THE STORY

Our Vision

Glenwood Elementary School is a place where you will find dedicated educators, committed families, and engaged students working collaboratively to create a positive and rigorous 21st century learning environment. Students and teachers have mutual respect and high expectations for one another in order to foster college and career readiness skills.

Mission Statement

The purpose of the Glenwood School Community is to provide each student with a challenging educational program which develops and nurtures self-esteem, intellectual curiosity, independent thinking, and in the process, creates a happy and productive citizen.

Description

Glenwood Elementary School (a public K – 5 school) is perfectly situated in a clean, friendly neighborhood on the San Francisco Bay. There are lush, beautiful hillsides, a saltwater marsh, and the Bay in walking proximity. We work closely with neighborhood residents to maintain the rich natural environment that the Glenwood area provides for our students and families. The school serves a community composed primarily of single-family homes in east San Rafael, and also luckily includes intra-district transfer students from other areas of San Rafael.

At Glenwood, we listen and respond carefully to the wishes of our community to achieve a program of educational excellence. Our academic core subjects program is thematically integrated and differentiated to meet the needs of all of our learners. There is an emphasis on basic skills instruction that stresses grade level mastery in math and language arts. We believe that all persons on our campus are learners and thus have created a culture of constant professional development and collegial collaboration for staff in order to create and lead rigorous, differentiated instruction for all students.

During the 2019-2020 school year, Glenwood Elementary School will serve 385 students. Student enrollment ethnicity is 67% White, 21% Hispanic or Latino, 3% Asian, and 9% other groups. 11% of our students are English Learners. Our Special Education Program provides Individualized Education Plans for 9% of our population. 19% of our students are Socioeconomically Disadvantaged.

Glenwood has more than two hundred parent and community volunteers that support the work and vision of the school in everything from classroom volunteers and field trip drivers to community building activities.

There are currently twenty classrooms, a technology lab, an art studio, science lab, and 2 multi-purpose rooms on campus. In order to support our working parents, there is an efficient on-site daycare center for school-age children and interest based classes run by the City of San Rafael.

Forty-four staff members are united in their commitment to provide education for the 385 students that are enrolled. On site we have: one principal, seventeen credentialed classroom teachers, two resource specialists and three RSP instructional assistants, one speech and language specialist, two part-time

general education instructional assistants, one part-time psychologist, one part-time counselor, one part-time library clerk, five Encore consultants (they teach music, art, Yoga, science, and PE), one administrative assistant and one part-time secretary, one part-time community liaison, two custodians, one part-time food service staff person, one part-time occupational therapist, one part-time nurse and community health outreach employee, and one part-time instructional coach.

Glenwood values the strength in diversity and recognizes the strongest community is one comprised of fully developed individuals. The 2019-20 SPSA is based on available formative and summative student data, input from our School Site Council (SSC), Instructional Leadership Team (ILT), and the participation of all stakeholders in our learning community. While we recognize that achievement in all curricular areas is our goal, the SPSA emphasizes English-Language Arts and Mathematics as our primary focus areas.

Program Descriptions

English Language Arts

Program Goal:

To provide English language arts instruction (including reading, writing, spelling, handwriting, and vocabulary) to all students in order to ensure mastery of the California Common Core State Standards.

Glenwood teachers and staff have developed thematic ELA curriculum units that integrate the Common Core State Standards through the themes of the Social Studies and NGSS Science Standards. The curriculum at Glenwood is delivered through developmentally appropriate instructional practices that meet the needs of individual children.

Students are also taught reading using the adopted, standards-based Houghton Mifflin materials. These core materials are supplemented by other literature with an emphasis on nonfiction texts. *Writer's Workshop, Handwriting without Tears, ABC Cursive,* and other spelling and vocabulary programs are used to teach writing and penmanship. We value community ties and inspiring writing careers by hosting local author visits.

Kindergarten through third grades have begun to use the SEAL (Sobrato Early Academic Language) Model. The SEAL program is a professional development model for teachers to implement the Common Core Standards and provide <u>all</u> students:

- 1. Complex oral and academic language skills.
- 2. Engagement with complex texts
- 3. Development of language through enriched curriculum
- 4. Positive, joyful learning environment
- 5. 21st Century learner skills of collaborative practices and teamwork

SEAL also provides a Summer Bridge program for students and teachers to hone their skills.

Mathematics

Program Goal:

To provide math instruction (including number sense, problem solving, algebra, and math facts) to all students in order to ensure mastery of the California Common Core State Standards.

Students are taught math using the adopted, standards-based Everyday Math instructional materials. This is supplemented by Rocket Math, Houghton Mifflin Math, Math Steps, and other programs. Math is made fun and meaningful and its everyday importance is appreciated and shared with students daily.

Science and Social Studies

Program Goal:

To provide science and social studies instruction to all students in order to ensure mastery of the California State Standards and the Next Generation Science Standards.

Certificated teachers have created Common Core State Standards (CCSS) and Next Generation Science Standards (NGSS) aligned thematic units. In these units, students are taught science using the adopted, standards-based Harcourt instructional materials in conjunction with multimedia sources and non-fiction texts. These core materials are also supplemented by an Encore teacher who works with each classroom teacher to provide weekly science lessons through hands-on activities in the life, earth, and physical sciences. The GSF also supports this goal by funding Lawrence Hall of Science Week that provides the students with hands-on, interactive science activities. The Scott Foresman instructional materials are used to teach social studies. This is supplemented by interactive projects, CCSS aligned units, field trips, and other source materials. Our field trips are tied to our curriculum and we have many on site guest speakers.

Students participate in nine hands on engineering, mathematical, and science centered projects/experiments that are integrated into their Next Generation Science Standards units.

School Culture and Climate

Program Goal:

To foster a school environment that develops positive interactions between students, faculty, and parents, is conducive to student success, and promotes the Glenwood Code of Conduct (Safety, Responsibility, and Respect).

We place a high priority on establishing a positive climate for learning. To build a sense of responsibility, confidence, pride of accomplishment, and a positive self-image within each child, Glenwood's Positive Behavior Intervention and Supports (PBIS) program is designed to develop and articulate school-wide behavioral expectations.

Through our PBIS model, data-based decision-making aligns curriculum instruction and behavioral supports to student and staff needs. The program establishes clear expectations for behavior that are taught, modeled, and reinforced across all settings and by all staff. Glenwood's Code of Conduct underpinning all that we experience, teach and do are: Be Respectful, Be Responsible, Be Safe. An Expectation Rotation at the beginning of the year ensures all students receive the same message. During this rotation, they visit common areas and are given the community agreed upon rules for that area by a staff member. PBIS uses tiered models of service delivery. We collect data and have weekly meetings with our Tier 1 and Tier 2/3 teams. One of the goals of these meetings is to provide appropriate support for the classroom teacher as they help students get closer to expected behavior. This program helps to eliminate behavior barriers to academic success.

We have also developed a set of core components for Social-Emotional Learning and our Site Council is examining different programs and opportunities to develop these core components at Glenwood.

Intervention

Program Goal:

Students not meeting the required levels of standards mastery in English language arts will participate in the site-based targeted intervention program to reach the proficient level band.

Our Response to Intervention (RTI) model is a multifaceted program to service not only the intervention students, but those who need enrichment or additional academic challenge. The RTI model within UA time has solved several challenges. The first was that when students were pulled out of classrooms at varied times throughout the school day, they missed crucial instruction. The concern was that this method wouldn't close the achievement gap. Another challenge was that during the Student Study Team (SST) process, objective data was needed to provide the team with answers to the following questions: What methods have been utilized to help the student? What data can be used to show progress or a lack thereof? An additional benefit is UA time allows for differentiation of instruction where each student can receive precisely what they need in order to succeed.

During UA time, grade level teachers work together to find ways to provide this intervention without interrupting language arts or math instruction. In third through fifth grades, students might be rearranged across grade levels and grouped by specific needs. In kindergarten through second grades, grouping is made on a smaller scale during "centers" time.

In reference to specific RTI for struggling learners during UA, all students are screened at the beginning of the year. Based upon feedback from teachers and assessment data, target student lists are created. On an eight week cycle, a "Meeting of the Minds" is facilitated between the principal, classroom teachers, and the Instructional Assistants. Data is reviewed, discussions take place, and a plan with goals for each student is created. Struggling learners are provided with interventions at increasing levels of intensity to accelerate their rate of learning. These services are provided by a variety of personnel including general education teachers, special educators, instructional assistants, and trained parent volunteers.

Educational decisions about the intensity and duration of interventions are based on individual student response to instruction and movement towards goals. At the end of each cycle, another "Meeting of the Minds" takes place and we evaluate progress using common assessments. As students begin to show growth, their progress is monitored as they continue through the program. If students need more support, their services are reevaluated, and the frequency adjusted. If progress towards standards has yet to occur, the child's needs will be addressed in a formal Student Study Team (SST) meeting.

Our school-wide framework for efficiently allocating resources to improve student outcomes has been proven successful and is a true reflection of how we, as educators, have taken ownership of all Glenwood's students, not just the ones in our individual classes. Our success is due in part to the support staff that we have. Our instructional assistants spend their days providing us the ability to accommodate the needs of our target students. Our Encore teachers support the UA program by providing instruction while teachers participate in "Meeting of the Minds." We have created a shared and truly collaborative learning environment. Glenwood was honored to receive the California Gold Ribbon award for our RTI model and its ability to meet the needs of our targeted students.

Special Education Program (The Learning Center)

Program Goal:

To implement individualized education plans through our special education program by adapting content, teaching methodology and delivery instruction to meet the appropriate needs of each child.

We are committed to offering the most appropriate programs for all students by partnering with parents to develop successful learning environments for the academic and social success of each student. A number of supports are designed to meet the unique needs of students with disabilities and to enable their access to the general education curriculum. The Learning Center staff is qualified to deliver high quality, evidence-based instruction and support services, accommodations that do not alter the standards nor lower the expectations for students to successfully accomplish their work, and assistive technology devices and services to enable access to Common Core standards.

We have two special education teachers that work collaboratively with three instructional assistants to provide a robust program. They offer specialized academic instruction for language arts and mathematics, as well as academic support. Glenwood also provides speech and language services, occupational therapy services, counseling services, and other related services according to our students' IEPs.

Advanced Learner Program

Program Goal:

To ensure that all students are challenged with increased rigor, project based opportunities, and challenging curriculum.

Teachers observe the students as they work and creatively problem solve. Our students are given opportunities to experiment and learn skills, and the chance to personally express themselves in a positive environment. Our overarching goal is to provide experiences that produce joy and pride in their efforts in all aspects of their education. Classroom lessons include rigorous writing expectations (dialogue, quotations, multiple paragraphs), extension projects and presentations, GLAD expert groups or Desktop Teaching, use of technology such as iPads, Chromebooks, or tech lab time for extra projects around coding and blogging, differentiated classwork and homework, and higher level questioning and metacognition expectations.

Encore Program

Program Goal:

To foster an appreciation of the visual and performing arts, enrich the science learning experience, increase technology literacy skills, and encourage teamwork and an active lifestyle for our students.

The arts, including music and visual arts, are integrated into the curriculum in all grades and classes. Curricular objectives from all subject areas are integrated into music, art, and physical education classes as well. At Glenwood we call these classes "Encore" because they truly enhance the core subject material. At Glenwood, our Encore program was established to extend the child's exposure to specific skills taught by highly qualified and talented teachers. Every day, every student is given access to either art, music, hands-on science, library, Yoga or PE.

Art is proudly displayed throughout the school in each classroom, common areas, and hallways. Music is heard echoing through our school daily. Students are engaged in making connections between real life, the curriculum, and the arts. Our Encore classes tie directly to developing 21st century skills for student learning. We teach the arts to enhance academic, social-emotional, and artistic growth in all students, in order to educate the whole child. Through critical thinking, inquiry, creativity and appreciation of the arts, students are able to connect to themselves, each other, all cultures, and the beauty of the world.

Special Projects and Field Trips

Program Goal:

To provide our students with well rounded exposure to experiences as they matriculate through the grades.

Glenwood's field trips and special projects are tied to the grade level standards and unit themes:

- Kindergarten: A ballet performance, a working farm, Wildcare,
- First Grade: Marine Mammal Center, Muir Woods, SF Symphony, California Academy of Sciences,
- Second Grade: Slide Ranch, City of San Rafael City Hall, Guide Dogs for the Blind, Oakland Zoo,
- Third Grade: Lawrence Hall of Science, Kule Loklo, Civic Center Tour, Mosquito Man (on site), Poets in the schools (on site), Ocean Warriors (junior green team), Youth in Arts Native American Dance Series
- Fourth Grade: Sonoma Cline Mission Model Museums, Oakland Museum of California, Sacramento, Buck Center, Dance Series
- Fifth Grade: Poets in the Galleries, Darci Tucker Revolutionary Women (on site), Ben Franklin & the International Printing Museum (on site), Colonial Day, Outdoor Education at Walker Creek,

SPSA HIGHLIGHTS

This year Glenwood will:

Goal 1 College and Career Readiness

ELA:

- Continue to develop as a **Professional Learning Community** using data to drive instruction and intervention.
- Continue to implement balanced literacy through **guided reading**, strategy groups, and reading conferences.
- Train and support all teachers in the use of Writer's Workshop.
- Train and support kindergarten-third grade teachers in their implementation of the SEAL model.
- ELL students will receive a robust designated ELD program delivered by a credentialed teacher.

RTI:

- Continue to support the implementation of our RTI program and employ qualified support personnel for Universal Access support.
- Refine our SST work through goal setting with the support of the instructional coach and the CARE team.

Math:

• Align instructional strategies for teaching **math** while implementing interventions and use of technology to increase math problem solving strategies and computation fluency.

NGSS:

Continue to support teachers as they integrate the engineering standards into their units.

Goal 2 Professional Development

- Create a culture of valuing continued professional growth through the "Passport" program.
- Train kindergarten-third grade teachers on the SEAL model.
- Train and support all teachers in the use of Writer's Workshop.

Goal 3 Climate and Culture

- Continue to support the implementation of our Positive Eagle Program
- Establish **SEL** programs that include the following components: K-5 scope, Common Language, Upper Grade Leadership, Social-Emotional Learning Competencies, Empathy, Peace, Social-Justice, Kindness, anti-bullying, Parent Involvement, Partnerships with other SRCS schools
- Expand Yoga and Mindfulness classes K-5
- Build positive relations between the Site Council and the ELAC
- Improve student and staff safety through window tinting.
- Clarify the relationship and difference between the Site Council and the GSF
- Strengthen environmental stewardship by the starting the **Ocean Warriors** program as a subset of the Green Team.

Last year on the 2018-2019 SBAC test, according to the most recent Dashboard: In English Language Arts our school-wide performance scored in the High range. In Math, our school-wide performance scored in the Very High range (with an increase of 8 points.) Progress on the SBAC was shown in the following categories:

- English Language Learners showed improvement in English Language Arts (increase of 19 points) and in Mathematics (increase of 4 points)
- Hispanic students showed improvement in English Language Arts (increase of 12 points)
- Students with Disabilities showed improvement in English Language Arts (increase of 31 points) and in Mathematics (increase of 22 points)
- Reclassified students showed improvement in Mathematics (increase of 19 points)
- The performance gap between All Students and Students with disabilities decreased by 32 points in English Language Arts and by 14 points in Mathematics
- The performance gap between ELL students and All students in ELA decreased by 20 points.

According to end of year Fountas & Pinnell reading data from 2019, each grade level showed growth, with school-wide scores averaging slightly above the expected level.

Both summative and formative assessment data indicate that our greatest need is supporting students with disabilities and English learners in order to decrease the performance gap.

Our Students with Disabilities' performance:

• On the SBAC test they scored at 67 points below standard with an improvement of 31 points, and scored at 70 points below standard in Math with an improvement of 22 points. The performance gap between Students with Disabilities and All students in ELA is 112 points. In Math the gap is 113 points

Our students in the English Language Learner student group::

• Although there was growth, ELL students are still scoring low in ELA with 62 points below standard, improvement of 19 points. In Math, they score 65 points below standard, fairly stable. The performance gap between ELL students and All students in ELA is 107 points (improved by 20 points). In Math the gap is 108 points, stable.

GREATEST PROGRESS

GREATEST NEEDS

We will need to support all of our students while trying to eliminate the performance gap between our English only and English language learner students and students with disabilities in English Language Arts.

- We will restructure our delivery of designated ELD.
- ELD supports and scaffolding will be present in all CCSS units.
- Implementation of the SEAL model will continue in kindergarten through 3rd grade.
- Both general education and special education teachers will be provided with embedded collaboration time to support student's IEP goals.
- Assessments will be used to refine our Tier 1 intervention classroom instruction to better differentiate core instruction and small group support.
- Grade level PLC meetings will incorporate data analysis to further understanding and conversations to provide supports for our ELL students with the support of our instructional coach and our CARE team.
- Provide ongoing PD through the district Passport program, staff meetings, and ILT meetings.
- Grade level teams and ILT will develop multi-tiered systems of support for all ELLs, students with disabilities, and students of color
- Engage ELL families through parent/teacher conferences, ELAC meetings, and SEAL walkthroughs.

STAKEHOLDER ENGAGEMENT

SPSA Year

✓ 2017–18

✓ 2018–19

✓ 2019–20

Involvement Process for SPSA and Annual Update

How, when, and with whom did the School consult as part of the planning process for this SPSA/Annual Review and Analysis?

(8/29, 9/12 and 9/26 2017) The principals of San Rafael City Schools met together with guidance from our Educational Service Department to begin our work on the 2017 SPSA. We calibrated and analyzed district and school site trends.

(9/6/17) The Glenwood Staff reviewed and analyze the data from the California School Data Dashboard, the CAASPP data by cohort and year-to-year growth. We used this meeting to find our greatest growth.

(9/15/17) The principal met with the Glenwood School Foundation (GSF) presidents to review the Parent Survey and create goals based upon areas of continued growth.

(9/25/17) The School Site Council meet and reviewed last year's SPSA and Parent Survey results.

(10/11/17) The principal met with the ILT (Instructional Leadership Team) to further analyze our performance gaps and to review, edit, and finalize our action plans.

(10/1/18) The School Site Council met to review 2018 draft

(10/10/18) The principal met with the ILT to develop school-wide goal of developing a better system of support for our ELLs, students with disabilities and students of color (05/16/19, 06/03/19, and 08/26/19) The School Site Council met to provide input on draft goals and action steps for the 2019/2020 SPSA

(09/09/19) The School Site Council approved goals and action steps for the 2019/2020 SPSA

Impact on SPSA and Annual Update

How did these consultations impact the SPSA for the upcoming year?

The evaluation of our progress towards meeting our district and school goals took place at each meeting. The staff, ILT, and the SSC reviewed last year's plan and had guided discussion based upon the following questions:

- Did the school meet its goals?
- Have priorities changed?
- Should the goals be adjusted or eliminated?
- Do we need any new goals?
- What are our measurement criteria and are they still valid?
- Were last year's actions implemented?
- Did the actions produce the desired results?

Based on feedback from the meetings listed above, the goals and actions were collaboratively agreed upon. The substance of the school plan met with everyone's approval.

GOALS ACTIONS & SERVICES: RIGOROUS INSTRUCTION AND HIGH EXPECTATIONS

	☐ New ✓ Modified ☐ Unchanged	Recommended Indicators: SBAC Scores Quarterly Reading Inventory Assessments Bi-Annual F&P Assessments Math End of Unit Assessments CELDT levels
Goal 1	_	: Each student receives rigorous instruction and support and is held to high expectations so that they can foster critical rity, and communication skills in order to master Common Core State Standards while continuing to be college, career

Identified Need

As demonstrated by analysis of student work, growth measures, and standardized test results, there are pronounced performance gaps affecting students with limited socioeconomic supports and limited English language mastery. The need is to close the gap while raising the achievement level for all students.

GOAL SETTING: EXPECTED ANNUAL MEASURABLE OUTCOMES

CURRENT SCHOOL YEAR MONITORING AND ACTUAL OUTCOMES AT GOAL LEVEL

EXPECTED ACTUAL

Teachers and admin will monitor progress of students through formative and summative assessments, weekly PLC grade level data discussions, quarterly updates on progress towards standards (conferences and report cards), and Meeting of the Minds conversations that happen in eight week cycles.

With increased efforts to provide targeted, differentiated and rigorous instruction, student outcomes will continue to increase significantly for all student groups in ELA.

Goal 1, Action 1

PLANNED

- Site will provide PLC release-time to support teachers in the administration of ongoing, formative assessments to monitor academic growth and design targeted, differentiated learning opportunities within a balanced literacy program.
- Student work, PLC agendas and notes, shared common assessments, SMART goals and related assessment data toward meeting learning targets will be used to measure the impact of this process on instruction and student learning.
- PLC grade level meetings will include the creation of and/or use of shared assessments and the use of data to:
 - identify key concepts and skills that require reteaching
 - plan reteaching through the creation of strategic groupings
 - identify next steps in instructional cycle to improve teaching and learning

	integrated and designated ELD instruction.

Goal 1, Action 4

Multi-Tiered System of Suppo	rts Description: Tier 1 Academic Instruction
Designated ELD Instruction: ELL	students will receive a robust dedicated ELD program delivered by a credentialed teacher.
Students to be Served	□ All School □ Students with Disabilities □ [Specific Student Group(s)] (List here):
	 ✓ English Learners ☐ Foster Youth ☐ Low Income ☐ [Specific Grade span(s)] (List here):

PLANNED

- Each grade level will restructure the delivery of designated ELD supports in order to provide the best academic program taught by a certificated teacher to increase English acquisition for our targeted population.
- This will be evidenced through the implementation of this designated ELD structure and EL student growth in language arts as measured by F&P, English Language Proficiency Assessments for California (ELPAC), and other common assessments.
- ELL students will receive instruction that:
 - is based on the ELD standards and follows the California EL Roadmap.
 - values their home cultures and primary languages as assets and builds upon them for new learning.
 - has the same high expectations of learning established for all students.
 - gives them full access to a multi-disciplinary curriculum.
 - intentionally supports them in order to fully engage with intellectually challenging content using strategic scaffolding
 - Designated support will allow our English language learners to:
 - demonstrate independence
 - have strong content knowledge
 - respond to the varying demands of audience, task, purpose, and discipline when speaking
 - comprehend as well as critique text

	□ English Learners □ Foster Youth □ Low Income □ [Specific Grade span(s)] (List here):

ACTUAL

Actions/Services

Our Multi-Tier RTI program includes both academic and social-emotional components.

• Through a master schedule, grade levels have aligned times for their academic intervention throughout the day. Grade level teachers work

 together to find ways to provide this intervention without interrupting their instructional language arts or math time. As a team, we screen and create our target lists at the beginning of the year. A universal screening takes place during a meeting called the Meeting of the Minds. Classroom teachers, IAs, the special ed department, the school counselor, and the principal all participate in this meeting. Struggling learners are identified to be provided with interventions at increasing levels of intensity to accelerate their rate of learning in eight week cycles. These services are provided by a variety of personnel, including general education teachers, special ed educators/IAs, specialists/Instructional Assistants, counselor/psychologist and trained parent volunteers. Grade level teams meet with the instructional coach at least once a month to discuss individual student data and set problem solving smart goals to strategically support students with high-level tier 2 interventions. If data shows that there is little or no growth after 6-8 weeks of high quality intervention, the student will be referred to our CARE team, made up of general education and special education staff, to determine next steps, such as an SST or possible identification of learning disabilities.

CURRENT SCHOOL YEAR MONITORING AND ACTUAL OUTCOMES AT GOAL LEVEL

EXPECTED ACTUAL

If we provide focused professional development on differentiated literacy instruction to teachers in grades K-5 through staff development and district grade level meetings, and teachers receive site based support through instructional coaching, the following instructional practices will lead to joyful, proficient and independent readers and writers prepared for 21st century learning.

Rigor of small group instruction will increase to better match the needs of the students.

Engagement of ELL student will increase due to designated ELD, SEAL implementation and adjustments to the CCSS aligned units.

GOALS, ACTIONS & SERVICES: STUDENT ENGAGEMENT AND SCHOOL CLIMATE

	□ New✓ Modified□ Unchanged	Recommended Indicators: Suspension Rate Climate Survey End of the Year SIP Survey
Goal 3		ool Climate : Establish effective systems and welcoming environment that allow staff, students, and families to feel safe in participate fully in learning and in the school community.

Identified Need

School climate is a product of the interpersonal relationships among students, families, teachers, support staff, and administrators. These areas include diversity, inclusion, community building, engagement, safety and care for the school's physical environment. There is also a need for our staff to make instructional choices that provide our struggling student population with our best resources and personnel in order to increase student engagement.

GOAL SETTING: EXPECTED ANNUAL MEASURABLE OUTCOMES

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20

End of the Year Survey	Comments included lack of inclusion and diversity appreciation	More information and data analysis is needed	More information and data analysis is needed	

CURRENT SCHOOL YEAR MONITORING AND ACTUAL OUTCOMES AT GOAL LEVEL

EXPECTED ACTUAL Staff will receive professional development and staff meeting time will be used to collaboratively examine instructional practices and school climate. There will be discussions about ways to make teaching methods more differentiated and and culturally relevant, responsive to the wide range of students' preferred learning and communication styles, culture, socio-economic status, interests, behavior, linguistic characteristics, and achievement levels. Staff will become aware of social barriers that might impede a student or family's participation. There is a three-tiered prevention strategy that focuses on the prevention of student behavior problems and promotes a positive, collaborative school environment. School staff work together to create a school-wide program that clearly articulates positive behavioral expectations, recognizes when students and educators meet those expectations, and encourages data-based decision-making by staff and administrators. Teachers work with their grade level team to develop social and emotional competencies in children based on the understanding that learning is maximized in the context of supportive relationships and engaging

Goal 3, Action 1

educational settings.

Multi-Tiered System of Supports Description:

Positive Behavioral Intervention and Supports Initiative (at Glenwood we call it Positive Eagle Program or PEP): Staff will continue to implement and refine our PBIS initiative. The PBIS team will use the data collected in student information system. Our system is a reliable, confidential, web-based information system to collect, summarize, and use student behavior data for decision making.

Recommendations and Assurances

Attested:

The school site council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

- 1. The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.
- 2. The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the Single Plan for Student Achievement (SPSA) requiring board approval.
- 3. The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Parent Stakeholder Groups

The Glenwood School Foundation (GSF)

- 4. The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.
- 5. This SPSA is based on a thorough analysis of student academic performance. The actions proposed here in form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.
- 6. This SPSA was adopted by the SSC at a public meeting on: 10/07/19
