#### INDEPENDENT AUDITORS' REPORT

The Board of Trustees Sugar-Salem Joint School District No. 322 Sugar City, Idaho

# **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sugar-Salem Joint School District No. 322 as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

IDAHO FALLS | REXBURG | DRIGGS | BOZEMAN | WEST YELLOWSTONE

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Basis for Qualified Opinion on Governmental Activities

The District has not obtained an actuarial valuation of its other post employee benefits (OPEB). Employers that participate in single-employer or agent multiple-employer defined benefit OPEB plans are required to measure and disclose an amount for annual OPEB costs on the accrual basis of accounting. The amount by which this departure would affect the governmental activities has not been determined.

#### Qualified Opinion

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion on Governmental Activities" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the Governmental Activities of Sugar-Salem Joint School District No. 322 as of June 30, 2017, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Unmodified Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each major fund and the aggregate remaining fund information of the Sugar-Salem Joint School District No. 322 as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 12, budgetary comparison information on pages 48 through 52, and pension information on pages 53 and 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Sugar-Salem Joint School District No. 322's basic financial statements. The combining and individual nonmajor fund financial statements, and supplementary information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the jbasic financial statements.

The combining and individual nonmajor fund financial statements, other supplementary information, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 5, 2017, on our consideration of the Sugar-Salem Joint School District No. 322's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Sugar-Salem Joint School District No. 322's internal control over financial reporting and compliance.

# SUGAR-SALEM JOINT SCHOOL DISTRICT NO. 322 Management's Discussion and Analysis June 30, 2017

As management of the Sugar-Salem Joint School District No. 322, we offer readers of the District's financial statements this narrative discussion, overview, and analysis of the financial activities of the District for the fiscal year ending June 30, 2017.

# **Financial Highlights**

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2017 by \$10,073,808. Of this amount, \$565,699 is unrestricted.
- Total net position increased \$1,633,730, which represents a 19% increase from fiscal year 2016.
- General revenues account for \$10,891,399 in revenue, or 89% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$1,336,864 or 11% of total revenues.
- The District had \$10,594,533 in expenses; only \$1,336,864 of these expenses were offset by program specific charges for services, grants, and contributions. General revenues and net asset reserves were adequate to provide for these programs.
- Among major funds, the General Fund had \$9,164,989 in revenues and \$7,985,418 in expenditures. The General Fund's fund balance decreased \$29,830 from the prior year.
- \$964,942 of supplemental levy funds were transferred from the General Fund to the Capital Projects Fund and are committed for capital projects.

#### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

# SUGAR-SALEM JOINT SCHOOL DISTRICT NO. 322 Management's Discussion and Analysis (continued) June 30, 2017

The *statement of net position* presents information on all of the assets, liabilities and deferred outflows/inflows of the District, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

The government-wide financial statements can be found on pages 14-16 of this report.

**Fund financial statements.** A *fund* is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Management's Discussion and Analysis (continued) June 30, 2017

The District maintains twenty-five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the child nutrition fund, the debt service fund, the capital projects fund, and the plant facility fund, all of which are considered to be major funds. Data from the other twenty governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for all governmental funds. A budgetary comparison statement has been provided for the general fund, the child nutrition fund, the debt service fund, the capital construction fund and the plant facility fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 17-18 and 20-21 of this report.

**Fiduciary fund.** Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs.

The District uses an agency fund to account for resources held for student activities and groups. The basic fiduciary fund financial statement can be found on page 23 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24-46 of this report.

**Other information.** The combining statements referred to earlier in connection with nonmajor governmental funds are presented following the notes to the financial statements. Combining fund statements and schedules can be found on pages 57-68 of this report.

# **Government-wide Financial Analysis**

As noted earlier, Net Position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$10,073,808 at the close of the most recent fiscal year.

# SUGAR-SALEM JOINT SCHOOL DISTRICT NO. 322 Management's Discussion and Analysis (continued) June 30, 2017

	Governmen	ital Assets
Net Position	2017	2016
Current and Other Assets Capital Assets	\$ 4,903,959 9,257,231	\$ 4,257,862 9,344,076
Total Assets	14,161,190	13,601,938
Deferred Outflows of Resources	2,547,063	1,588,217
Current Liabilities Long-term Liabilities	2,260,336 3,065,591	2,122,049 2,971,865
Total Liabilities	5,325,927	5,093,914
Deferred Inflows of Resources	1,308,518	1,656,163
Net Position Net Investment in Capital Assets Restricted Unrestricted	8,138,477 1,369,632 565,699	7,079,252 1,794,372 (433,546)
Total Net Position	\$ 10,073,808	\$ 8,440,078

A large portion of the District's Net Position reflects its investment in capital assets (e.g., land, buildings and improvements, and furniture and equipment), less any related debt (general obligation bonds payable) used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion totaling \$1,369,632 represents an amount that is subject to external restrictions. The remaining balance in *unrestricted net position* is \$565,699.

**Financial Analysis of the District's Funds**As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Management's Discussion and Analysis (continued) June 30, 2017

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. The unassigned fund balance may serve as a useful indicator of the District's net resources available for spending at the end of the year. The District has designated portions of the unassigned fund balance to earmark resources for certain government-wide liabilities and post employment obligations that are not recognized in the governmental funds. Unassigned balances in the general fund are required by state law to be appropriated in the following year's budget. Fund balances of capital projects and other governmental funds are restricted by state law to be spent for the purpose of the fund and are not available for spending at the District's discretion.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, fund balance was \$854,249. The fund balance decreased by \$29,830 during the current fiscal year.

Expenditures for general District purposes totaled \$7,985,418, an increase of 4% during the current fiscal year.

The child nutrition fund has a total fund balance of \$68,956, all of which is restricted to the child nutrition program. The fund balance increased by \$7,148 during the current year.

The debt service fund has a total fund balance of \$1,244,540, all of which is restricted for future debt service payments. The fund balance decreased by \$116,883 during the current year.

The capital projects fund has a total fund balance of \$828,510, all of which is committed for purchase of equipment and related expenditures. The fund balance increased by \$585,723 during the current year.

The plant facility fund has a total fund balance of \$102,406 which is restricted for the purchase of equipment and related expenditures. The fund balance decreased by \$64,563 during the current year.

# **General Fund Budgetary Highlights**

During the current fiscal year, the \$169,425 positive budget to actual variance in total general fund revenues, and the \$1,050,003 positive budget to actual variance in total general fund expenditures, are largely a result of additional state revenues and a reduction in expected operating costs.

Management's Discussion and Analysis (continued)

June 30, 2017

# **Capital Asset and Debt Administration**

The capital construction fund and plant facility fund are used to account for the costs incurred in acquiring and improving sites, constructing and remodeling facilities, and procuring equipment necessary for providing educational programs for all students within the District.

Capital assets at June 30, 2017 are outlined below:

	Government	al Activities
<b>Capital Assets (Net of Depreciation)</b>	2017	2016
Land	\$ 743,860	\$ 743,860
Construction in progress	-	27,467
Buildings and improvements	14,765,762	14,620,292
Furniture and equipment	3,791,399	3,406,354
	19,301,021	18,797,973
Accumulated depreciation	(10,043,790)	(9,453,897)
Total Capital Assets, Net of Depreciation	\$ 9,257,231	\$ 9,344,076

Outstanding Debt	2017	2016
General obligation bonds	\$ 1,115,000	\$ 2,205,000
	\$ 1,115,000	\$ 2,205,000

Additional information on the District's long-term debt can be found in the basic financial statements.

# SUGAR-SALEM JOINT SCHOOL DISTRICT NO. 322 Management's Discussion and Analysis (continued) June 30, 2017

# **Requests for Information**

This financial report is designed to provide a general overview of the Sugar-Salem Joint School District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District Office, Sugar-Salem Joint School District, 105 West Center, Sugar City, ID 83448.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2017

Amounts reported for governmental activities in the statement of activities are different because:							
Net Change in Fund Balance - Governmental Funds	\$	535,509					
Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the							
current period.		(86,845)					
Property tax revenue received prior to the year for which they are levied are reported as deferred revenue in the governmental funds. The change however is recorded as revenues in the statement of activities.		2,669					
The governmental funds report current pension contributions as an expenditure. However, the amount recorded in the statement of activities represents the difference in the actuarially determined		,					
pension liability and related deferred outflows and inflows of							
resources from the previous year to the current year.		52,927					
The governmental funds report bond premiums as revenue while the government-wide statements show the premium as							
amortized over the term of the bonds.		45,045					
The governmental funds report debt repayment of principal and accrued interest as an expenditure while it is treated as a							
reduction of the liability in the government-wide statements.		1,084,425					
Change in Net Position of Governmental Activities	\$	1,633,730

Total Liabilities	\$ 246,745

Notes to Financial Statements June 30, 2017

# 1. Summary of Significant Accounting Policies

The financial statements of the Sugar-Salem Joint School District No. 322 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

The Board of School Trustees, a five-member group, has responsibilities for all activities relating to public elementary and secondary school education within the jurisdiction of Sugar-Salem Joint School District No. 322. The Board receives funding from local, state and federal government sources and must comply with the concomitant requirements of these funding source entities. The Board is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards, since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

The District has a revenue spending policy that provides for programs with multiple revenue sources. The District will use restricted fund balances first followed in order by committed, assigned and finally unassigned. The District currently applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

# Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of Net Position and the statement of changes in Net Position) report information on all of the non-fiduciary activities of the District.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Notes to Financial Statements (continued) June 30, 2017

# 1. Summary of Significant Accounting Policies (continued)

# Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as is the fiduciary fund financial statement. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and post employment healthcare benefits, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the District receives cash.

The District reports the following major governmental funds:

- The *general fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.
- The *child nutrition fund* accounts for the revenues and expenses associated with the operation of the District's food services.
- The *debt service fund* accounts for the accumulation of resources for and the payment of long-term debt principal and interest.
- The *capital projects fund* accounts for resources accumulated and payments made for bond issue projects of the District.

Notes to Financial Statements (continued) June 30, 2017

# 1. Summary of Significant Accounting Policies (continued)

• The *plant facility fund* accounts for resources accumulated and payments made for the acquisition and improvement of sites, construction and remodel of facilities, and procurement of equipment necessary for providing educational programs for all students within the District.

Additionally, the District reports the following fund types:

• The *student activities agency fund (a fiduciary fund)* accounts for assets held on behalf of student groups.

# **Budgetary Policy**

The District prepares budgets for the general fund and all special revenue funds. Such budgets are adopted on a basis generally consistent with generally accepted accounting principles, except that the commodities received for the child nutrition program are not budgeted.

The following is a reconciliation of revenues and expenditures as reported under generally accepted accounting standards with amounts reported in comparison with budget and reported on page 49:

		Reported Amounts	Co	mmodities Received	Amounts Reported in Comparison with Budget		
Child Nutrition Fund Total revenues Total expenditures	\$ \$	699,040 709,992	<b>\$</b>	(71,232) (71,232)	\$ \$	627,808 638,760	

Under Idaho law, the District's budget establishes maximum legal authorization for expenditures during the fiscal year. Under certain circumstances, the District is allowed to reopen and amend its budget. Expenditures are not to exceed the budgeted amounts, except as allowed by law for certain events.

Notes to Financial Statements (continued) June 30, 2017

# 1. Summary of Significant Accounting Policies (continued)

#### **Encumbrances**

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the District because it is not considered necessary at present to assure effective budgetary control or to facilitate effective cash planning and control.

#### **Inventories**

The governmental funds of the District use the purchase method, whereby inventory items are considered expenditures when purchased. They are not included in the balance sheet of the general fund because the amounts on hand at year-end are immaterial.

# **Capital Assets**

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 for equipment and \$100,000 for buildings and improvements and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extended assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

Buildings and improvements and furniture and equipment of the District are depreciated using the straight-line method over the following estimated lives:

Buildings	40 yrs
Buses	10 yrs
Furniture	10 yrs
Equipment	10 yrs

Notes to Financial Statements (continued) June 30, 2017

# 1. Summary of Significant Accounting Policies (continued)

#### **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

The District has only one type of deferred outflows of resources. This amount relates to the District's allocable share of the effect of changes of assumptions during the year on the valuation of the net pension liability and the difference between projected and actual investment earnings on the pension plan investments. This amount is reported only in the government-wide financial statements.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The District has three types of items in this area. One item, which arises only under a modified accrual basis of accounting, unavailable revenue, is reported only in the governmental funds balance sheet and represents unavailable revenues from property taxes and grant revenues received in advance. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The government also has a deferred premium on refunding resulting from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the life of the refunding. The third type of deferred inflows of resources relates to the District's allocable share of the effect on the calculation of the net pension liability of the difference between projected and actual investment earnings on the defined benefit pension plan and the differences between expected and actual experience.

#### Pensions

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements (continued) June 30, 2017

# 1. Summary of Significant Accounting Policies (continued)

#### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

# **Fund Equity**

In the fund financial statements, governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor how those amounts may be spent. Designations of fund balances as non-spendable, restricted, committed, assigned or unassigned is based upon the types of constraints placed upon the outstanding balances.

#### 2. Cash and Investments

The District is authorized under Idaho Code to invest in cash, certificates of deposit, U.S. Government securities, commercial paper, and repurchase agreements. All investments must be held by or registered in the name of the District.

Cash balances of most of the District funds are pooled and invested. Interest earned from investments purchased with pooled cash is allocated to each of the funds based on the fund's cash balance. The District maintains checking accounts with local banks. All excess funds are invested with the State Treasurer's pooled cash investment account. This account invests in time certificates of deposit, local government tax anticipation notes, federal loans, U.S. treasury notes and other U.S. governmental securities. Information regarding insurance or collateralization of amounts invested in the pooled accounts is not available.

The District's cash accounts are insured through the Federal Deposit Insurance Corporation (at banks) and The Federal Savings and Loan Insurance Corporation (at savings and loans organizations) up to \$250,000 per depository.

1. Deposits – At June 30, 2017, the carrying amount of the District's deposits was \$559,972 and the respective bank balances totaled \$594,627. Of the bank balances, \$446,062 was insured or collateralized with pooled securities held by the pledging financial institution in the name of the District.

Notes to Financial Statements (continued)

June 30, 2017

### 2. Cash and Investments (continued)

- 2. Custodial Credit Risk, Deposits Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned. As of June 30, 2017, \$148,565 of the District's total deposits of \$559,972 were not covered by federal depository insurance, and thus were exposed to custodial credit risk.
- 3. Investments As of June 30, 2017, the District had the following investments:

			Invest	ment Matu	ırities	(in Years)	Years)			
Investment Type	Fair Value	 Less Than 1		1-5		6-10		More Than 10		
State Investment Pool	\$ 3,798,584	\$ 3,798,584	\$		\$		\$	_		

Custodial Credit Risk, Investments – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment.

- 4. Interest Rate Risk As a means of limiting its exposure to fair value losses arising from changes in interest rates, the District structures its portfolio so that securities mature to meet cash requirements for ongoing operations.
- 5. Because the State Investment Pool as of June 30, 2017, had a weighted average maturity of 159 days, it was presented as an investment with a maturity of less than one year.
- 6. Credit Risk Credit risk is the risk that an issuer or other counter party to an investment will not fulfill its obligations. It is the District's policy to limit investments to the safest types of securities and to diversify the District's investment portfolio so that potential losses on securities will be minimized. The District follows Idaho statute that outlines qualifying investment options.

Notes to Financial Statements (continued) June 30, 2017

# 2. Cash and Investments (continued)

Reconciliation of deposits categorization:

Cash and investments reported on the statement of net position Cash and investments reported on the statement of fiduciary net assets	\$ 4,111,811 246,745
	\$ 4,358,556
Investments categorized Deposits categorized	\$ 3,798,584 559,972
	\$ 4,358,556

# 3. Property Taxes

Property taxes of the District are based on the assessments against property owners as of the first Monday in January of the calendar year in which the fiscal year commences. Tax levies on such assessed values are certified to the counties prior to the commencement of the fiscal year. Taxes are collected by Madison and Fremont Counties and are remitted to the District primarily in January of the fiscal year and the July following. Accordingly, the tax revenues for the fiscal year ended June 30, 2017, are generally based on the assessed values and tax levies established in 2016.

The District defers recognition of revenues relating to property taxes assessed but not collected within 60 days of the fiscal year-end. Such amounts will be recognized as revenues in the fiscal year they become available.

# SUGAR-SALEM JOINT SCHOOL DISTRICT NO. 322 Notes to Financial Statements (continued) June 30, 2017

# 4. Capital Assets

Capital asset activity for the year ended June 30, 2017 is as follows:

	Beginning			Ending

Depreciated, Net	\$ 8,572,749			\$ 8,513,371

Notes to Financial Statements (continued) June 30, 2017

# 5. General Obligation Bonds Payable

Bonds outstanding at June 30, 2017, were as follows:

	Interest	Maturity	
	Rates	Dates	Amount
General Obligation Bonds,			
Series 2012 Issue			
(Original amount\$5,345,000)	2.00%	2018	\$ 1,115,000

The amount to be provided for bond requirements in the accompanying financial statements represents the charge to be made for property taxes in future years to meet maturing bond requirements.

The annual requirements to amortize the above bond issues are as follows:

Fiscal Year	<b>Principal</b>	Interest	<b>Total</b>
2018	\$ 1,115,000	\$ 11,150	\$ 1,126,150
	\$ 1,115,000	\$ 11,150	\$ 1,126,150

Notes to Financial Statements (continued)

June 30, 2017

#### 6. Changes in Long-term Debt

The following is a summary of the District's long-term transactions for the year ended June 30, 2017:

	Gener Obligat Bon Series 20	ion ds,	Net Pension Liability	Total
Long-term Obligations June 30, 2016	\$ 2,205,0	000 \$	1,856,865	\$ 4,061,865

Obligations Paid	(1,090,0	000)	-	 (1,090,000)
Long-term Obligations June 30, 2017	\$ 1,115,0	000 \$	3,065,591	\$ 4,180,591
Due within one year	\$ 1,115,0	000 \$	-	\$ 1,115,000

#### 7. Pension Plan

#### Plan Description

The District contributes to the Public Employee Retirement System of Idaho Base Plan (Base Plan), which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies, and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Notes to Financial Statements (continued) June 30, 2017

#### 7. Pension Plan (continued)

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

Employee membership data related to the PERSI Base Plan, as of June 30, 2016, was as follows:

Retirees and beneficiaries currently receiving benefits	44,181
Terminated employees entitled to but not yet receiving benefits	12,251
Active plan members	68,517
	124,949

#### Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointment officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% (2.3% for police/firefighters) of the average monthly salary for the highest consecutive 42 months.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement or 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

#### Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation and earnings from investments. Contribution rates are determined by the PERSI Board within limitations, as defined by state law.

Notes to Financial Statements (continued) June 30, 2017

#### 7. Pension Plan (continued)

The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) if current rates are actuarially determined to be inadequate or in excess to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by statute at 60% of the employer rate for general employees and 72% for police and firefighters. As of June 30, 2016, the employee contribution rate was 6.79% for general employees and 8.36% for police and firefighters. The employer contribution rate as a percent of covered payroll is set by the Retirement Board and was 11.32% for general employees and 11.66% for police and firefighters. The District's contributions required and paid were \$682,271, \$599,037, and \$588,894 for the years ended June 30, 2017, 2016, and 2015, respectively.

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At June 30, 2016, the District's proportion was 0.181 percent.

Notes to Financial Statements (continued) June 30, 2017

#### 7. Pension Plan (continued)

For the year ended June 30, 2017, the District recognized pension expense (revenue) of \$(52,926). At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Defe	red Outflows of Resources	of Resources
Differences between expected and actual			
experience	\$	-	\$ 365,090
Changes in assumptions or other inputs		81,448	-
Net difference between projected and actual earnings on pension plan investments		1,783,344	833,260
Changes in the employer's proportion and differences between the employer's contributions and the employer's			
proportionate contributions		-	104,029
Employer contributions subsequent to the			
measurement date		682,271	 
Total	\$	2,547,063	\$ 1,302,379

\$682,271 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017.

The average of the expected remaining service lives of all employees that are provided with pensions through the System (active and inactive employees) determined at July 1, 2015, the beginning of the measurement period ended June 30, 2016, is 4.9 and 5.5 for the measurement period June 30, 2015.

Notes to Financial Statements (continued) June 30, 2017

#### 7. Pension Plan (continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

#### Fiscal Year

2018	 (17,917)
2019	 (17,917)
2020	 403,449
2021	 212,265
2022	 (17,467)

#### **Actuarial Assumptions**

Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. Level percentages of payroll normal costs are determined using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated as a level percentage of each year's earnings of the individual between entry age and assumed exit age. The Base Plan amortizes any unfunded actuarial accrued liability based on a level percentage of payroll. The maximum amortization period for the Base Plan permitted under Section 59-1322, Idaho Code, is 25 years.

The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	4.25 - 10.00%
Salary inflation	3.75%
Investment rate of return	7.10%, net of investment expenses
Cost-of-living adjustments	1%

Notes to Financial Statements (continued) June 30, 2017

#### 7. Pension Plan (continued)

Mortality rates were based on the RP - 2000 combined table for healthy males or females as appropriate with the following offsets:

- Set back 3 years for teachers
- No offset for male fire and police
- Forward one year for female fire and police
- Set back one year for all general employees and all beneficiaries

An experience study was performed for the period July 1, 2007 through June 30, 2013 which reviewed all economic and demographic assumptions other than mortality. Mortality and all economic assumptions were studied in 2014 for the period from July 1, 2009 through June 30, 2013. The Total Pension Liability as of June 30, 2016 is based on the results of an actuarial valuation date of July 1, 2016.

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. Specifically, the System uses consultants, investment managers and trustees to develop capital market assumptions in analyzing the System's asset allocation. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of System's assets.

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are as of January 1, 2016.

Notes to Financial Statements (continued)

Portfolio	6.58%	2.25%	4.33%	12.67%
*Expected arithmetic return net of fees an	nd expenses			
Actuarial Assumptions:				
Assumed Inflation - Mean				3.25%
Assumed Inflation - Standard Deviation				2.00%
Portfolio Arithmetic Mean Return				8.42%
Portfolio Long-Term Expected Geometric	c Rate of Return			7.50%
Assumed Investment Expenses				0.40%
Long-Term Expected Geometric Rate	of Return,			
<b>Net Investment Expenses</b>				7.10%

Notes to Financial Statements (continued) June 30, 2017

#### 7. Pension Plan (continued)

#### Discount Rate

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

				Current			
	19	% Decrease	Di	scount Rate	1%	Increase	
	(6.10%)			(7.10%)		(8.10%)	
Employer's proportionate share of		<u>.                                      </u>		_			
the net pension liability (asset)	\$	7,187,462	\$	3,663,997	\$	733,847	

#### *Pension plan fiduciary net position*

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Notes to Financial Statements (continued)

June 30, 2017

## 8. Other Required Individual Fund Disclosures

The District expenditures exceeded the budgeted amounts in the following funds during the year ended June 30, 2017:

Fund	Amount Exceeded
21st Century Grant Fund.	\$ 71
Literacy Fund	4,411
State Substance Abuse Fund.	3,536
Driver Education Fund.	5,153

#### **Deficits in Individual Funds**

There were no fund deficits as of June 30, 2017.

#### 9. Interfund Balances and Transfers

The interfund balances at June 30, 2017 are as follows:

	Interfund Receivables		Interfund Payables
Major Funds General	\$	32,618	\$ -
Non Major Funds			
Title I-A ESEA Basic		-	9,726
IDEA Part B Preschool		-	2,438
Perkins III Professional Technical		-	13,598
Gear Up Grant		-	1,820
21st Century Grant			 5,036
	\$	32,618	\$ 32,618

Notes to Financial Statements (continued) June 30, 2017

#### 9. Interfund Balances and Transfers (continued)

Balances are a result from the time lag between the dates that the reimbursable expenditures occur and payments between funds are made.

A summary of interfund transfers by fund is as follows:

	Transfer In		Transfer Out	
Major Funds				
General Fund	\$	-	\$	1,209,401
Child Nutrition Fund		18,100		-
Capital Projects Fund		964,942		-
Plant Facility Fund		61,909		-
Non Major Funds				
State Substance Abuse Fund		1,388		-
Medicaid Fund		88,925		-
Public School Technology Fund		84,256		-
Idaho Leads Fund				10,119
	\$	1,219,520	\$	1,219,520

Transfers were made to move bus depreciation to the plant facility fund, to cover the required FICA in the Child Nutrition Program, to move funds to school technology for technology upgrades budgeted for the next fiscal year, to cover the required match in Medicaid, to cover funds with expenses in excess of revenues, and to move funds to capital projects for projects in the next year.

Notes to Financial Statements (continued) June 30, 2017

#### 10. Fair Value Measurements

The District has implemented GASB No. 72, *Fair Value Measurement and Application*. This guidance requires government entities to measure investments and certain other items at fair value. The objective is to enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This guidance clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Under this guidance, fair value measurements are not adjusted for transaction costs. This guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

GASB No. 72 specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (observable inputs). The following summarizes the fair value hierarchy:

Level 1 Inputs – Unadjusted quoted market prices for identical assets and liabilities in an active market.

Level 2 Inputs – Inputs other than the quoted process in active markets that are observable either directly or indirectly.

Level 3 Inputs – Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurements.

GASB No. 72 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs.

Notes to Financial Statements (continued)

June 30, 2017

#### 10. Fair Value Measurements (continued)

Fair value assets measured on a recurring basis at June 30, 2017 are as follows:

		Fa	ir Value Meas	sure	ments at Repo	rting	Date Using
			Quoted Prices in Active Markets for Identical		Significant Other		Significant
	 Fair Value		Assets/ Liabilities (Level 1)		Observable Inputs (Level 2)	Un	Inputs (Level 3)
State investment pool	\$ 3,798,584	\$	3,798,584	\$		\$	
Total	\$ 3,798,584	\$	3,798,584	\$	-	\$	

All investments have been valued using a market approach. There were no changes in the valuation techniques during the year. There are no assets or liabilities measured at fair value on a nonrecurring basis.

#### 11. Fund Balances

Fund balance is classified depending on the relative strength of the spending constraints placed on the purposes for which resources can be used as follows:

**Nonspendable fund balance** – amounts that cannot be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.

**Restricted fund balance** – amounts constrained to specific purposes externally imposed by creditors (such as through debt covenants), grantor and contributors, or laws, or regulations of other governments, or through constitutional provisions, or by enabling legislation.

Committed fund balance – amounts that can only be used for specific purposes, pursuant to constraints imposed by formal action of the government's highest level of decision making authority. In the case of the District it is by Board action.

**Assigned fund balance** – amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.

Notes to Financial Statements (continued) June 30, 2017

#### 11. Fund Balances (continued)

**Unassigned fund balance** – amounts that represent fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. In other governmental fund, it may be necessary to report a negative residual balance as unassigned.

## SUGAR-SALEM JOINT SCHOOL DISTRICT NO. 322 Note to the Schedule of Expenditures of Federal Awards Year Ended June 30, 2017

#### 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal award activity of Sugar-Salem Joint School District No. 322 under programs of the federal government for the year ended June 30, 2017. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Sugar-Salem Joint School District No. 322, it is not intended to and does not present the financial position or change in net assets of the District.

## 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule of Expenditures of Federal Awards are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain expenditures are not allowed or are limited as to reimbursement.

The District is not eligible to use the 10% de minimis indirect cost rate.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees Sugar-Salem Joint School District No. 322 Sugar City, Idaho

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sugar-Salem Joint School District No. 322 as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise Sugar-Salem Joint School District No. 322's basic financial statements, and have issued our report thereon dated September 5, 2017.

## **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Sugar-Salem Joint School District No. 322's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sugar-Salem Joint School District No. 322's internal control. Accordingly, we do not express an opinion on the effectiveness of Sugar-Salem Joint School District No. 322's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did

IDAHO FALLS | REXBURG | DRIGGS | BOZEMAN | WEST YELLOWSTONE

not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Sugar-Salem Joint School District No. 322's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees Sugar-Salem Joint School District No. 322 Sugar City, Idaho

#### Report on Compliance for Each Major Federal Program

We have audited Sugar-Salem Joint School District No. 322's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Sugar-Salem Joint School District No. 322's major federal programs for the year ended June 30, 2017. Sugar-Salem Joint School District No. 322's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

## Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Sugar-Salem Joint School District No. 322's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Sugar-Salem Joint School District No. 322's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

IDAHO FALLS | REXBURG | DRIGGS | BOZEMAN | WEST YELLOWSTONE

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Sugar-Salem Joint School District No. 322's compliance.

## Opinion on Each Major Federal Program

In our opinion, Sugar-Salem Joint School District No. 322, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

#### **Other Matters**

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as Item 2017-1. Our opinion on each major federal program is not modified with respect to these matters.

Sugar-Salem Joint School District No. 322's response to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Sugar-Salem Joint School District No. 322's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

#### **Report on Internal Control Over Compliance**

Management of Sugar-Salem Joint School District No. 322 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Sugar-Salem Joint School District No. 322's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Sugar-Salem Joint School District No. 322's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over

compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### Financial Statements

Type of auditors' report issued: Qualified

Internal control over financial reporting:

Material Weaknesses identified?

Significant Deficiencies identified?

Noncompliance material to financial

statements noted?

#### Federal Awards

Internal control over major programs:

Material weaknesses identified?

Significant Deficiencies identified?

Type or auditors' report issued on compliance

for major programs: Unmodified

Any audit findings disclosed that are required

to be reported in accordance with 2 CFR 200.516 (a)?

**Schedule of Findings and Questioned Costs (continued)** 

Year Ended June 30, 2017

Identification of major programs:

CFDA Number(s)	Name of Federal Program

Child Nutrition Cluster

10.553	School Breakfast Program
10.555	School Lunch Program
10.556	Special Milk Program
10.559	Summer Food Service Program

Dollar threshold used to distinguish between Type A and Type B programs:

\$750,000

Auditee qualified as low-risk auditee?

No

## **Section II – Financial Statement Findings**

None

#### Section III - Federal Award Findings and Questioned Costs

## U.S. DEPARTMENT OF AGRICULTURE

Child Nutrition Cluster - CFDA No. 10.553, 10.555, 10.556, 10.559

2017-001

Condition and Criteria: The Idaho State Department of Education conducted an administrative review of the USDA programs at the District. Two instances of findings were reported in the State's review. Please refer to this report for specific items.

View of Responsible Officials and Planned Corrective Actions: The District agrees with the findings and has corrected the items in question as of the date of this report.

## SUGAR-SALEM JOINT SCHOOL DISTRICT NO. 322 Summary Schedule of Prior Audit Findings Year Ended June 30, 2017

#### U.S. DEPARTMENT OF AGRICULTURE

Child Nutrition Cluster – CFDA No. 10.553, 10.555, 10.556, 10.559

2016-001

Condition and Criteria: Free and reduced student applications for two students selected in the audit process could not be located. Applications should be kept on file for each student calculating their income eligibility for free or reduced meals.

Recommendation: Procedures should be established to obtain a completed application prior to assigning a student as approved for free or reduced meals. Procedures need to be evaluated, improved or changed to better account for enrolled applicants.

Current Status: The District has improved procedures to account for enrolled applicants resulting in the correction of noted deficiencies. No similar findings were noted in the 2017 audit.
