

Online Reference Guide

Your paid subscription gives you access to online resources for both you and your students. The online resource includes an electronic copy of your publication, an audio reader, tests, additional media, and *Revere the Rat*. As students complete different tasks online, they earn coins. These coins are used to purchase different decorations for Revere's rat cage and items for explorer's hangouts.

You will need your own teacher account to access all of the online resources. Students will also need accounts in order to make the most of Studies Weekly.

Reading Tab

You can find publications, bonus sources, additional teacher resources and test tools under the reading tab.

Publications

To access the articles, select the publication, then the weekly unit from the unit table of contents. Next, select the article. Once in the article, you can use the audio reader, the highlighting and annotating tool, and additional resources.

Highlighting and Annotating

You can highlight selected text in different colors and add notes. Teachers can view all student highlights and notes in the **Highlights** sub-tab menu option.

Bonus Sources

To view bonus source media, click on **Bonus Sources** in the upper right-hand corner of the article. Most bonus sources have questions associated with them.

Resources

Additional resources can be found under each article. These resources are divided into two categories:

Weekly Unit Resources correlate with the unit for the week, such as standard alignments, lesson plans, worksheets, content videos, and more.

Additional Resources include standard correlations, a digital version of the teacher supplement and student newspaper, additional worksheets, Digital Developments, RAPPS, leveled readers and more.

Test Tools

Test tools are divided into three sections: **Edit Test**, **Test Scores**, and **Test Statistics**. You can access these sections from your unit table of contents or from sub-tabs when you are in an article.

Edit Test is where you can add, edit, or delete test questions. You can also randomize test questions, activate the test, and print a blank test.

Test Scores is where you can see student results, edit test scores, etc.

Test Statistics is where you can see aggregated data for all of the questions and the test as a whole.

Classes Tab

The classes tab is where you manage your classroom and student accounts. Additional account tools can be found under the sub-tabs and gear icons.

PD Training Tab

The PD Training tab is where you can find guides, helpful documents and classroom examples of how to use Studies Weekly.

Search Tool

You can search for articles, videos, images, audio clips, or additional resources by using the search tool found at the top of Studies Weekly Online.

Need Help?

Click on your initial in the upper right-hand corner and select **Need Help** from the drop-down menu to access tutorials, guides, and contact customer service.
