## 3. Verify your Contact Information

Check the Demographics and Contacts tabs (under the more section in the app) to verify that information is correct. During the re-registration period you can make changes by clicking the re-registration link. Otherwise come into the office for a change of address form. It's very important to keep contact information up to date.

## 4. Set your Communications Preferences

There are two places to set preferences. On the main portal page (web only) set what kind of Announcements you want to receive. Then in Communications you can choose how to receive each kind of communication. (Call, text, or email) This is set in the Notifications menu after clicking your initials icon.
