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Revenues from the General Fund will be transferred to the Energy and Water Savings Fund, a major governmental fund, to pay the capital lease obligations when due beginning next fiscal year.

## NOTE 8 – OBLIGATIONS UNDER CAPITAL LEASES

The assets acquired through capital leases that meet the District's capitalization threshold are as follows:

|                                   | Governmental Activities |           |
|-----------------------------------|-------------------------|-----------|

#### NOTE 9- GENERAL OBLIGATION BONDS PAYABLE

Bonds payable at year end consisted of the following outstanding general obligation bonds. The bonds are both callable and noncallable with interest payable semiannually. Property taxes from the Debt Service Fund are used to pay bonded debt. In addition, a portion of the District's school improvements bonds are Qualified Build America Bonds (BABS). The District receives a direct subsidy payment from the United States of America for a portion of the interest payment due on the bonds. The District's legal debt limit is \$105.3 million and the available margin is \$61.4 million.

#### NOTE 9- GENERAL OBLIGATION BONDS PAYABLE

<u>Private Placements</u> – The District's private-placement bond obligation terminates upon legal defeasance, prior redemption, or payment in full of all of the bonds. In the event of a failure of the District to comply with any provision of the bond disclosure certificate, any bondholder may seek specific performance by court order to cause the District to comply with its obligations under the bond disclosure certificate.

#### NOTE 10 - CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the current fiscal year was as follows:

|   | Beginning        |               |    |           | Ending         | Due Within   |

#### NOTE 11 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

**Due to/from other funds** – At year end, several non-major governmental funds had negative cash balances of \$192,465 in the Treasurer's pooled cash accounts. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with the General Fund. All interfund balances are expected to be paid within one year.

**Interfund transfers** – Transfers between funds were used to (1) to move funds of \$4,972 from the Career, Technical and Vocational Education Fund to the Gifts and Donations Fund to close out an inactive account and (2) to move investment income of \$29,584 earned in the Bond Building Fund, a major governmental fund, that is required by statute to be expended in the Debt Service Fund.

#### **NOTE 12 – CONTINGENT LIABILITIES**

<u>Compliance</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

<u>Arbitrage</u> – Under the Tax Reform Act of 1986, interest earned on the debt proceeds in excess of interest expense or expenditure prior to the disbursement of the proceeds must be rebated to the Internal Revenue Service (IRS). Management believes there is no tax arbitrage rebate liability at year end.

#### **NOTE 13– RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

#### NOTE 13– RISK MANAGEMENT

The District's employees have health and accident insurance coverage with the Arizona School Board Association Insurance Trust (ASBAIT). ASBAIT is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays a monthly premium to ASBAIT for employees' health and accident insurance coverage. The agreement provides that ASBAIT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District continues to carry commercial insurance for employee dental insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### **NOTE 14 – PENSIONS**

**Plan Description.** District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at <a href="https://www.azasrs.gov">www.azasrs.gov</a>.

The ASRS OPEB plans are not further disclosed because of their relative insignificance to the District's financial statements.

**Benefits Provided.** The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

**Contributions.** In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 12.11 percent (11.94 percent for retirement and 0.17 percent for long-term disability) of the members' annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 12.11 percent (11.45 percent for retirement, 0.49 percent for health insurance premium benefit, and 0.17 percent for long-term disability) of the active members' annual covered payroll. The District's contributions to the pension plan for the year ended June 30, 2020 were \$3.9 million.

#### **NOTE 14 – PENSIONS**

Employers are also required to pay an Alternate Contribution Rate (ACR), for retired members who return to work in positions that would typically be filled by an employee who contributes to ASRS. The District was required by statute to contribute at the actuarially determined rate of 10.41 percent (10.29 for retirement, 0.05 percent for health insurance premium benefit, and 0.07 percent for long-term disability). ACR contributions are included in employer contributions presented above.

The District's pension plan contributions are paid by the same funds as the employee's salary, with the largest component coming from the General Fund.

**Pension Liability.** The net pension liability was measured as of June 30, 2019. The total liability used to calculate the net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2018, to the measurement date of June 30, 2019. The District's proportion of the net liability was based on the District's actual contributions to the applicable plan relative to the total of all participating employers' contributions to the plan for the year ended June 30, 2019.

At June 30, 2020, the District reported the following amounts for its proportionate share of the pension plan net liability. In addition, at June 30, 2019, the District's percentage proportion for the plan and the related change from its proportion measured as of June 30, 2018 was:

| Net       |            | District     | Increase   |  |
|-----------|------------|--------------|------------|--|
| Liability |            | % Proportion | (Decrease) |  |
| \$        | 44,546,932 | 0.306        | 0.017      |  |

**Pension Expense and Deferred Outflows/Inflows of Resources.** The District has deferred outflows and inflows of resources related to the net pension liability. Certain changes in the net pension liability are recognized as pension expense over a period of time rather than the year of occurrence. The District's pension expense for the year ended June 30, 2020 was \$6.5 million.

#### **NOTE 14 – PENSIONS**

The District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred    |           | Ι  | Deferred   |  |
|--|-------------|-----------|----|------------|--|
|  | Outflows of |           | Ir | Inflows of |  |

| Contributions subsequent to the measurement date     |             | 3,897,732 |    |            |  |
| Total  | \$          | 7,284,131 | \$ | 2,783,582  |  |
|  |             |           |    |            |  |

The amounts of deferred outflows of resources resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as an adjustment of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year E | nding June 3 | 30: |           |
|--------|--------------|-----|-----------|
|        | 2021         | \$  | 953,553   |

|        | 2024         |     | 268,165   |

Actuarial Assumptions. The significant actuarial assumptions used to measure the total pension liability are as follows:

| Actuarial valuation date    | June 30, 2018       |

#### **NOTE 14 – PENSIONS**

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2016. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2017, actuarial valuation.

The long-term expected rate of return on ASRS plan investments was determined to be 7.5 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage excluding any expected inflation.

On June 29, 2018, the ASRS Board approved updated strategic asset allocation targets, to be effective July 2018. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

|                               |            | Long-Term      |  |  |

**Discount Rate.** The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### **NOTE 14 – PENSIONS**

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

#### SAHUARITA UNIFIED SCHOOL DISTRICT NO. 30 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2020

#### NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following items.

- Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.
- Employee insurance expenditures are budgeted in the year the employee insurance account is funded.

The following schedule reconciles expenditures and fund balances at the end of year:

|  |     | Total        | Fund Balances |             |  |

#### NOTE 2 – PENSION PLAN SCHEDULES

**Actuarial Assumptions for Valuations Performed.** The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

**Factors that Affect Trends.** The actuarial assumptions used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2016. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2017, actuarial valuation.

#### STATISTICAL SECTION

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

#### **Financial Trends**

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

#### **Debt Capacity**

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

### **Demographic and Economic Information**

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

#### **Operating Information**

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

**Note:** For locally assessed property (i.e., excluding mines, utilities, etc.) Proposition 117, approved by voters in 2012, amended the Arizona Constitution to require that all property taxes after fiscal year 2014-15 be based upon property values limited to five percent in annual growth. The aggregate assessed value of all taxable properties within a taxing jurisdiction (i.e., after applying assessment ratios based on the use of a property), including property values with a growth limit, is currently referred to as net limited assessed value and formerly as primary assessed value. In accordance with Proposition 117, this value is used for all taxing purposes beginning fiscal year 2015-16. Aggregate assessed value without a growth limit is currently referred to as net full cash assessed value and formerly as secondary assessed value. This remains the value utilized for determining debt capacity limits.

**Note:** On November 6, 2012, voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning with Tax Year 2015 (Fiscal Year 2016), both primary and secondary taxes are levied against the net limited assessed value. Primary taxes are used for general District operations. Secondary taxes are used to service District bonded debt requirements and other voter-approved overrides.

Note: On November 6, 2012, voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning with Tax Year 2015 (Fiscal Year 2016), both primary and secondary taxes are levied against the net limited assessed value. The net full cash assessed value is used for determining the District's bonding capacity and as the ceiling for net limited assessed value.

**Source:** The source of this information is the District's financial records.

**Notes:** 1) The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds outstanding and the statutory debt limit on Class B bonds outstanding. The calculations of the debt margins are presented in detail for the current fiscal year only.

2) Prior to FY17, net bond premium was restricted by amount and not subject to the statutory debt limit. Beginning with FY17, any additional net premium used for capital projects, bond counsel, printing and preparation of offering documents, a financial advisor, paying agent costs or to pay down debt is counted against both debt limits with the exception of amounts of premium deposited into the Debt Service Fund or a refunding escrow to pay interest payments.
