

Common Questions

7th Grade Scheduling

Can I take both accelerated courses, two music ensembles and both tech electives?

It depends on how the master schedule is built but students may need to choose between electives. Counselors will work behind the scenes to create the best schedule to meet all of the students' requests.

Can I make a level change in Math or Science and/or add elective courses?

Yes, you have until the add/drop deadline (first 5 weeks), with administrative approval.

What if my student receives special education services?

Please complete the scheduling form. Once your student has their annual review, counselors will make the necessary changes to your student's course selections behind the scenes.

What about RTI services?

Staff will review RTI data at the end of the school year and make the necessary changes to your schedule. We will call you in the summer if there are any scheduling conflicts.

Can I take Band/Orchestra/Chorus if I was not enrolled in Grade 6?

Yes, you can. You may be enrolled in a course called *Instrument Lessons ONLY* before joining the ensemble.

If you have questions about "will this fit?" Please contact your student's counselor at 315-638-6114. We'd be happy to help map out your selections.

Mr. Crosby- students with the last name A-F

Mrs. Dwyer- students with the last name G-N

Ms. Stubbmann- students with the last name O-Z
