*James Henderson, Ed.D.*

*Associate Superintendent of Academic Support*

*October 16, 2014*

**Creating responsible,  
intelligent,  
self-directed  
human beings  
through athletics**

# Public High League Football Helmet Program

- A new helmet has a shelf life of ten years before it is discarded
- The helmet manufacturer (Riddell) recommends each used helmet be reconditioned no less than every two years
- The Public High League reconditions all used helmets **every** year. Most helmets last between 7 and 10 years
- We have infused at least 8 new helmets each year for the past four years into each football program. Each school should have at least 32 helmets **4 years** old or less
- All used helmets are inspected and NOCSAE certified or rejected via the reconditioning process each year
- Most rejected helmets are replaced with new helmets by the PHL office or PHL, Inc.
