

# **Payschoolscentral.com**

Say goodbye to sending cash and checks to the school cafeteria. Payschoolscentral.com allows you to create a secure online account where you can add money to your child's account with your Visa or MasterCard credit card. Parents can have peace of mind knowing that students will have money available for meals, and that the money will only be used for lunch instead of other items.

Users can view their child's balance and make payments any time of day. Students will thank parents for easy access to lunch money. They no longer have to worry about forgetting or losing money. Also, the reduced hassle of paying with cash will speed up the lunch line, which means more time for children to enjoy their meals!

## **Balances**

The child's balance is shown in the View Account Screen. This balance shows the net amount available to the student as of the last transaction date.

## **Convenience**

Payschoolscentral.com accepts credit card prepayments 24 hours a day with an automated update to the QSP-Point of sale system at the school. Parents can fund their children's account from the comfort of their home or office, night or day.

## **Private and Secure**

Registration and credit card information is protected with the most advanced Internet security (Secure Socket Layer with 128-bit encryption with secure certificate exchange). Your information is stored securely and privately.

## **Internet Convenience Fee**

An Internet Convenience Fee (ICF) is charged for each transaction and is displayed separately when you process a transaction. If a transaction is completed prior to midnight, it will typically be deposited into the student's account the following morning. Deposits into accounts can be affected by any network interruptions at your Organization or school. Please contact [Payschoolscentral.com](http://Payschoolscentral.com) for further information.

## **How It Works**

1. **Register:** A parent or guardian completes the online form that includes their credit card information. An email with a validation code is then sent to the address that was entered during the registration process.
2. **Validate:** The parent or guardian enters the validation code which activates their account.
3. **Add Students:** Once a registered [Payschoolscentral.com](http://Payschoolscentral.com) member, the parent or guardian can begin to add students to their account and begin funding their meals. To accomplish this, you must know your child's student ID number, School and Grade. This is a requirement for registering your student to the account. If you do not know their Student ID Number you can call the school and they will provide it to you.
4. **Deposit:** Using the Make Payment page, you can now deposit money into any or all of your student's accounts. Money deposited before midnight will typically be posted to the students account by the following morning. Be sure to choose "Lunch" as the account to be funded.
