E. Conclusions of 2021-22 Safe Schools Assessment

- Areas of Pride and Strength: (Components 1 & 2)
 - **Participation in Academic Activities:** We promote academics first and foremost daily. We ensure essential standards are at the forefront and have designated blocks of sacred time to protect the academic activities from being disrupted
 - **Effective Teacher-Student Relationships:** This is one of our strengths as we emphasize the need to meet children's emotional needs prior to attempting teaching; "Maslow AND Blooms"
 - **Preventing Weapons On Campus:** Given that we are an elementary school, this may have a lot to do with it. However, we do talk to students about appropriate behavior a lot through SOAR expectations.

- Areas to Change: (Components 1 & 2)
 - **Improving Safety of Buildings/Classrooms:** We agree that this can improve but much of it is beyond our current control (new buildings, new intercom system, restructuring of the area, hiring extra personnel)
 - **Improving Problem Solving Skills and Sense of Purpose/Future:** Ensuring that our students know that we want them to problem solve and focus on how they contribute to their own future is key. This could be bolstered further with growth mindset materials and tier 1 classroom-based lessons that focus specifically on that.
 - **Preparing students and staff for crisis & emergencies:** This is a strong goal to have that has been made difficult due to COVID. We will focus in on doing drills/lessons to assist students with navigating through these.

- Analysis of how the data, needs, and perceptions about the school's safety determined the goals: (EC 35294.2(a)(1))
 - **Preparing students and staff for crisis & emergencies:** This goal will be our focus as we want to ensure that we all are better prepared for emergency situations by practicing drills. We also might want to prepare for fire, earthquake and shelter in place.
 - **Improving Safety of Buildings/Classrooms:** A lot of this goal is currently beyond our control at the site level. We agree that this can improve but much of it is beyond our current control (new buildings, new intercom system, restructuring of the area, hiring extra personnel). This is a discussion to be had with our District Office each year to see what steps we can take to improve our facilities gradually.

- Generalized statement of goals for 2021-22 (EC 35294.2(a)(2)(H)):
 - We really work toward making sure Gabilan is as safe as possible by working hard on both our strengths (to keep them improving) as well as our areas of deficit.

V. School Safety Practices, Policies and Procedures

A. Bully Prevention

District Policy

The Board of Trustees recognizes the harmful effects of bullying on student well-being, student learning, and school attendance and desires to provide a safe school environment that protects students from physical and emotional harm. No individual or group shall, through physical, written, verbal, visual, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any student or school personnel, or retaliate against them for filing a complaint or participating in the complaint resolution process.

District Resources

The district utilizes the Sprigeo program which is a way to provide students and parents with a relevant way to report tips that keep their classmates safe and school administrators informed. The web site versions of the tip line can be utilized on personal devices as well as district-issued iPads, Chromebooks, etc. and can be located on the district's website.

B. Child Abuse Reporting Procedures

(Penal Codes 11164-11174.3 and Child Abuse & Neglect Reporting Act)

Soledad Unified S.D. Board Policy 5141.4

As stated in the Board Policy, "District employees are obligated to report all known or suspected incidents of child abuse and neglect in accordance with law, Board policy, and administrative regulation. Employees shall not investigate any suspected incidents but rather shall fully cooperate with agencies responsible for reporting, investigating and prosecuting cases of child abuse and neglect." District employees are mandated reporters.

Soledad Unified S.D. Administrative Regulation 5141.4 (b)

Mandated reporters include, but are not limited to, teachers; instructional aides; teacher's aides or assistants; classified employees; certificated pupil personnel employees; administrative officers or supervisors of child attendance; athletic coaches, administrators, and directors; administrators and employees of a licensed child day care facility; Head Start teachers; district police or security officers; licensed nurses or health care providers; and administrators, presenters, and counselors of a child abuse prevention program.

Reporting Procedures

- Complete Child Abuse reporting form.
- Call Monterey County Department of Social Services at (800) 6060-6618 or (831) 755-4461
- Forward completed Child Abuse Report form within 36 hours.
- Do not pass on the responsibility to report. However, you can/should consult with your supervisor.
- If you have a reasonable suspicion, you then have a duty to check (reasonable suspicion creates a duty).
- If in doubt, file.
- The burden of proof is not with you. Department of Social Services will do the investigation.
- School staff is not liable for defamation if done in the course and scope of your employment.

C. Discipline and School Rules

The Board of Trustees is committed to providing a safe, supportive, and positive school environment which is conducive to student learning and to preparing students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, use of effective school and classroom management strategies, provision of appropriate intervention and support, and parent involvement can minimize the need for disciplinary measures that exclude students from instruction as a means for correcting student misbehavior.

The Superintendent or designee shall develop effective, age-appropriate strategies for maintaining a positive school climate and correcting student misbehavior at district schools. The strategies shall focus on providing students with needed supports; communicating clear, appropriate, and consistent expectations and consequences for student conduct; and ensuring equity and continuous improvement in the implementation of district discipline policies and practices.

In addition, the Superintendent or designee's strategies for correcting student misconduct shall reflect the Board's preference for the use of positive interventions and alternative disciplinary measures over exclusionary discipline measures.

Disciplinary measures that may result in loss of instructional time or cause students to be disengaged from school, such as detention, suspension, and expulsion, shall be imposed only when required or permitted by law or when other means of correction have been documented to have failed. (Education Code 48900.5)

School personnel and volunteers shall not allow any disciplinary action taken against a student to result in the denial or delay of a school meal. (Education Code 49557.5)

At all times, the safety of students and staff and the maintenance of an orderly school environment shall be priorities in determining appropriate discipline. When misconduct occurs, staff shall attempt to identify the causes of the student's behavior and implement appropriate discipline. When choosing between different disciplinary strategies, staff shall consider the effect of each option on the student's health, well-being, and opportunity to learn.

Staff shall enforce disciplinary rules fairly, consistently, and in accordance with the district's nondiscrimination policies.

The Superintendent or designee shall provide professional development as necessary to assist staff in developing the skills needed to effectively implement the disciplinary strategies adopted for district schools, including, but not limited to, consistent school and classroom management skills, effective accountability and positive intervention techniques, and development of strong, cooperative relationships with parents/guardians.

District goals for improving school climate, based on suspension and expulsion rates, surveys of students, staff, and parents/guardians regarding their sense of school safety, and other local measures, shall be included in the district's local control and accountability plan, as required by law.

At the beginning of each school year, the Superintendent or designee shall report to the Board regarding disciplinary strategies used in district schools in the immediately preceding school year and their effect on student learning.

D. Dress and Grooming

Education Code 35294.2 (f)

Gang-related apparel is defined as apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus.

Soledad Unified S.D. Board Policy 5132 (Dress Code)

The Board of Trustees believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to wear clothing that is suitable for the school activities in which they participate. Students shall not wear clothing that presents a health or safety hazard or causes a substantial disruption to the educational program.

Soledad Unified S.D. Administrative Regulation 5132 (Gang-Related Apparel)

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel

E. Emergency Drills Schedules

California law requires public schools to conduct minimum emergency drills every school year. On an annual basis, school sites develop a calendar of scheduled emergency drills. Parents/Guardians are provided written notification during the first quarter of each school year about emergency procedures in the district.

1. Earthquake drills shall be practiced at least once each school quarter in elementary schools and at least once a semester in secondary schools (California Education Code 35297).
2. Fire drills shall be practiced not less than once every calendar month at the elementary level, four times every school year at the intermediate level and not less than twice every school year at the secondary level. In addition, each Administrator shall sound the fire alarm in a test monthly (California Education Code 32001).

Although not mandated by local or federal entities, the Soledad Unified School District schedules and conducts tactical response drills related to the increasing Active Shooter/Intruder events in schools nationwide.

A copy of the Emergency Drills Schedule is maintained in the school site administration office. A complete districtwide calendar is on file at the school district office in the Superintendent's Office or the Assistant Superintendent of Educational Services Office.

F. Hate Motivated Behavior

Soledad Unified S.D. Board Policy 5145.9

In order to create a safe learning environment for all students, the Board of Trustees desires to protect the right of every student to be free from hate-motivated behavior and will promote harmonious relationships among students so as to enable them to gain a true understanding of the civil rights and social responsibilities of people in society. The district prohibits discriminatory behavior or statements that degrade an individual on the basis of his/her actual or perceived race, ethnicity, culture, heritage, gender, sex, sexual orientation, physical/mental attributes, or religious beliefs or practices.

G. Nondiscrimination/Harassment

This policy shall apply to all acts constituting unlawful discrimination or harassment related to school activity or to school attendance occurring within a district school, and to acts which occur off campus or outside of school-related or school-sponsored activities but which may have an impact or create a hostile environment at school.

The Board of Trustees desires to provide a safe school environment that allows all students equal access to and opportunities in the district's academic, extracurricular, and other educational support programs, services, and activities. The Board prohibits, at any district school or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying, targeted at any student by anyone, based on the student's actual or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or association with a person or group with one or more of these actual or perceived characteristics.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on any of the categories listed above. Unlawful discrimination also occurs when prohibited conduct is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects a student's educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. In addition, the Superintendent or designee shall post the district's policies prohibiting discrimination, harassment, intimidation, and bullying and other required information on the district's web site in a manner that is easily accessible to parents/guardians and students, in accordance with law and the accompanying administrative regulation.

The Superintendent or designee shall provide training and/or information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district's nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district's educational program. The Superintendent or designee shall report the findings and recommendations to the Board after each review.

Regardless of whether a complainant complies with the writing, timeline, and/or other formal filing requirements, all complaints alleging unlawful discrimination, including discriminatory harassment, intimidation, or bullying, shall be investigated and prompt action taken to stop the discrimination, prevent recurrence, and address any continuing effect on students.

Students who engage in unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, in violation of law, Board policy, or administrative regulation shall be subject to appropriate consequence or discipline, which may include suspension or expulsion when the behavior is severe or pervasive as defined in Education Code 48900.4. Any employee who permits or engages in prohibited discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, shall be subject to disciplinary action, up to and including dismissal.

Record-Keeping

The Superintendent or designee shall maintain a record of all reported cases of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, to enable the district to monitor, address, and prevent repetitive prohibited behavior in district schools.

H. Notification to Teachers of Pupil Suspension or Expulsion

(Pursuant to Education Code 49079)

The district shall inform the principal/teachers annually of students who were engaged in, or reasonably suspected to have engaged in, for the previous three school years, any of the acts described in:

- Education Code 48900 subdivision [except subdivision (h)]
- Education Code 48900.2 (sexual harassment)
- Education Code 48900.3 (hate violence)
- Education Code 48900.4 (harassment of school/district personnel or pupil; threats/intimidation)
- Education Code 48900.7 (terrorist threat)

The principal/teacher shall keep this information in confidence and must not further disseminate.

Soledad Unified School District Board Policy 4158, 4258, 4358

The Board of Trustees desires to provide a safe and orderly work environment for all employees. As part of the district's comprehensive safety plan, the Superintendent or designee shall develop strategies for protecting employees from potentially dangerous persons and situations and for providing necessary assistance and support when emergency situations occur.

Any employee against whom violence or any threat of violence has been directed in the workplace shall notify the Superintendent or designee immediately. As appropriate, the Superintendent or designee shall initiate legal and security measures to protect the employee and others in the workplace.

The Superintendent or designee may pursue legal action on behalf of an employee against a student or his/her parent/guardian to recover damages to the employee or his/her property caused by the student's willful misconduct that occurred on district property, at a school or district activity, or in retaliation for lawful acts of the employee in the performance of his/her duties. (Education Code 48904, 48905)

I. Safe Ingress/Egress Procedures

Arrival & Dismissal Procedures

As students arrive on campus in the morning, during recess and lunchtime activities, and upon release after school, administration and school staff monitor entrance gates and the playground in order to ensure a safe environment is provided at all times.

J. Search and Seizure

Soledad Unified S.D. Board Policy 5145.12

The Board of Trustees is fully committed to promoting a safe learning environment and, to the extent possible, eliminating the possession and use of weapons, illegal drugs, and other controlled substances by students on school premises and at school activities. As necessary to protect the health and welfare of students and staff, school officials may search students, their property, and/or district property under their control and may seize illegal, unsafe, or otherwise prohibited items.

The Board urges that employees exercise discretion and good judgment. When conducting a search or seizure, employees shall act in accordance with law, Board policy, and administrative regulation.

The Superintendent or designee shall ensure that staff who conduct student searches receive training regarding the requirements of the district's policy and administrative regulation and other legal issues, as appropriate.

Individual Searches

School officials may search any individual student, his/her property, or district property under his/her control when there is a reasonable suspicion that the search will uncover evidence that he/she is violating the law, Board policy, administrative regulation, or other rules of the district or the school. Reasonable suspicion shall be based on specific and objective facts that the search will produce evidence related to the alleged violation. The types of student property that may be searched by school officials include, but are not limited to, lockers, desks, purses, backpacks, student vehicles parked on district property, cellular phones, or other electronic communication devices.

Any search of a student, his/her property, or district property under his/her control shall be limited in scope and designed to produce evidence related to the alleged violation. Factors to be considered by school officials when determining the scope of the search shall include the

danger to the health or safety of students or staff, such as the possession of weapons, drugs, or other dangerous instruments, and whether the item(s) to be searched by school officials are reasonably related to the contraband to be found. In addition, school officials shall consider the intrusiveness of the search in light of the student's age, gender, and the nature of the alleged violation.

Employees shall not conduct strip searches or body cavity searches of any student. (Education Code 49050)

Searches of individual students shall be conducted in the presence of at least two district employees.

The principal or designee shall notify the parent/guardian of a student subjected to an individualized search as soon as possible after the search.

Searches of Multiple Student Lockers/Desks

All student lockers and desks are the property of the district. The principal or designee may conduct a general inspection of school properties that are within the control of students, such as lockers and desks, on a regular, announced basis, with students standing by their assigned lockers or desks. Any items contained in a locker or desk shall be considered to be the property of the student to whom the locker or desk was assigned.

Use of Metal Detectors

The Board believes that the presence of weapons in the schools threatens the district's ability to provide the safe and orderly learning environment to which district students and staff are entitled. The Board also believes that metal

detector searches offer a reasonable means to keep weapons out of the schools and mitigate the fears of students and staff.

The Superintendent or designee shall use metal detectors at district schools as necessary to help provide a safe learning environment. He/she shall establish a plan to ensure that metal detector searches are conducted in a uniform and consistent manner.

Use of Contraband Detection Dogs

In an effort to keep the schools free of dangerous contraband, the district may use specially trained, nonaggressive dogs to sniff out and alert staff to the presence of substances prohibited by law or Board policy.

The dogs may sniff the air around lockers, desks, or vehicles on district property or at district-sponsored events. Dogs shall not sniff within the close proximity of students or other persons and may not sniff any personal items on those persons without their consent.

K. Suspension and Expulsion Policies

(Pursuant to Education Code §48900 and Soledad Unified School District Board Policy 5144.1)

The Board of Trustees desires to provide district students access to educational opportunities in an orderly school environment that protects their safety and security, ensures their welfare and well-being, and promotes their learning and development. The Board shall develop rules and regulations setting the standards of behavior expected of district students and the disciplinary processes and procedures for addressing violations of those standards, including suspension and/or expulsion.

The grounds for suspension and expulsion and the procedures for considering, recommending, and/or implementing suspension and expulsion shall be only those specified in law, in this policy, and in the accompanying administrative regulation.

Except when otherwise permitted by law, a student may be suspended or expelled only when the behavior is related to a school activity or school attendance occurring within any district school or another school district, regardless of when it occurs, including, but not limited to, the following: (Education Code 48900(s))

1. While on school grounds
2. While going to or coming from school
3. During the lunch period, whether on or off the school campus
4. During, going to, or coming from a school-sponsored activity

District staff shall enforce the rules concerning suspension and expulsion of students fairly, consistently, equally, and in accordance with the district's nondiscrimination policies.

Appropriate Use of Suspension Authority

Except when a student's act violates Education Code 48900(a)-(e), as listed in items #1-5 under "Grounds for Suspension and Expulsion: Grades K-12" of the accompanying administrative regulation, or when the student's presence causes a danger to others, suspension shall be used only when other means of correction have failed to bring about proper conduct. (Education Code 48900.5, 48900.6)

A student's parents/guardians shall be notified as soon as possible when there is an escalating pattern of misbehavior that could lead to on-campus or off-campus suspension.

No student in grades K 8 may be suspended for disruption or willful defiance, except by a teacher pursuant to Education Code 48910. (Education Code 48900)

Students shall not be suspended or expelled for truancy, tardiness, or absenteeism from assigned school activities.

On-Campus Suspension

To ensure the proper supervision and ongoing learning of students who are suspended for any of the reasons enumerated in Education Code 48900 and 48900.2, but who pose no imminent danger or threat to anyone at school and for whom expulsion proceedings have not been initiated, the Superintendent or designee shall establish a supervised suspension classroom program which meets the requirements of law.

Except where a supervised suspension is permitted by law for a student's first offense, supervised suspension shall be imposed only when other means of correction have failed to bring about proper conduct. (Education Code 48900.5)

Authority to Expel

A student may be expelled only by the Board. (Education Code 48918(j))

As required by law, the Superintendent or principal shall recommend expulsion and the Board shall expel any student found to have committed any of the following "mandatory recommendation and mandatory expulsion" acts at school or at a school activity off school grounds: (Education Code 48915)

1. Possessing a firearm which is not an imitation firearm, as verified by a certificated employee, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence
2. Selling or otherwise furnishing a firearm
3. Brandishing a knife at another person
4. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058
5. Committing or attempting to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a, or 289, or committing a sexual battery as defined in Penal Code 243.4
6. Possessing an explosive as defined in 18 USC 921

For all other violations listed in the accompanying administrative regulation the Superintendent or principal shall have the discretion to recommend expulsion of a student. If expulsion is recommended, the Board shall order the student expelled only if it makes a finding of either or both of the following: (Education Code 48915(b) and (e))

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

A vote to expel a student shall be taken in an open session of a Board meeting.

The Board may vote to suspend the enforcement of the expulsion order pursuant to the requirements of law and the accompanying administrative regulation. (Education Code 48917)

No student shall be expelled for disruption or willful defiance. (Education Code 48900)

No child enrolled in a preschool program shall be expelled except under limited circumstances as specified in AR 5148.3 - Preschool/Early Childhood Education.

Due Process

The Board shall provide for the fair and equitable treatment of students facing suspension and/or expulsion by affording them their due process rights under the law. The Superintendent or designee shall comply with procedures for notices, hearings, and appeals as specified in law and administrative regulation. (Education Code 48911, 48915, 48915.5, 48918)

Maintenance and Monitoring of Outcome Data

The Superintendent or designee shall maintain outcome data related to student suspensions and expulsions in accordance with Education Code 48900.8 and 48916.1, including, but not limited to, the number of students recommended for expulsion, the grounds for each recommended expulsion, the actions taken by the Board, the types of referral made after each expulsion, and the disposition of the students after the expulsion period. For any expulsion that involves the possession of a firearm, such data shall include the name of the school and the type of firearm involved, as required pursuant to 20 USC 7961. Suspension and expulsion data shall be reported to the Board annually and to the California Department of Education when so required.

In presenting the report to the Board, the Superintendent or designee shall disaggregate data on suspensions and expulsions by school and by numerically significant student subgroups, including, but not limited to, ethnic subgroups, socioeconomically disadvantaged students, English learners, students with disabilities, foster youth, and homeless students. Based on the data, the Board shall address any identified disparities in the imposition of student discipline and shall determine whether and how the district is meeting its goals for improving school climate as specified in its local control and accountability plan.

VI. Sample Communications Forms and Postings

A. Pandemic Influenza

PANDEMIC INFLUENZA

Pandemic flu is a worldwide outbreak of disease that occurs when a new flu virus appears that can spread from person to person. Because people have not been exposed to the new virus they have little or no immunity.

Therefore, serious illness or death is more likely to result. The illness rates for both seasonal and pandemic flu are high among children. Because schools are the most densely populated environments in society, they are likely to contribute significantly to the containment or to the spread of flu in the community.

Therefore, school closures may result as a means of reducing the overall illness rates within communities.

GOAL

Plan and increase preparedness for the possibility of an influenza pandemic.

Stages of Preparation include planning for:

- Mitigation and Prevention - anticipating needs
- Preparedness - planning what to do and how to do it
- Response - implementing your plan
- Recovery - what to do to return to normal

Principal/Designee

- Review instructions for staff and students
- Implement prevention policies and procedures including:
 - Posting of health education materials more frequently
 - Education of staff/students on how to cover coughs and sneezes
 - Education of staff/students on frequent hand washing
 - Use of waterless hand sanitizers and wipes
- Develop platoon system for rotation of staff, and identify a priority list for staff release.
- Plan for possible use of facility by Public Health Officials.

All Personnel

Basic elements required for pandemic influenza preparedness:

Any staff member can be designated to serve as Civil Service Worker

- Each employee will be assigned priority for serving as a Civil Service Worker depending on the need.
- The platoon system for rotation purposes will be implemented and a general plan made for systematic dismissal of staff.
- Students will be dismissed according to standard student release procedures as outlined for any emergency.
- “All Call” system will communicate with parents and staff as needed.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Revised: December 11, 2019

11. Discipline – BP 5144

The Board of Trustees is committed to providing a safe, supportive, and positive school environment which is conducive to student learning and to preparing students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, use of effective school and classroom management strategies, provision of appropriate intervention and support, and parent involvement can minimize the need for disciplinary measures that exclude students from instruction as a means for correcting student misbehavior.

The Superintendent or designee shall develop effective, age-appropriate strategies for maintaining a positive school climate and correcting student misbehavior at district schools. The strategies shall focus on providing students with needed supports; communicating clear, appropriate, and consistent expectations and consequences for student conduct; and ensuring equity and continuous improvement in the implementation of district discipline policies and practices.

In addition, the Superintendent or designee's strategies for correcting student misconduct shall reflect the Board's preference for the use of positive interventions and alternative disciplinary measures over exclusionary discipline measures.

Disciplinary measures that may result in loss of instructional time or cause students to be disengaged from school, such as detention, suspension, and expulsion, shall be imposed only when required or permitted by law or when other means of correction have been documented to have failed. (Education Code 48900.5)

School personnel and volunteers shall not allow any disciplinary action taken against a student to result in the denial or delay of a school meal. (Education Code 49557.5)

At all times, the safety of students and staff and the maintenance of an orderly school environment shall be priorities in determining appropriate discipline. When misconduct occurs, staff shall attempt to identify the causes of the student's behavior and implement appropriate discipline. When choosing between different disciplinary strategies, staff shall consider the effect of each option on the student's health, well-being, and opportunity to learn.

Staff shall enforce disciplinary rules fairly, consistently, and in accordance with the district's nondiscrimination policies.

Except when a student's presence causes a danger to himself/herself or others or he/she commits a single act of a grave nature or an offense for which suspension or expulsion is required by law, suspension or expulsion shall be used only when other means of correction have failed to bring about proper conduct. Disciplinary strategies may include, but are not limited to:

1. Discussion or conference between school staff and the student and his/her parents/guardians
2. Referral of the student to the school counselor or other school support service personnel for case management and counseling

10. After-school programs that address specific behavioral issues or expose students to positive activities and behaviors, including, but not limited to, those operated in collaboration with local parent and community groups

Recess Restriction

A teacher may restrict a student's recess time only when he/she believes that this action is the most effective way to bring about improved behavior. When recess restriction may involve the withholding of physical activity from a student, the teacher shall try other disciplinary measures before imposing the restriction. Recess restriction shall be subject to the following conditions:

1. The student shall be given adequate time to use the restroom and get a drink or eat lunch, as appropriate.
2. The student shall remain under a certificated employee's supervision during the period of restriction.

Students shall remain under the supervision of a certificated employee during the period of detention.

Students may be offered the choice of serving their detention on Saturday rather than after school.

Community Service

As part of or instead of disciplinary action, the Board, Superintendent, principal, or principal's designee may, at his/her discretion, require a student to perform community service during nonschool hours on school grounds or, with written permission of the student's parent/guardian, off school grounds. Such service may include, but is not limited to, community or school outdoor beautification, campus betterment, and teacher, peer, or youth assistance programs. (Education Code 48900.6)

22. Nondiscrimination/Harassment – BP 5145.3

This policy shall apply to all acts constituting unlawful discrimination or harassment related to school activity or to school attendance occurring within a district school, and to acts which occur off campus or outside of school-related or school-sponsored activities but which may have an impact or create a hostile environment at school.

The Board of Trustees desires to provide a safe school environment that allows all students equal access to and opportunities in the district's academic, extracurricular, and other educational support programs, services, and activities. The Board prohibits, at any district school or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying, targeted at any student by anyone, based on the student's actual or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or association with a person or group with one or more of these actual or perceived characteristics.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on any of the categories listed above. Unlawful discrimination also occurs when prohibited conduct is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects a student's educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. In addition, the Superintendent or designee shall post the district's policies prohibiting discrimination, harassment, intimidation, and bullying and other required information on the district's web site in a manner that is easily accessible to parents/guardians and students, in accordance with law and the accompanying administrative regulation.

The Superintendent or designee shall provide training and/or information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district's nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district's educational program. The Superintendent or designee shall report the findings and recommendations to the Board after each review.

Regardless of whether a complainant complies with the writing, timeline, and/or other formal filing requirements, all complaints alleging unlawful discrimination, including discriminatory harassment, intimidation, or bullying, shall be investigated and prompt action taken to stop the discrimination, prevent recurrence, and address any continuing effect on students.

Students who engage in unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, in violation of law, Board policy, or administrative regulation shall be subject to appropriate consequence or discipline, which may include suspension or expulsion when the behavior is severe or pervasive as defined in Education Code 48900.4. Any employee who permits or engages in prohibited discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, shall be subject to disciplinary action, up to and including dismissal.

Record-Keeping

The Superintendent or designee shall maintain a record of all reported cases of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, to enable the district to monitor, address, and prevent repetitive prohibited behavior in district schools.

8. Ensure that students and parents/guardians, including those with limited English proficiency, are notified of how to access the relevant information provided in the district's nondiscrimination policy and related complaint procedures, notices, and forms in a language they can understand.

In addition, students who observe any such incident are strongly encouraged to report the incident to the compliance officer or principal, whether or not the alleged victim files a complaint.

Transgender and Gender-Nonconforming Students

Gender identity of a student means the student's gender-related identity, appearance, or behavior as determined from the student's internal sense, whether or not that gender-related identity, appearance, or behavior is different from that traditionally associated with the student's physiology or assigned sex at birth.

Gender expression means a student's gender-related appearance and behavior, whether stereotypically associated with the student's assigned sex at birth. (Education Code 210.7)

Gender transition refers to the process in which a student changes from living and identifying as the sex assigned to the student at birth to living and identifying as the sex that corresponds to the student's gender identity.

Gender-nonconforming student means a student whose gender expression differs from stereotypical expectations.

Transgender student means a student whose gender identity is different from the gender assigned at birth.

The district prohibits acts of verbal, nonverbal, or physical aggression, intimidation, or hostility that are based on sex, gender identity, or gender expression, or that have the purpose or effect of producing a negative impact on the student's academic performance or of creating an intimidating, hostile, or offensive educational environment, regardless of whether the acts are sexual in nature. Examples of the types of conduct which are prohibited in the district and which may constitute gender-based harassment include, but are not limited to:

1. Refusing to address a student by a name and the pronouns consistent with the student's gender identity
2. Disciplining or disparaging a student or excluding the student from participating in activities, for behavior or appearance that is consistent with the student's gender identity or that does not conform to stereotypical notions of masculinity or femininity, as applicable
3. Blocking a student's entry to the restroom that corresponds to the student's gender identity
4. Taunting a student because the student participates in an athletic activity more typically favored by a student of the other sex
5. Revealing a student's transgender status to individuals who do not have a legitimate need for the information, without the student's consent
6. Using gender-specific slurs
7. Physically assaulting a student motivated by hostility toward the student because of the student's gender, gender identity, or gender expression

The district's uniform complaint procedures (AR 1312.3) or Title IX sexual harassment procedures (AR 5145.71), as applicable, shall be used to report and resolve complaints alleging discrimination against transgender and gender-nonconforming students.

Examples of bases for complaints include, but are not limited to, the above list, as well as improper rejection by the district of a student's asserted gender identity, denial of access to facilities that correspond with a student's gender identity, improper disclosure of a student's transgender status, discriminatory enforcement of a dress code, and other instances of gender-based harassment.

To ensure that transgender and gender-nonconforming students are afforded the same rights, benefits, and protections provided to all students by law and Board policy, the district shall address each situation on a case-by-case basis, in accordance with the following guidelines:

1. Right to privacy: A student's transgender or gender-nonconforming status is the student's private information and the district shall only disclose the information to others with the student's prior written consent, except when the disclosure is otherwise required by law or when the district has compelling evidence that disclosure is necessary to preserve the student's physical or mental well-being. In any case, the district shall only allow disclosure of a student's personally identifiable information to employees with a legitimate educational interest as determined by the district pursuant to 34 CFR 99.31. Any district employee to whom a student's transgender or gender-nonconforming status is disclosed shall keep the student's information confidential. When disclosure of a student's gender identity is made to a district employee by a student, the employee shall seek the student's permission to notify the compliance officer. If the student refuses to give permission, the employee shall keep the student's information confidential, unless the employee is required to disclose or report the student's information pursuant to this administrative regulation, and shall inform the student that honoring the student's request may limit the district's ability to meet the student's needs related to the student's status as a transgender or gender nonconforming student. If the student permits the employee to notify the compliance officer, the employee shall do so within three school days.

As appropriate given the student's need for support, the compliance officer may discuss with the student any need to disclose the student's transgender or gender-nonconformity status or gender identity or gender expression to the student's parents/guardians and/or others, including other students, teacher(s), or other adults on campus. The district shall offer support services, such as counseling, to students who wish to inform their parents/guardians of their status and desire assistance in doing so.

2. Determining a Student's Gender Identity: The compliance officer shall accept the student's assertion of gender identity and begin to treat the student consistent with that gender identity unless district personnel

- present a credible and supportable basis for believing that the student's assertion is for an improper purpose.
3. **Addressing a Student's Transition Needs:** The compliance officer shall arrange a meeting with the student and, if appropriate, the student's parents/guardians to identify and develop strategies for ensuring that the student's access to educational programs and activities is maintained. The meeting shall discuss the transgender or gender-nonconforming student's rights and how those rights may affect and be affected by the rights of other students and shall address specific subjects related to the student's access to facilities and to academic or educational support programs, services, or activities, including, but not limited to, sports and other competitive endeavors. In addition, the compliance officer shall identify specific school site employee(s) to whom the student may report any problem related to the student's status as a transgender or gender-nonconforming individual, so that prompt action can be taken to address it. Alternatively, if appropriate and desired by the student, the school may form a support team for the student that will meet periodically to assess whether the arrangements for the student are meeting the student's educational needs and providing equal access to programs and activities, educate appropriate staff about the student's transition, and serve as a resource to the student to better protect the student from gender based discrimination.
 4. **Accessibility to Sex-Segregated Facilities, Programs, and Activities:** When the district maintains sex-segregated facilities, such as restrooms and locker rooms, or offers sex segregated programs and activities, such as physical education classes, intermural sports, and interscholastic athletic programs, students shall be permitted to access facilities and participate in programs and activities consistent with their gender identity. To address any student's privacy concerns in using sex-segregated facilities, the district shall offer available options such as a gender-neutral or single-use restroom or changing area, a bathroom stall with a door, an area in the locker room separated by a curtain or screen, or use of the locker room before or after the other students. However, the district shall not require a student to utilize these options because the student is transgender or gender nonconforming. In addition, a student shall be permitted to participate in accordance with the student's gender identity in other circumstances where students are separated by gender, such as for class discussions, yearbook pictures, and field trips. A student's right to participate in a sex-segregated activity in accordance with the student's gender identity shall not render invalid or inapplicable any other eligibility rule established for participation in the activity.
 5. **Student Records:** A student's legal name or gender as entered on the mandatory student record required pursuant to 5 CCR 432 shall only be changed with proper documentation. When a student presents government-issued documentation of a name and/or gender change or submits a request for a name and/or gender change through the process specified in Education Code 49070, the district shall update the student's records. (Education Code 49062.5, 49070)
 6. **Names and Pronouns:** If a student so chooses, district personnel shall be required to address the student by a name and the pronoun(s) consistent with the student's gender identity, without the necessity of a court order or a change to the student's official district record. However, inadvertent slips or honest mistakes by district personnel in the use of the student's name and/or consistent pronouns will, in general, not constitute a violation of this administrative regulation or the accompanying district policy.
 7. **Uniforms/Dress Code:** A student has the right to dress in a manner consistent with the student's gender identity, subject to any dress code adopted on a school site.

The principal or designee shall require all individuals supervising students to remain alert for unauthorized persons and dangerous conditions, promptly report any such observations to the principal or designee, and file a written report as appropriate.

In arranging for appropriate supervision on playgrounds, the principal or designee shall:

1. Clearly identify supervision zones on the playground and require all playground supervisors to remain outside at a location from which they can observe their entire zone of supervision
2. Consider the size of the playground area, the number of areas that are not immediately visible, and the age of the students to determine the ratio of playground supervisors to students

At any school where playground supervision is not otherwise provided, the principal or designee shall provide for certificated employees to supervise the conduct and safety, and direct the play, of students who are on school grounds before and after school and during recess and other intermissions. (5 CCR 5552)

The Superintendent or designee shall ensure that teachers, teacher aides, playground supervisors, yard aides, and volunteers who supervise students receive training in safety practices and in supervisory techniques that will help prevent problems and resolve conflicts among students. (Health and Safety Code 115725)

Students in a laboratory shall be under the supervision of a certificated employee. Students shall be taught laboratory safety, and safety guidelines and procedures shall be posted in science classrooms. Students shall receive continual reminders about general and specific hazards.

Hazardous materials shall be properly used, stored, and disposed of in accordance with law and the district's chemical hygiene plan.

Bloodborne pathogens shall be handled in accordance with the district's exposure control plan.

The district's emergency plan, emergency contact numbers, and first aid supplies shall be readily accessible.

Parents/guardians shall be made aware of the kinds of laboratory activities that will be conducted during the school year.

Regulation SOLEDAD UNIFIED SCHOOL DISTRICT

Approved: June 9, 2014 Soledad, California

Revised: December 11, 2019

28. Search and Seizure – BP 5145.12

The Governing Board is fully committed to promoting a safe learning environment and, to the extent possible, eliminating the possession and use of weapons, illegal drugs, and other controlled substances by students on school premises and at school activities. As necessary to protect the health and welfare of students and staff, and only as authorized by law, Board policy, and administrative regulation, school officials may search students, their property, and/or district property under their control and may seize illegal, unsafe, or otherwise prohibited items. School officials shall exercise discretion and use good judgment when conducting searches.

The Superintendent or designee shall ensure that staff who conduct student searches receive training regarding the requirements of the district's policy and administrative regulation and other legal issues, as appropriate.

Searches Based on Individualized Suspicion

School officials may search an individual student, the student's property, or district property under the student's control when there is a reasonable suspicion that the search will uncover evidence that the student is violating the law, Board policy, administrative regulation, or other rules of the district or the school. Reasonable suspicion shall be based on specific and objective facts that the search will produce evidence related to the alleged violation.

Any search of a student, the student's property, or district property under the student's control shall be limited in scope and designed to produce evidence related to the alleged violation. Factors to be considered by school officials when determining the scope of the search shall include the danger to the health or safety of students or staff, such as the possession of weapons, drugs, or other dangerous instruments, and whether the item(s) to be searched by school officials are reasonably related to the contraband to be found. In addition, school officials shall consider the intrusiveness of the search in light of the student's age, gender, and the nature of the alleged violation.

The types of student property that may be searched by school officials include, but are not limited to, lockers, desks, purses, backpacks, and student vehicles parked on district property.

A student's personal electronic device may be searched only if a school official, in good faith, believes that an emergency involving danger of death or serious physical injury to the student or others requires access to the electronic device information.

Employees shall not conduct strip searches or body cavity searches of any student. (Education Code 49050)

Searches of individual students shall be conducted in the presence of at least two district employees.

The principal or designee shall notify the parent/guardian of a student subjected to an individualized search as soon as possible after the search.

Searches of Student Lockers and Desks

All student lockers and desks are the property of the district. The principal or designee may conduct a general inspection of school properties that are within the control of students, such as lockers and desks, on a regular, announced basis, with students standing by their assigned lockers or desks. Any items contained in a locker or desk shall be considered to be the property of the student to whom the locker or desk was assigned.

Use of Metal Detectors

The Board finds that the presence of weapons in the schools threatens the district's ability to provide the safe and orderly learning environment to which district students and staff are entitled. The Board also finds that metal detector searches offer a reasonable means to keep weapons out of the schools and mitigate the fears of students and staff.

The Superintendent or designee shall use metal detectors as necessary to keep weapons out of schools and help provide a safe learning environment. The Superintendent or designee shall establish a plan to ensure that metal detector searches are conducted in a uniform and consistent manner.

Use of Contraband Detection Dogs

In an effort to keep the schools free of dangerous contraband, the district may use specially trained, nonaggressive dogs to sniff out and alert staff to the presence of substances prohibited by law or Board policy. The dogs may sniff the air around lockers, desks, or vehicles on district property or at district-sponsored events.

Dogs shall not sniff within the close proximity of students or other persons and may not sniff any personal items on those persons without individualized suspicion.

Policy SOLEDAD UNIFIED SCHOOL DISTRICT
Adopted: June 9, 2014 Soledad, California
Revised: November 10, 2021

29. Search and Seizure – AR 5145.12

Use of Metal Detectors

The Superintendent or designee shall ensure that the following safeguards are used when making metal detector scans:

1. Before walk-through, students shall be asked to empty their pockets and belongings of metallic objects.
2. If an initial metal detector activation occurs, students shall be asked to remove other metallic objects that they may be wearing (e.g., belt and jewelry) and to walk through a second time.
3. If a second activation occurs, a hand-held metal detector shall be used.
4. If the activation is not eliminated or explained, staff shall escort the student to a private area where an expanded search shall be conducted by a staff member of the same gender as the student in the presence of another district employee.
5. The search shall be limited to the detection of the cause of the activation.

Use of Contraband Detection Dogs

Contraband detection dogs shall not be used in classrooms or other district facilities when the rooms are occupied, except for demonstration purposes with the handler present. When used for demonstration purposes, the dog shall be separated from the students and not allowed to sniff any individual.

Prior to conducting an inspection, students shall be asked to leave the room that will be subject to the canine sniff. No student shall be forced to leave personal items behind for inspection, unless school officials have reasonable suspicion to search the item.

Only the dog's official handler shall determine what constitutes an alert by the dog. If the dog alerts on a particular item or place, the student having the use of that item or place, or responsibility for it, shall be called to witness the inspection. If a dog alerts on a locked vehicle, the student who brought the vehicle onto district property shall be asked to unlock it for inspection.

Notifications

At the beginning of each school year and upon enrollment, the Superintendent or designee shall inform students and parents/guardians about the district's policies and procedures for searches, including notice regarding:

1. The possibility of random searches of students, their belongings, their vehicles parked on district property, and district properties under a student's control, including lockers or desks
2. The district's contraband dog detection program
3. The use of metal detector scans

In addition, the Superintendent or designee shall ensure that signs are posted at all schools at which metal detectors are to be used to explain that anyone may be scanned by metal detector for guns, knives, or other illegal weapons when on campus or attending athletic or extracurricular events.

30. Sexual Harassment – BP 5145.7

The Governing Board is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits, at school or at school-sponsored or school-related activities, sexual harassment targeted at any student by anyone. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant in alleging sexual harassment.

The district strongly encourages students who feel that they are being or have been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult, or who have experienced off-campus sexual harassment that has a continuing effect on campus, to immediately contact their

teacher, the principal, the district's Title IX Coordinator, or any other available school employee. Any employee who receives a report or observes an incident of sexual harassment shall notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 5145.71 - Title IX Sexual Harassment Complaint Procedures or BP/AR 1312.3 - Uniform Complaint Procedures, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 5145.71 concurrently meets the requirements of BP/AR 1312.3.

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

The Superintendent or designee shall inform students and parents/guardians of the district's sexual harassment policy by disseminating it through parent/guardian notifications, publishing it on the district's web site, and including it in student and staff handbooks. All district staff shall be trained regarding the policy.

Instruction/Information

The Superintendent or designee shall ensure that all district students receive age-appropriate information on sexual harassment. Such instruction and information shall include:

1. What acts and behavior constitute sexual harassment, including the fact that sexual harassment could occur between people of the same sex and could involve sexual violence
2. A clear message that students do not have to endure sexual harassment under any circumstance
3. Encouragement to report observed incidents of sexual harassment even when the alleged victim of the harassment has not complained
4. A clear message that student safety is the district's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved
5. A clear message that, regardless of a complainant's noncompliance with the writing, timeline, or other formal filing requirements, every sexual harassment allegation that involves a student, whether as the complainant, respondent, or victim of the harassment, shall be investigated and action shall be taken to respond to harassment, prevent recurrence, and address any continuing effect on students
6. Information about the district's procedures for investigating complaints and the person(s) to whom a report of sexual harassment should be made
7. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable, including the right to file a civil or criminal complaint while the district investigation of a sexual harassment complaint continues
8. A clear message that, when needed, the district will implement supportive measures to ensure a safe school environment for a student who is the complainant or victim of sexual harassment and/or other students during an investigation

Disciplinary Actions

Upon completion of an investigation of a sexual harassment complaint, any student found to have engaged in sexual harassment or sexual violence in violation of this policy shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

Upon investigation of a sexual harassment complaint, any employee found to have engaged in sexual harassment or sexual violence toward any student shall be subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

Record-Keeping

In accordance with law and district policies and regulations, the Superintendent or designee shall maintain a record of all reported cases of sexual harassment to enable the district to monitor, address, and prevent repetitive harassing behavior in district schools.

3. Warning signs that may indicate depression, emotional distress, or suicidal intentions, such as changes in students' personality or behavior and verbalizations of hopelessness or suicidal intent

6. School and community resources and services, including resources and services that meet the specific needs of high-risk groups

3. Learn to listen, be honest, share feelings, and get help when communicating with friends who show signs of suicidal intent
4. Identify trusted adults, school resources, and/or community crisis intervention resources where youth can get help and recognize that there is no stigma associated with seeking services for mental health, substance abuse, and/or suicide prevention

Students shall be encouraged to notify a teacher, principal, counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.

Every statement regarding suicidal intent shall be taken seriously. Whenever a staff member suspects or has knowledge of a student's suicidal intentions based on the student's verbalizations or act of self-harm, the staff member shall promptly notify the principal or school counselor, who shall implement district intervention protocols as appropriate.

Although any personal information that a student discloses to a school counselor shall generally not be revealed, released, referenced, or discussed with third parties, the counselor may report to the principal or student's parents/guardians when there is reasonable cause to believe that disclosure is necessary to avert a clear and present danger to the health, safety, or welfare of the student or others within the school community. In addition, the counselor may disclose information of a personal nature to psychotherapists, other health care providers, or the school nurse for the sole purpose of referring the student for treatment. (Education Code 49602)

Whenever schools establish a peer counseling system to provide support for students, peer counselors shall receive training that includes identification of the warning signs of suicidal behavior and referral of a suicidal student to appropriate adults.

When a suicide attempt or threat is reported, the principal or designee shall ensure student safety by taking the following actions:

1. Immediately securing medical treatment and/or mental health services as necessary
2. Notifying law enforcement and/or other emergency assistance if a suicidal act is being actively threatened
3. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene
4. Removing other students from the immediate area as soon as possible

The principal or designee shall document the incident in writing, including the steps that the school took in response to the suicide attempt or threat.

The Superintendent or designee shall follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed. If the parent/guardian does not access treatment for the student, the Superintendent or designee may meet with the parent/guardian to identify barriers to treatment and assist the family in providing follow-up care for the student. If follow-up care is still not provided, the Superintendent or designee shall consider whether it is necessary, pursuant to laws for mandated reporters of child neglect, to refer the matter to the local child protective services agency.

For any student returning to school after a mental health crisis, the principal or designee and/or school counselor may meet with the parents/guardians and, if appropriate, with the student to discuss re-entry and appropriate next steps to ensure the student's readiness for return to school and determine the need for ongoing support.

Postvention

In the event that a student dies by suicide, the Superintendent or designee shall communicate with the student's parents/guardians to offer condolences, assistance, and resources. In accordance with the laws governing confidentiality of student record information, the Superintendent or designee shall consult with the parents/guardians regarding facts that may be divulged to other students, parents/guardians, and staff.

The Superintendent or designee shall implement procedures to address students' and staff's grief and to minimize the risk of imitative suicide or suicide contagion. The Superintendent or designee shall provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Students significantly affected by suicide death and those at risk of imitative behavior should be identified and closely monitored. School staff may receive assistance from school counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

Any response to media inquiries shall be handled by the district-designated spokesperson who shall not divulge confidential information. The district's response shall not sensationalize suicide and shall focus on the district's postvention plan and available resources.

After any suicide or attempted suicide by a student, the Superintendent or designee shall provide an opportunity for all staff who responded to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future action.

Students shall not be suspended or expelled for truancy, tardiness, or absenteeism from assigned school activities.

To ensure the proper supervision and ongoing learning of students who are suspended for any of the reasons enumerated in Education Code 48900 and 48900.2, but who pose no imminent danger or threat to anyone at school and for whom expulsion proceedings have not been initiated, the Superintendent or designee shall establish a supervised suspension classroom program which meets the requirements of law.

2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

The Budget Act of 2016 (SB 826, Ch. 23, Statutes of 2016) extends the suspension of these requirements through the 2016-17 fiscal year. As a result, certain provisions of the following administrative regulation related to transportation safety plans and safety instruction for students may be suspended.

At the completion of each day's work, the driver shall prepare and sign a written report of the condition of the equipment specified in 13 CCR 1215. The report shall indicate any defect or deficiency discovered by or reported to the driver which would affect safe operation or result in mechanical breakdown of the bus or, if no defect or deficiency was discovered or reported, shall so indicate. Any defect or deficiency that would affect safe operation shall be repaired prior to operating the bus. (13 CCR 1215)

Passenger Restraint Systems

The Superintendent or designee shall ensure that any school bus or student activity bus which is purchased or leased by the district is equipped with a combination pelvic and upper torso passenger restraint system at all designated seating positions if that bus: (Vehicle Code 27316, 27316.5; 13 CCR 1201)

2. Is a Type 2 school bus or student activity bus manufactured on or after July 1, 2004 which meets one of the following criteria:
 - a. Is designed for carrying 16 or fewer passengers and the driver
 - b. Has a manufacturer's vehicle weight rating of 10,000 pounds or less and is designed for carrying not more than 20 passengers and the driver

The Superintendent or designee shall prioritize the allocation of school buses purchased, leased, or contracted to ensure that elementary students receive first priority for new school buses equipped with passenger restraint systems whenever feasible.

When a school bus or student activity bus is equipped with a passenger restraint system, all passengers shall use the passenger restraint system. (5 CCR 14105)

Bus drivers shall be instructed regarding procedures to enforce the proper use of the passenger restraint system. Students who fail to follow instructions of the bus driver may be subject to discipline, including suspension of riding privileges, in accordance with Board policy and administrative regulations.

A bus driver is prohibited from driving a school bus or student activity bus while using a wireless telephone or other electronic wireless communications device except for work-related or emergency purposes, including, but not limited to, contacting a law enforcement agency, health care provider, fire department, or other emergency service agency or entity. In any such permitted situation, the driver shall only use a wireless telephone or device that is specifically designed and configured to allow voice-operated and hands-free operation or a function that
