

Saint Jo ISD 6th Grade Advanced Math

Saint Jo ISD will automatically enroll each sixth grade student who performed in the top 40 percent on the Grade 5 STAAR mathematics assessment instrument in an advanced mathematics course. The purpose of the Middle School Advanced Mathematics Program is to increase the number of students who complete advanced mathematics courses in high school.

The parent or guardian of a student who will be automatically enrolled may opt the student out of automatic enrollment in the advanced mathematics program. Opt-Out Forms are available upon request from the Elementary Office. The Opt-Out Form must be completed by the parent or guardian in person in the Elementary Office.

If you have any questions or concerns, please feel free to reach out to us. We look forward to partnering with you to ensure a bright and successful academic journey for your student.
