

# The New York State School Report Card Information about Students with Disabilities for Willsboro Central School District

New York State Education Law and the Commissioner's Regulations require the attachment of the NYS School Report Card to the public school district budget proposal. The regulations require reporting students with disabilities by the percent of time they are in general education classrooms and the classification rate of students with disabilities. These data are to be compared with percentages for similar districts and all public schools. The required percentages for this district are reported below.

Student Counts as of October 7, 2015	This School District		Similar District Group	Total of All School Districts in NY State

The source data for the statistics in this table were reported through the Student Information Repository System (SIRS) and verified in Verification Report 5. The counts are numbers of students reported in the least restrictive environment categories for school-age programs (ages 6-21) on October 7, 2015. The percentages represent the amount of time students with disabilities are in general-education classrooms, regardless of the amount and cost of special education services they receive. Rounding of percentage values may cause them to sum to a number slightly different from 100%.

## School-age Students with Disabilities Classification Rate

2014-15 School Year	This School District	Similar District Group	Total of All School Districts in NY State
Special Ed Classification Rate	17.22%	13.09%	14.70%

This rate is a ratio of the count of school-age students with disabilities (ages 4-21) to the total enrollment of all school-age students in the school district, including students who are parentally placed in nonpublic schools located in the school district. The numerator includes all school-age students for whom a district has Committee on Special Education (CSE) responsibility to ensure the provision of special education services. The denominator includes all school-age students who reside in the district. In the case of parentally placed students in nonpublic schools, it includes the number of students who attend the nonpublic schools located in the school district. Source data are drawn from the SIRS and from the Basic Education Data System (BEDS).
