## Student Spotlight

This week the CTE department is happy to recognize Dylan Kappl for Student of the Month for his outstanding work in Computer Science and Video Game Design. Dylan did an excellent job in his Junior year learning 2D game design in Intro to Programming, making a successful platform jumper style game. He was quiet and calm in class, not drawing attention to himself, but his outstanding work spoke for itself. This year in Game design, he is doing just as well as he designs a 3D tank game. He is engaged in his lessons and is typically the first student done and with excellent results. His classmates know him to be helpful and kind and to model the SHS creed: Accountable, Respectful, and Engaged. Not only is Dylan a great student, but a gifted athlete as well. He is in the top 5 on the Trap team and dominates on the football field. After high school, Dylan wants to major in Computer Science at Columbia College for two years and then continue his training in the Air Force. With his intelligence and strong work ethic, we know he will do well at whatever he chooses. The CTE department congratulates Dylan on being the student of the month and wishes him success in the future.

All Students recognized in the student spotlight receive a free meal from Sierra Energy/Squeeze Burger
