2021-2022 Budget

Budget Expenditures

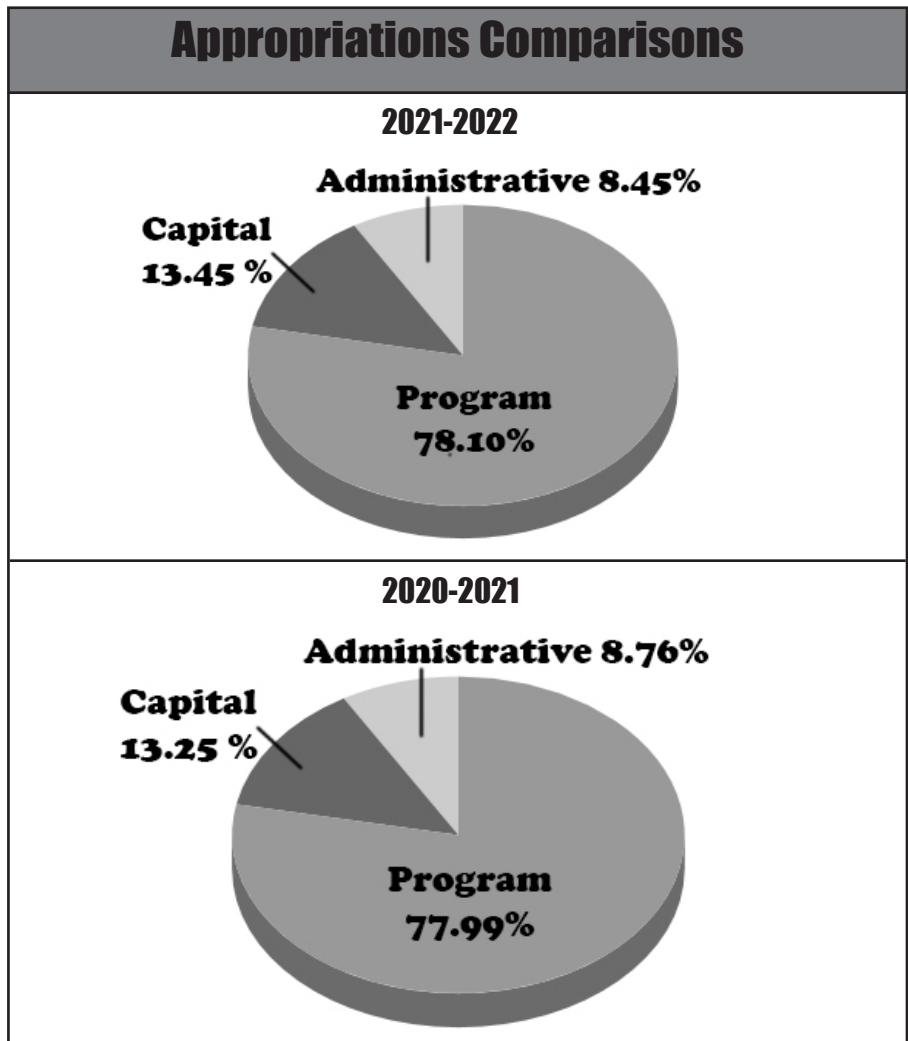

State law requires the 2021-2022 budget to be presented in 3 parts: program, administrative, and capital.

Program - This component is intended to provide every student with educational experiences and opportunities to foster the full development of his or her potential. This budget category includes all instructional personnel and programs: regular school, special education, library, media, instructional technology, guidance, student health services, school psychologists, attendance and census costs, music, co-curricular activities, athletics, in-district and out-of-district pupil transportation, and staff development.

Administrative - This component is intended to provide the necessary support for district functions. This category includes all expenses for the Board of Education, superintendent, business office, auditor, tax collection, fiscal agent, legal services, personnel office, records management, public information, central printing and mailing, property and casualty insurance, school association dues, BOCES administrative share, and supervision of instruction.

Capital - This component is intended to provide a safe and healthy learning environment for students, staff and the community. This budget category includes all personnel, equipment, supplies, and materials for the operation and maintenance of district facilities. Any judgments and claims, refunds of real property taxes, and all payments of principal and interest on short- and long-term obligations are included in this category. In the 2021-22 budget is a small (\$100,000) capital project for C.W. Baker High School pool bleacher project.

Tax Rate & School Board Elections

Estimated Tax Rate

In Lysander and Van Buren, the tax rate is projected to increase by 2.06% assuming assessments do not rise. The estimated tax rate will be as shown below. Please note that the district will not receive assessments and equalization rates* for the towns of Van Buren, Lysander and Clay until August. At that time, the actual tax levy and tax rates will be calculated.

Town	Change in tax bill on a \$100,000 house (no change in assessed value)	Estimate tax rate increase
Lysander & Van Buren (assuming equalization rate* remains at 100%)	\$47.94	2.06%
Clay (assuming equalization rate* remains the same)	\$47.94	2.06%

***About Equalization Rates --** An equalization rate represents the average level of assessment in each community. For example, an equalization rate of 50% means that, on average, the property is being assessed at 50% of its market value. The equalization rates are determined by the NYS Board of Equalization and Assessment. One of the most important uses of the equalization rate is to divide the tax levy fairly among municipalities in the same school district. In the Baldwinsville Central School District, the municipalities are the towns of Lysander, Van Buren and Clay.

What Happens If the Budget is Defeated?

The Board of Education has three options:

1. Put the same budget back before voters
2. Reduce the budget and ask voters to approve budget
3. Go directly to a contingent budget with no re-vote

If the budget is defeated twice, the board must adopt a contingent budget, which may not increase the current tax levy by any amount.

How will a contingent budget affect the school district?

Under a contingent budget, there will be no instructional or non-instructional equipment purchases and no community use of facilities unless groups or organizations pay all associated costs. Further cuts from programs and administration would be required to conform to spending caps.

Where to vote?

Voting will be held at the District Operations Building located next to the District Office in the former Transportation Center at 29 East Oneida Street. Please enter the parking lot on the side of Albert Palmer Lane. Signage will show voters where to park. Enter the building under the District Operations Building sign.
