

**IMMUNIZATIONS**

In order to protect all of the children who attend the South Colonie Central School District against vaccine-preventable communicable diseases, New York State Public Health Law 2164 states that a Principal or person in charge of a school shall not permit a child to be admitted unless a person in parental relation furnishes the school with appropriate documentation of immunization.

The policy is written to assure the health and safety of all students and staff in the District; to have a consistent policy for each building in the District; to avoid having to restrict students from school after they have entered but have not complied with requirements; and to prevent non-compliance with New York State Law 2164 regarding immunization.

The Superintendent will develop administrative regulations, guidelines and exhibits to assure compliance with the policy.
