November Wednesday Meetings Overview

[Wednesday, November 2:](#) Departments will share and receive an electronic versions of Priority Standards with SRHS

Wednesday, November 9: Department Meetings

Wednesday, November 30: Faculty Meeting

Coaches Corner

Following our last whole staff PD, many teachers inquired about how to create a table like the progress tracker we used to track our Priority Standard work - Here is a [quick tutorial](#) for anyone that wants it. Also - check out this [teacher resources](#) page for more quick tech tips.

Halloween Spirit Day - Monday 10/31

On October 31st we will be celebrating Halloween Spirit Day. Students are encouraged to wear costumes; however, all costumes worn on our campus must be appropriate, in good fun, and suitable for high school-age students. Fake weapons of any type are not allowed, nor are excessively revealing costumes or racially insensitive outfits. Clown costumes and masks that cover the entire face are also not permitted. Costumes should not become opportunities to turn a person's identity into a stereotyped image. While students might choose to dress as a famous person or character whose identity is different than their own, darkening skin or using makeup to change skin color to match the person who they are dressing up to be is not allowed. Students wearing costumes deemed inappropriate by Terra Linda High School administration will be directed to remove their costumes and wear regular clothes. Please discuss costume options with your students in advance of 10/31.

College Board Forum 2022

Last week Lauren Inman, Caitlin Righetti-Marweg and I attended the College Board Forum 2022. As shared previously, we planned to attend the conference primarily to learn about AP Pre-Calculus, and to revisit the AP Computer Science A course which was last offered at TL in 2017. At the conference we learned about new four new AP courses on the horizon, in addition to hearing a lot about the Pre-AP program and how we can continue to increase the numbers of students accessing AP at Terra Linda by offering heterogenous (non-tracked) pre-AP courses in grades 9 and 10. Below are a few topics covered with a brief explanation for each.

- Pre-AP courses: Pre-AP English 9, Pre-AP English 10, Pre-AP World, Pre-AP Biology (NGSS), Pre-AP Chemistry (NGSS)
- New AP Courses: 4 new courses aligned with student's interests (AP Pre-Calculus (2023-2024), AP African American Studies (2024-2025), AP Anatomy & Physiology, AP Business Principles)
- AP Program Support: AP Courses provide a pathway forward with a mentor. Mental Health focus shared across all programs.
- [AP Program Updates: Looking Ahead - Presentation](#)
- [Using Pre-AP to Address Unfinished Learning - Presentation](#)
- [AP Computer Science Principles and Student Outcomes - Presentation](#)
- [Supporting College Access and Success for Hispanic Students - Presentation](#)
- [Increase AP Participation and Readiness with Pre-AP - Presentation](#)
- [Introducing AP Precalculus - Presentation](#)

Upcoming: Student/ Parent Tours

We will welcome prospective students and parents over the course of a handful of weeks this winter. Our first tour will take place on Monday, November 7th, from 8:45-10:15. Lauren will guide the parents, and Maria will escort our 8th graders. If it is not a good day to have parents/students dropping into your classroom, please email Lauren and Maria in advance and they will make a note not to go in.

Tour Dates: 11/7, 11/28, 12/5, 1/9, 1/23

Marin Career Technical Education Center at TLHS (spring 2023)

Through a partnership between the Marin County high school districts and the Marin County Office of Education, the new Marin Career Technical Education (CTE) Center, located on the campus of Terra Linda High School, in San Rafael, will open to students countywide this spring. The Marin CTE Center will expand the variety of available CTE courses and increase student accessibility by offering classes in the afternoons, evenings, and weekends, and providing transportation options across the county. This project is being funded through the Marin County Office of Education in partnership with private donors.

Example of Outdoor Workshop Structures (similar to what is proposed for Marin CTE Center)

Through the CTE Center we will be expanding courses at Terra Linda. This spring 2023, we will be adding a **ROP Careers in Education** course with a paid summer student internship. The course will be taught during 7th period on the TLHS campus by a TLHS CTE instructor. We will begin recruiting students in mid-November for the course. Similar to ROP Medical, the ROP Careers in Education course will provide students with a paid summer internship as a paraprofessional in Marin County earning \$24 per hour.

Veteran's Day Holiday (Friday, November 11th)

For those of you planning ahead for our Veterans Day Holiday on Friday, November 10th, the schedule will be as follows:

10/7 Monday: Traditional

10/8 Tuesday: A Day

10/9 Wednesday: B Day

10/10 Thursday: Traditional

10/11 Friday: Veteran's Day Holiday 😊

This schedule is meant to align with our regular weekly schedule as closely as possible and will have the least amount of impact on part-time staff members. More info: [Master Calendar](#)

HeadsUp Mini Grants

HeadsUp will award mini-grants of up to \$500 to support school enrichment in the arts, health, technology and literacy. Grants may be used for a program or supplies, but they must touch students directly (i.e. no proposals for professional development will be considered). Go to <https://www.donorschoose.org/teachers> and click "Get Started" to start your project grant request. You'll describe your students, shop online from stores like Amazon and Lakeshore (or request experiences like field trips for your students), and finish up by sharing it with the world! Most people spend about 20 minutes. Materials will be shipped to your school site. Any request should be a one-time ask for a specific project, guest speaker, field-trip, publication, etc. Please do not request items that should be funded through SRCS and TL general budgets (ie: basic classroom supplies, textbooks, etc).

If you are not sure whether something would qualify for a good grant request, please see Katy. Get your projects up as soon as possible at <https://www.donorschoose.org/teachers>.

Upcoming: Shelter in Place Drill 11/16

Thank you to all for your participation in our Shelter in Place/ Lockdown training last week. We will participate in a Shelter in Place drill for our entire campus on Wednesday, November 16 during 1st period tutorial. We will partner with SRPD to ensure our drill is aligned with SRPD/ law enforcement best practices. As always, please do not hesitate to ask any questions that may assure you are comfortable with the procedures.

Teacher Resources from the Library

Librarian, Kendra Rose is excited to share some instructional resources that have become available through our California State Library access to [ProQuest](#), which is a free academic database to aid students with research in a variety of subjects. All of these links are on the TL Library website under both [Teacher Resources](#) and [Student Resources-->Research](#), but here are a few highlights that you might find useful:

- [PBS Videos](#): Free access to over 1,200 streaming PBS series and documentaries (this one is particularly awesome as these docs and shows can be hard to find online!)
- [Research Companion](#): A self-paced, step-by-step tutorial for students on how to find, evaluate, and cite sources
- [Issue Researcher](#): A database devoted to pro/con articles on current events and issues
- [CultureGrams](#): Concise and reliable multimedia, articles, and stats about countries and states around the world

If anyone would like a one-on-one tutorial on how to access or use these resources, or support with planning any research unit, please feel free to contact Kendra Rose krose@srcs.org.
