

# SMART SCHOOLS BOND ACT

SMART  
SCHOOLS  
FUNDING  
CAN BE  
USED FOR:

- ▶ Installing high-speed broadband or wireless internet connectivity
- ▶ Acquiring learning technology equipment
- ▶ Installing high-tech security features in school buildings and on school campuses

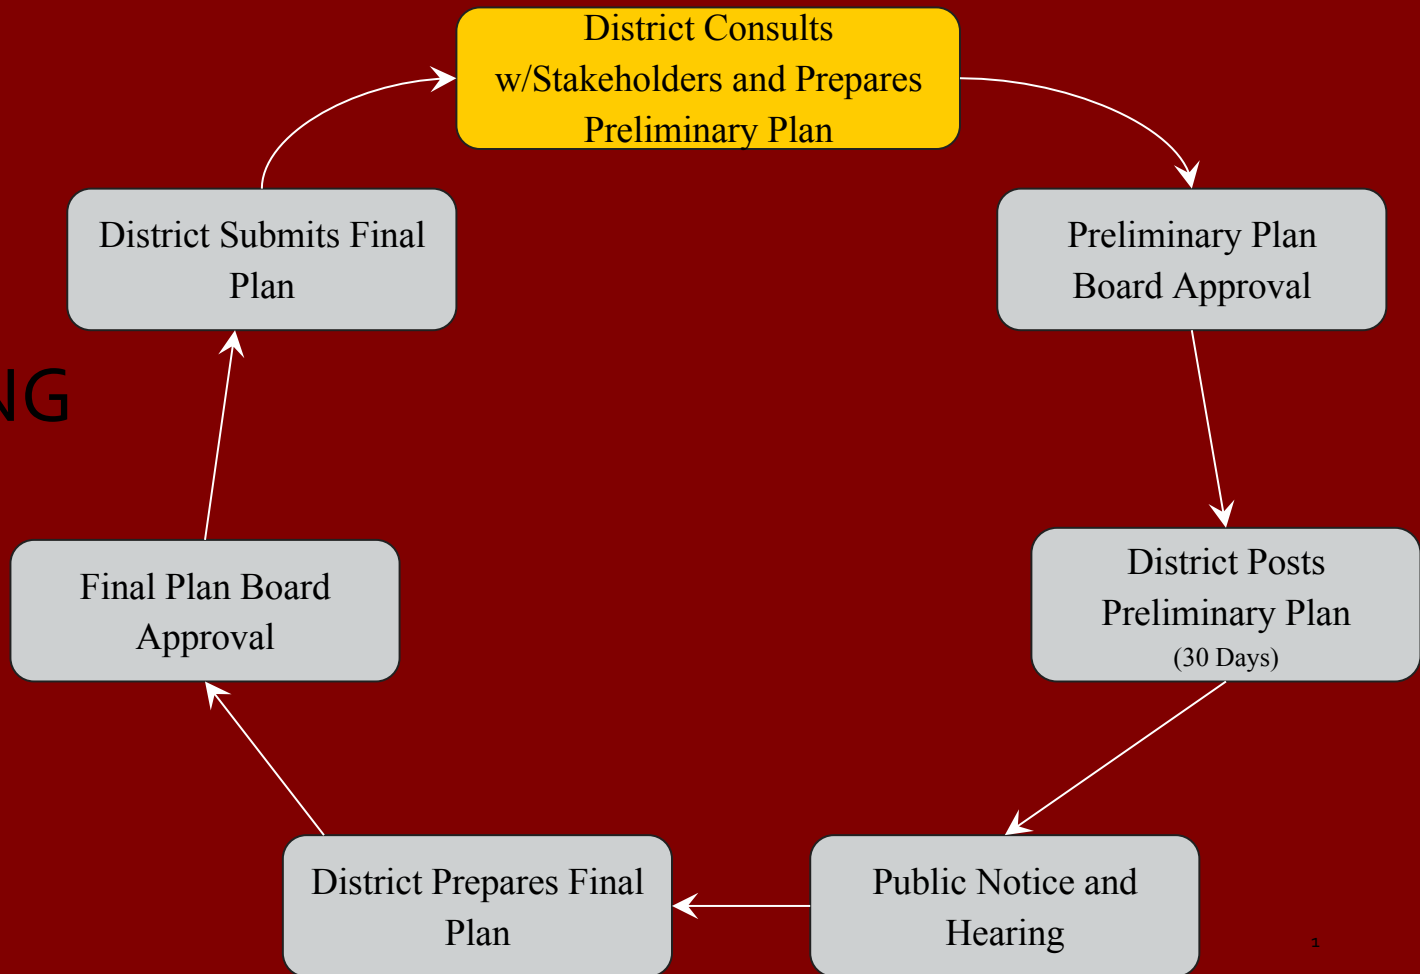

**\$2,051,700**

allocation to South Colonie as part of the November 2014 referendum  
approved by state voters

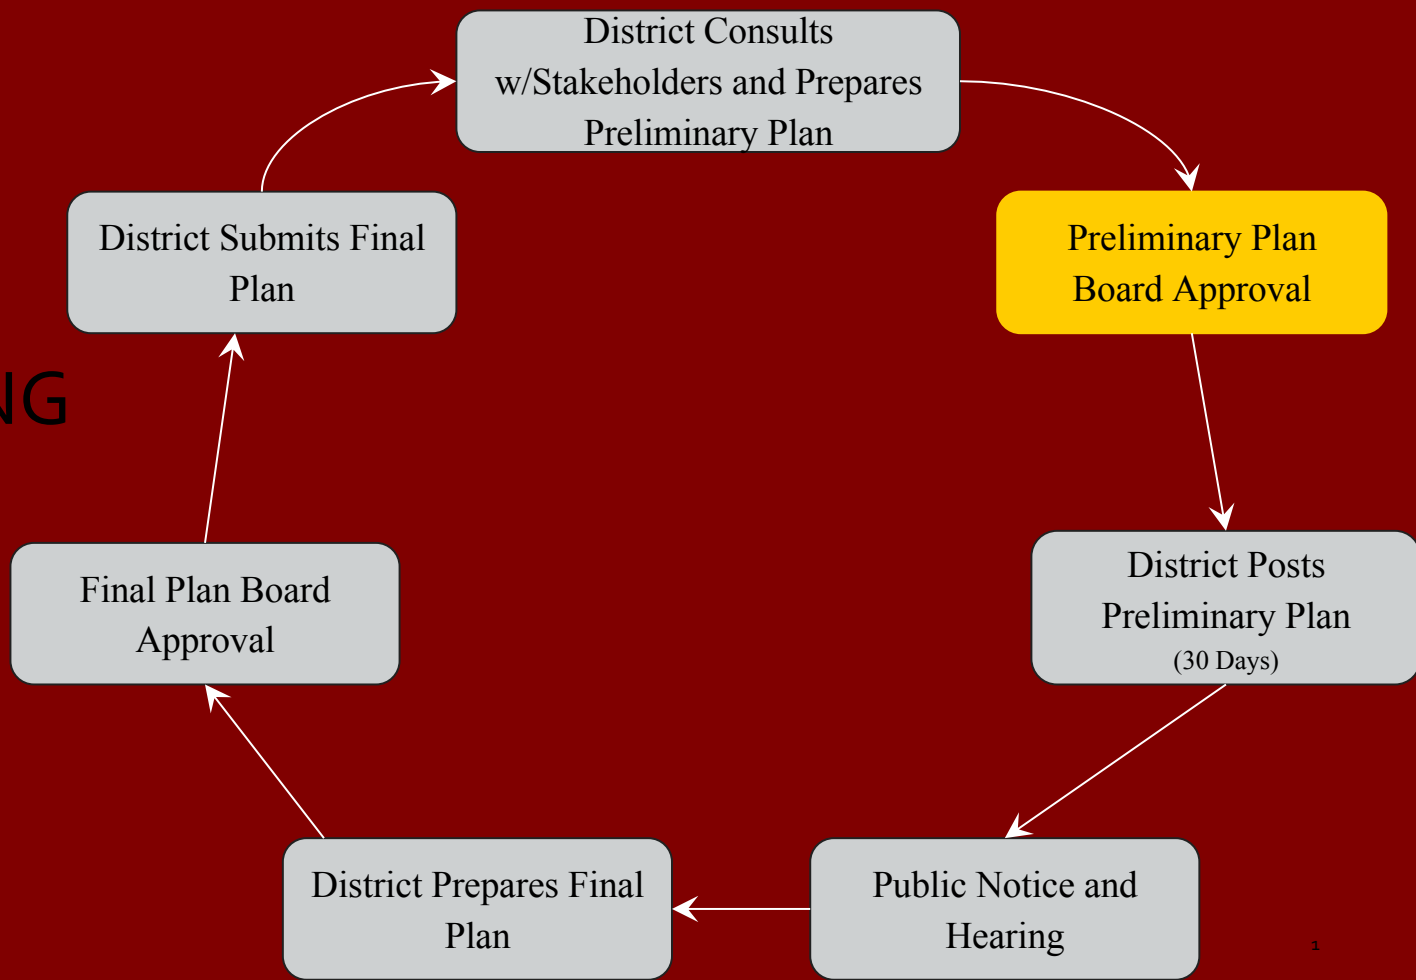

# SMART SCHOOLS INVESTMENT PLANS

Schools must submit to access allocation

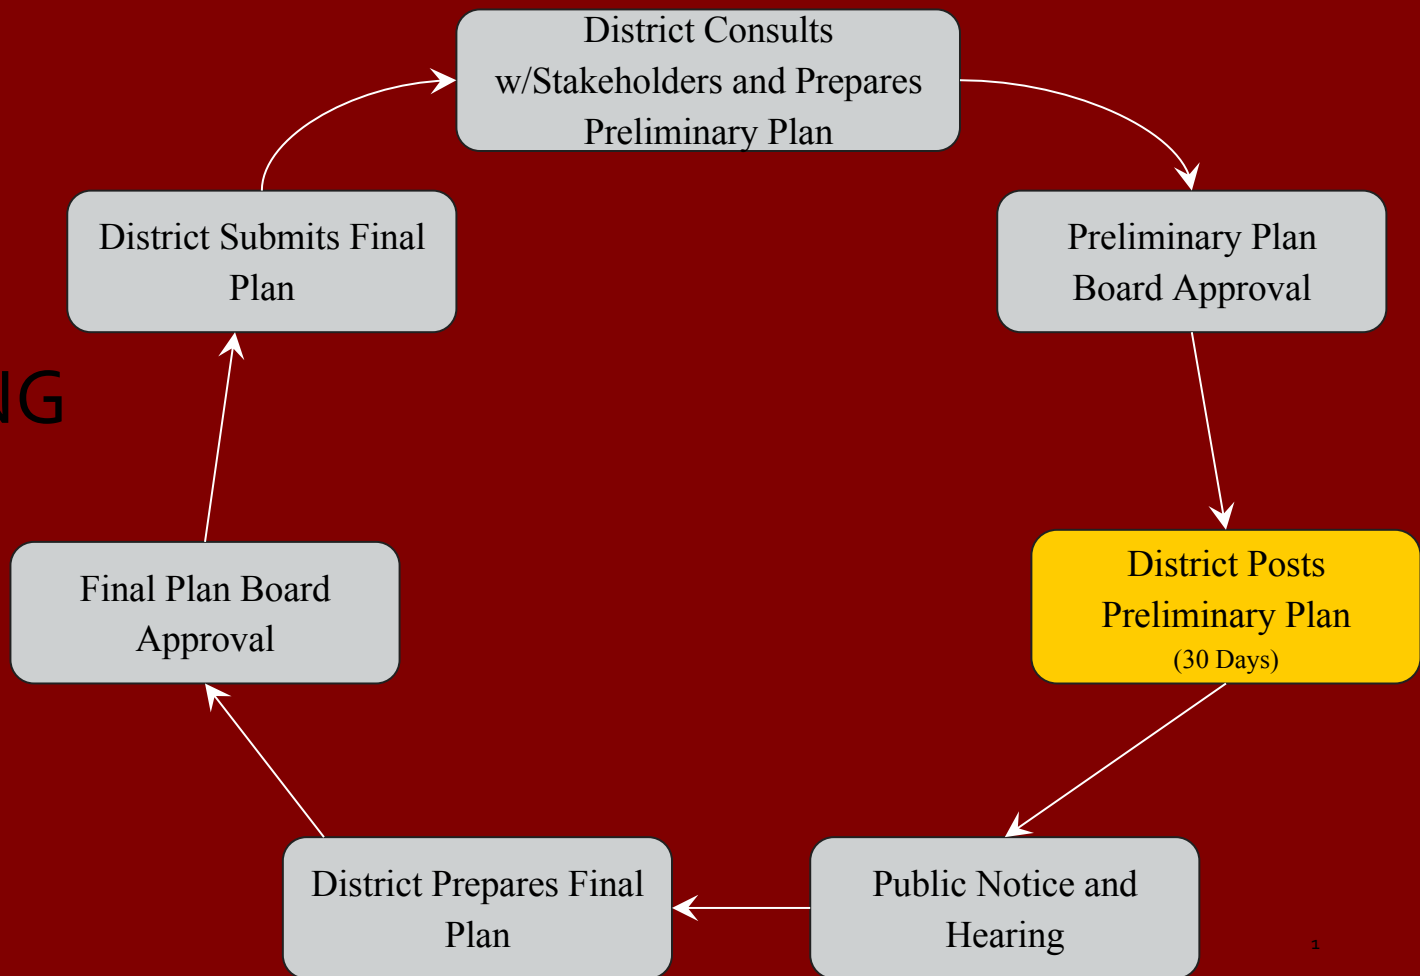

# DEVELOPING OUR SSIP

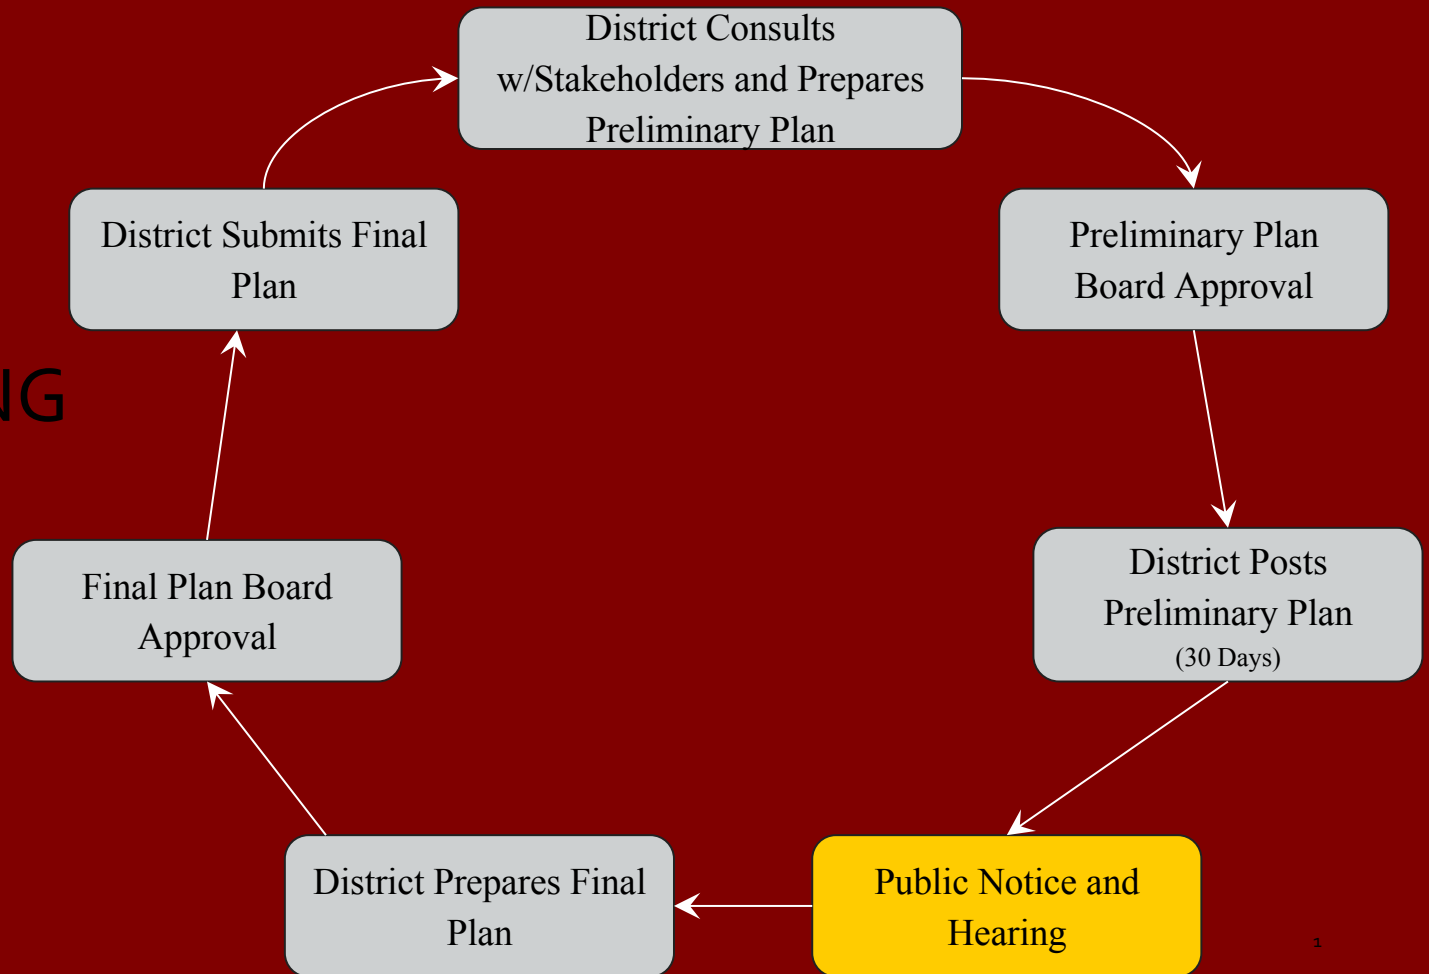

# DEVELOPING OUR SSIP

# DEVELOPING OUR SSIP

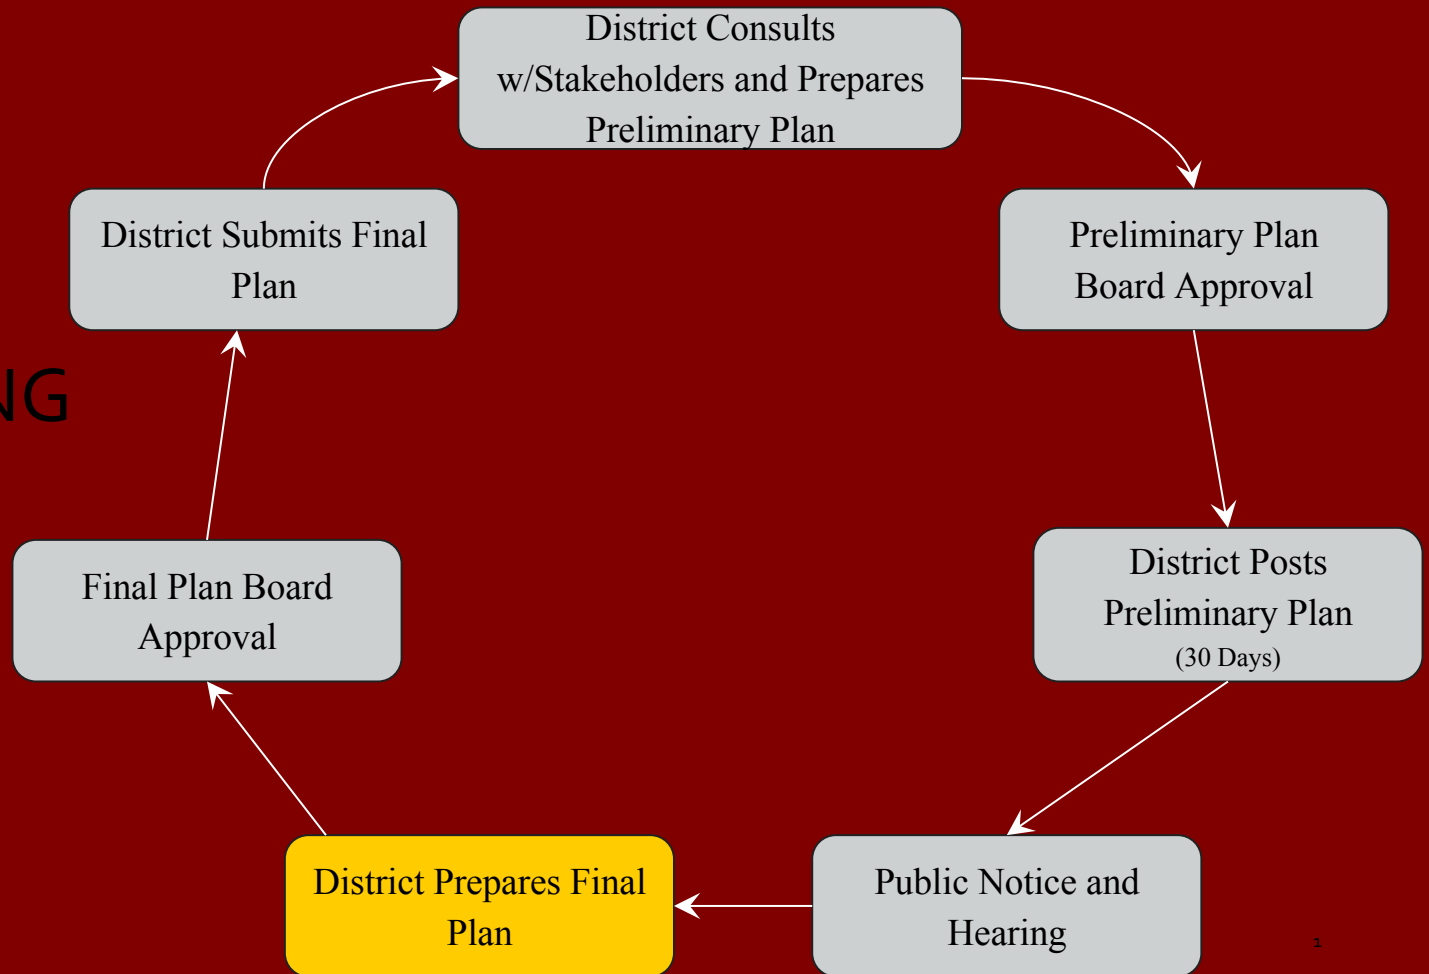

# DEVELOPING OUR SSIP

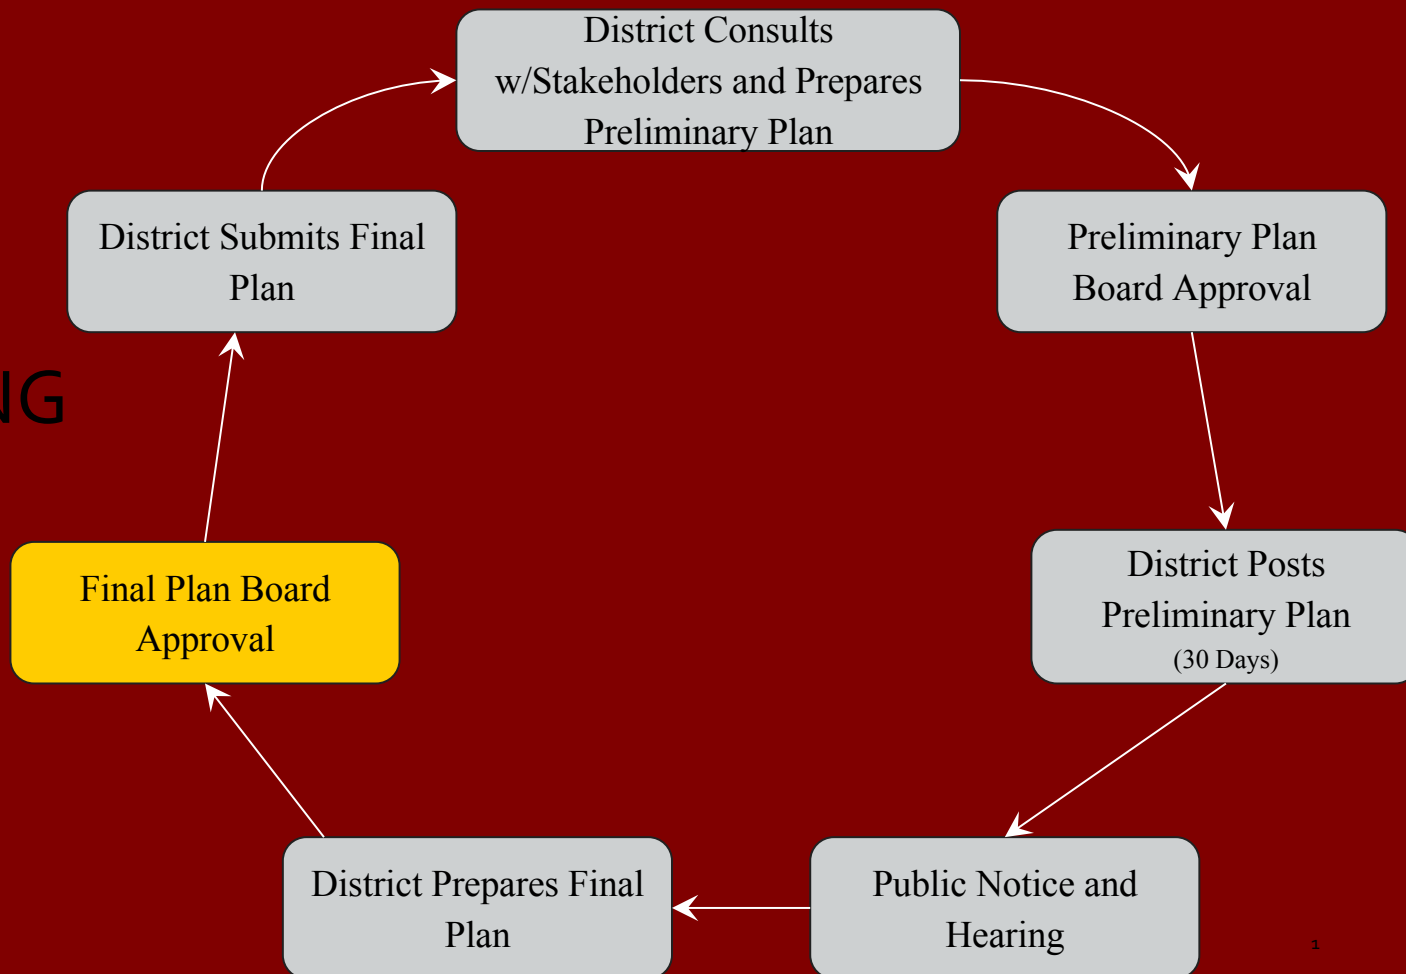

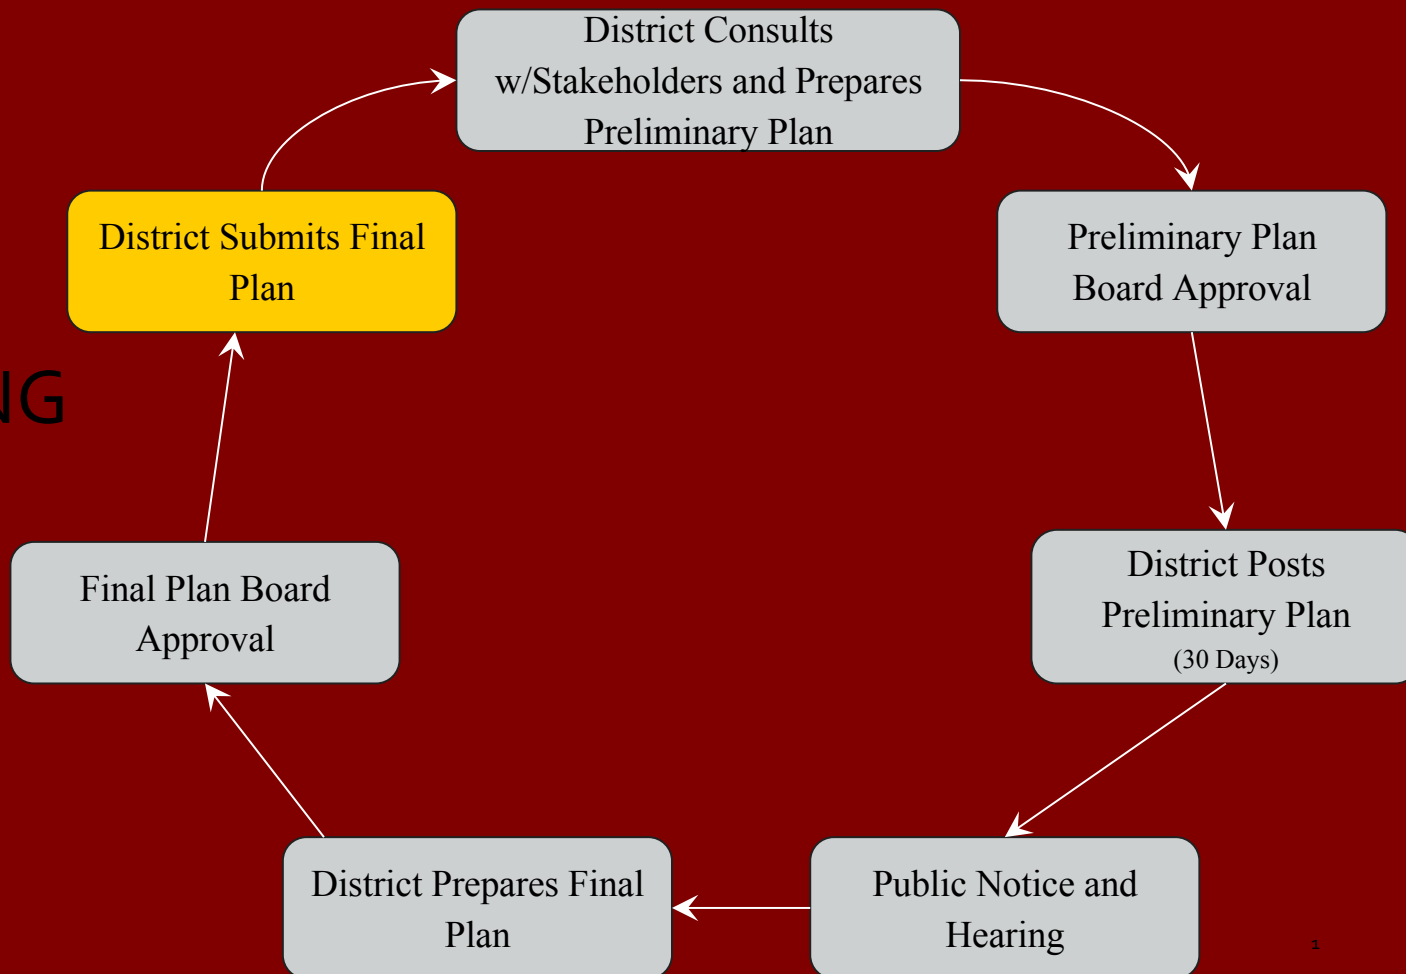

# DEVELOPING OUR SSIP

# DEVELOPING OUR SSIP

# DEVELOPING OUR SSIP

### Plan Submission

Plan can be submitted once Board has approved a final SSIP

### Eligible Equipment

Equipment can include the following devices:

- Interactive whiteboards
- Computer servers;
- Desktop, laptop, and tablet computers
- Other technology items that enhance teaching and learning; and
- Expenses related to the installation of new devices

### Multiple SSIPs

Districts can submit multiple SSIPs so that the purchasing of the equipment can be spread out over multiple years

# CLASSROOM TECHNOLOGY DEVICES

# CLASSROOM TECHNOLOGY DEVICES: CLASSROOM DISPLAY

*CCHS, Middle Schools  
and Elementary Schools  
still without display  
technology in all  
classrooms.*

# CLASSROOM TECHNOLOGY DEVICES: CHROMEBOOK

*450 Chrome Devices  
purchased over the past year  
with plans to purchase over  
2000 in the next three years.*

*4-Year Replacement Plan*

# CLASSROOM TECHNOLOGY DEVICES: WIRELESS REPLACEMENT & EXPANSION

❖ *Need for faster  
wireless access  
continues to grow*

**PRELIMINARY  
PURCHASE  
PLAN:  
TECHNOLOGY**

|               | Classroom Technology | Chromebook Replacement | Wireless Access Points, Server & Security Upgrades |
|---------------|----------------------|------------------------|--|
| 2016-17       | <b>\$212,000</b>     | <b>\$98,450</b>        | <b>\$352,000</b>                                   |
| 2017-18       | <b>\$212,000</b>     | <b>\$152,750</b>       | <b>\$152,500</b>                                   |
| 2018-19       | <b>\$304,000</b>     | <b>\$104,000</b>       | <b>\$220,000</b>                                   |
| 2019-2020     | <b>\$140,000</b>     | <b>\$104,000</b>       | <b>\$0</b>   |
| 4 year Totals | <b>\$868,000</b>     | <b>\$459,200</b>       | <b>\$724,500</b>                                   |

PRELIMINARY  
PURCHASE  
PLAN:  
SCHOOL  
SECURITY

**Eligible Equipment include the following devices:**

- High-tech security features
- Video surveillance
- Emergency notification systems
- Physical access controls

**The Process for the Security Items is a bit more involved**

- We will need to engage an Architect for project design & development
- SED Facility Management Review/Approval Process before submission of a second SSIP in year 2

## Why Chromebooks?

- Proven to have a positive impact on student learning
- Utilizes the power of the web
- Learning can take place anywhere and at any time
- Internet allows students resources and tools to accommodate different types of learners
- Online assessments
- Will benefit all aspects of education

## Why iPads?

- Proven educational tool
- Increases student engagement
- Allows teachers to personalize instruction
- Apps facilitate responsiveness to students' varied interests and abilities
- Enhances data collection
- Helps to manage work-flow

## Why MX 800 SmartBoards?

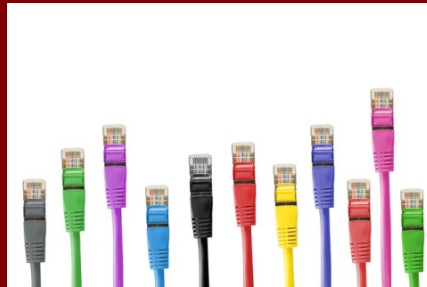

- The use of interactive whiteboards benefit teaching and learning
- Increases student engagement
- Provides additional ways to teach and learn
- Accommodates different learning styles
- Provides for video conferencing and recording of lessons

Are teachers  
and students  
ready for this?

- Teacher demand is high
- Student demand is high
- Teachers are willing and anxious for professional development to support the integration of these tools.

Is our facility  
ready for this?

- Network/Infrastructure will be updated this summer and configured for increased use.
- Continuous updates will make experience better.

## How will we support faculty in this initiative?

- Professional development will be provided from the beginning of implementation to the end.
  - Direct day-to-day support
  - Teachers Center Support
  - Colleague-to-colleague support / collaboration
  - Job-embedded opportunities
  - Faculty Meetings
  - Online opportunities

How will  
we know if  
we are  
successful?

- Formative and summative analyses
- Student feedback
- Teacher feedback
- Classroom observations

## UPGRADE OF SERVERS & PHONE SYSTEM

- Continue our migration to Voice Over Internet Protocol (VOIP) to supplement the Capital Project
- Install new VOIP telephones in strategic areas of each building with video conferencing features
- This will allow for integration with the other security systems being upgraded
- Upgrade of servers to replace outdated devices that are no longer under warranty to improve overall strength of the network.

# VIDEO SURVEILLANCE SYSTEMS

- Replace Digital Video Recorders & upgrade to networked devices
- Some current devices are over 10 years old or provide limited coverage
- Upgrade Cameras & Coverage
- Expand & replace
- Move from analog cameras to complete digital platform

# <sup>3</sup> PUBLIC ADDRESS SYSTEMS

- Replace aged and failing public address systems in all buildings that are not addressed through the Capital Project.
- New equipment would provide richer features & expanded capabilities
- Will allow us to integrate with other security systems
- Expand communication abilities
  - Building to building
  - Two-way communication to classroom

# SECURITY SYSTEM REPLACEMENT

- Existing camera equipment needs to tie into future purchases and be server based.
- More coverage is required
  - High value areas
  - Broader area of the building
- Perimeter door security would be added
  - Will allow for door a-jar monitoring during occupied hours
  - Door openings would be alarmed and would notify administration that someone is leaving or entering the building

## CARD ACCESS SYSTEMS & DOOR HARDWARE

- Expand card access to include more doors
- Replace control software of current Card Access System
  - no longer supported by manufacturer
  - near maximum capacity
- Upgrades to interior door hardware in classrooms and offices where needed
  - Replace old style door hardware with “classroom function” door hardware and locking
- If Budget allows
  - Re-do keying of buildings to new and more secure system with better control

# PRELIMINARY PROJECT BUDGET - SERVERS & SECURITY COMPONENT

| Proposed Security Components of Smart Schools Program | Preliminary Estimate of Construction Cost | Anticipated Incidental Costs (10%) | Preliminary Estimate of Total Cost |
|---|---|------------------------------------|------------------------------------|
| Security System Replacement                           | \$200,000                                 | \$20,000                           | \$220,000                          |
| Video Surveillance System Upgrades                    | \$75,000                                  | \$7,500                            | \$82,500                           |
| Replacement of Building Public Address (PA) Systems   | \$50,000                                  | \$5,000                            | \$55,000                           |
| Card Access Upgrades                                  | \$50,000                                  | \$5,000                            | \$55,000                           |
| Server Upgrades                                       | \$125,000                                 | \$12,500                           | \$137,500                          |
| Systems Integration                                   | \$20,000                                  | \$2,000                            | \$22,000                           |
| Wireless Access Points                                | \$120,000                                 | \$12,000                           | \$132,000                          |
| Contingency (5%)                                      | \$20,500                                  | \$0,000                            | \$20,500                           |
| <b>Total Budget</b>                                   | <b>\$660,500</b>                          | <b>\$64,000</b>                    | <b>\$724,500</b>                   |

## With Approval to Proceed with our Preliminary Plans

# NEXT STEPS

### Technology

- Public Comment
- Finalize Plan
- Submit SSIP for Technology (2016-17)
- Wait for approval
- Move forward with Plan

### Security - Different Process than Technology will follow

- Public Comment
- Work with Architect to finalize our plans
- Submit Letter of Intent (LOI) to obtain SED Issues Project Number
- Review Project Plans with SED for their preliminary approval
- Develop Specifications & Drawings for submission to SED for review & approval (similar to Capital Project Process)
- Submit SSIP for Security
- Wait for Approval - Move forward with the Plan

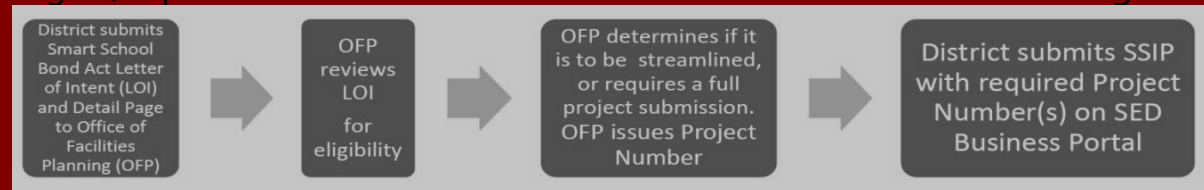

## PROJECT TIMELINE

# TIMELINE

- June 2016 - Preliminary Plan Presented to BOE
- June /July 2016 - Public Comment (30 days)
- August 2016 - BOE Approval of Final Plan
- August 2016 - Technology SSIP Submitted

### Security Approval and Planning Process Continues

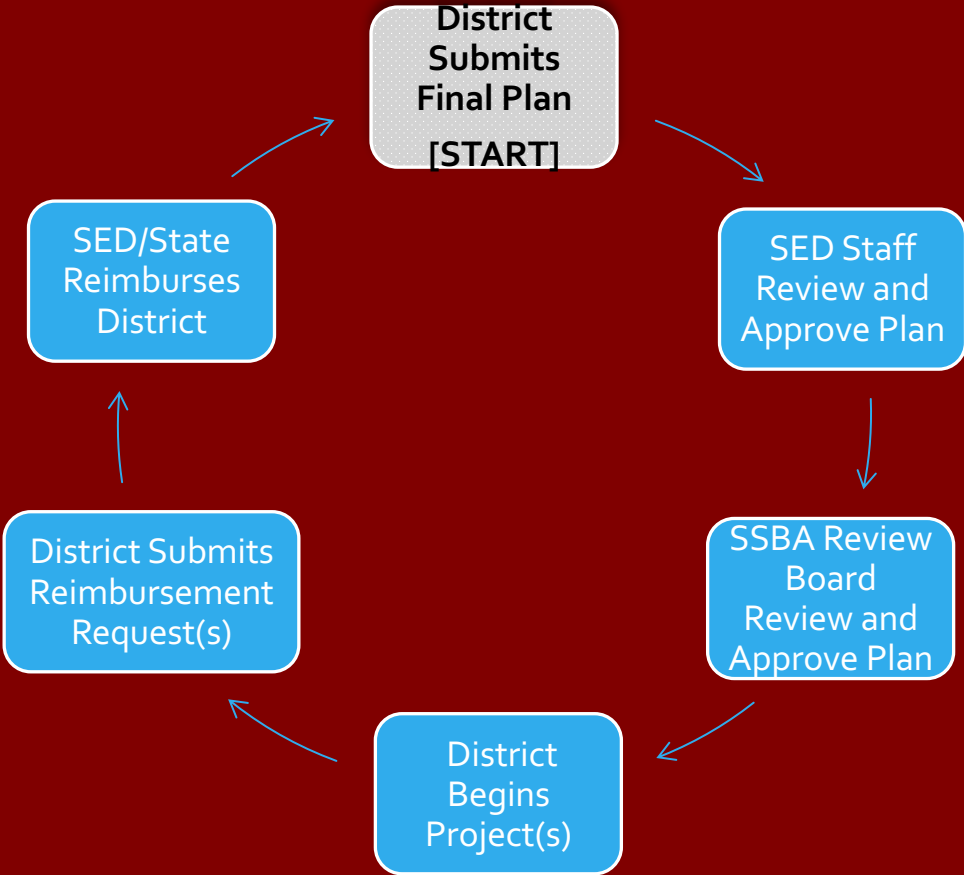

- August/September Work with Architect & NYS Office of Facilities Planning:

- October/November 2016 - Submit SSIP for Security
- November 2016 to April 2017 - Project Approval
- Bid out Work for work to be started summer 2017

Please note that the dates identified will most likely change as we get into the process

# The Smart Schools Investment Plan (SSIP) Approval Process

# THANKS!

Any questions?
