<p>Nucor Technical Academy - Recruiting Graduating Seniors</p>	<p>Nucor Steel</p>	<p>Recruiting graduating seniors to go through a career specific training program and retain them to work for Nucor after graduation. This program teaches students the fundamentals of instrumentation and electrical maintenance. Students receive an Associates in Applied Science in Electrical Technology Industry Defined Training. The Nucor Technical Academy partners with Shelton State Community College in Tuscaloosa, Alabama. This is a 2 year program. (6 semesters). The first Summer and Fall semester will be spent at Auburn, where they will be working and taking online general studies courses. The remaining 5 semesters will be on campus with courses at Shelton State and hands on training at the Nucor Steel Tuscaloosa Plant in Alabama during the semesters. This allows what they have learned in the classroom to be applied to real world applications. Upon successful completion of the program, students would be placed within a job opening at Nucor. This is a wonderful opportunity for a student that may be interested in becoming a Maintenance Electrician. Nucor is willing to pay for training expenses involved in completing the program. Tuition and books are paid for by Nucor as long as a 3.0 GPA is maintained. This means graduating with a degree and no student debt with a job opportunity waiting for them! While in the program students are also paid to go to class and while training “working” at our Nucor Plants. No debt and a pay check while going to school. Interested applicants please contact Julie.damico@nucor.com or at 315-258-4278</p>	<p>Nucor Technical Academy Website: https://www.nucor.com/nucor-technical-academy Recruitment Video: https://www.youtube.com/watch?v=2GFZnhuBU2la Application Site: https://jobs.nucor.com/job-invite/136031/ application deadline 12/31/23</p>
