Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

Α.	Indirect c	2,449,958.76							
В.	Carry-for

C.	Carry-for

	2. Over-								
		oved indirect cost rate (5.03%) times Part III, Line B18) or (the highest rate used to er costs from any program (5.01%) times Part III, Line B18); zero if positive	(262,380.79)						
D.	Prelimina	ry carry-forward adjustment (Line C1 or C2)	(262,380.79)						
E.	Optional a	allocation of negative carry-forward adjustment over more than one year							
	Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.								
	Option 1.	Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	3.75%						
	Option 2.	Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment (\$-131,190.40) is applied to the current year calculation and the remainder (\$-131,190.39) is deferred to one or more future years:	3.98%						
	Option 3.	Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment (\$-87,460.26) is applied to the current year calculation and the remainder (\$-174,920.53) is deferred to one or more future years:	4.05%						
	LEA reque	est for Option 1, Option 2, or Option 3

S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements that have been ratified since budget adoption, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and superintendent.
