

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.
An IPM plan is required if a school district uses pesticides¹

Contacts

St. Helena Unified School District 465 Main Street

School District Name	Address	
Mikhael Florez	707-967-2740	mflorez@sthelenaunified.org
District IPM Coordinator	IPM Coordinator's Phone Number	Email Address

IPM statement

It is the goal of ST. HELENA USD to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Use the greatest extent possible non-toxic, biological, cultural or mechanical pest management methods.
Using chemical pesticides, when necessary, with preference for products that are least harmful to human health and the environment.
Use alternative weed abatement methods that are environmentally and human safe.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Mikhael Florez/Director Facilities&OPS	Primary district contact
Chris Bradford	Lead Maintenance Specialist / 2nd district contact

Pest management contracting

- Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): CLARK Pest Control
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: CLARK Pest Control
(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Maintenance/Custodial Staff and results are communicated to the IPM Coordinator.
(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:
(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
ANTS	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
YELLOW Jackets	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Mice	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Healthy Schools Act

- This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

- Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- This IPM plan can be found online at the following web address: sthelenaunified.org
- This IPM plan is sent out to all parents, guardians and staff annually.

Review

- This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: 7/1/2025

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: 

Date: 7/1/2024

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

Information Sheet for Parents Regarding AB2260, The Healthy Schools Act of 2000

In September 2000, Governor Davis signed into law the Healthy Schools Act of 2000 (Assembly Bill 2260). This law requires schools to notify parents, guardians and school employees about pesticides used in their schools, and requires the Department of Pesticide Regulation to promote the voluntary adoption of integrated pest management (IPM) practices in California schools. Most provisions of the law take effect January 1 2001. Each school district is to implement the following requirements of the law:

- Notification of all pesticide products the school district expects to use on school grounds must be sent annually to parents or guardians of all students. These products include over-the-counter pesticides available at retail outlets, but do not include certain products exempted under the law. The notifications must list the active ingredients in each pesticide product and the Internet address for the Department of Pesticide Regulation (DPR) to access additional information. Visit DPR's website at www.cdpr.ca.gov and click on School IPM Program.
- Each school will establish a list of parents or guardians who want to be notified before individual pesticide applications are made.
- Each school district will ensure that warning notices are posted in areas where pesticides will be applied. These signs will be posted 24 hours in advance and 72 hours after application of pesticides, and will contain information as specified in the law.
- Each school will maintain records of all pesticide use at the school for four years and the records will be available to the public upon request.

For more information, contact your local school district.

The Department of Pesticide Regulation's school IPM program aims to promote and facilitate the voluntary adoption of IPM programs.

- DPR has developed a model IPM program guidebook that reflects conditions in California.
- DPR has established and maintains an Internet website that functions as an comprehensive directory of IPM resources.
- DPR assists school districts to establish IPM policies and programs.
- DPR has established an IPM training programs for individuals designated by the districts to be in charge of pest management.

For more information, go to www.cdpr.ca.gov and click on School IPM Program,
or email DPR at: school_ipm@empm.cdpr.ca.gov

Dear Parent or Guardian,

The Healthy Schools Act of 2000 was signed into law in September 2000 and requires that all schools provide parents or guardians of students with annual written notification of expected pesticide use on school sites. However, our goal and the goal of our pest management professionals at Clark Pest Control is to utilize materials that are considered exempt by EPA as pesticides. Of course, if a situation should arise that these exempted materials are not enough to control a specific infestation then use of registered pesticides may be necessary. The notification will identify the active ingredient or ingredients in each pesticide product and will include the Internet address (www.cdpr.ca.gov) for further information on pesticides and their alternatives. We will send out annual notifications starting July 1, 2024.
(DATE)

Parents or guardians may request prior notification of individual pesticide applications at the school site. Beginning July 1, 2024, people listed on this registry will be notified at least 72 hours before pesticides are applied. If you would like to be notified every time we apply a pesticide, please complete and return the form below and mail it to: Mikhael Florez
(SCHOOL OFFICIAL)

1433 Grayson Ave. St. Helena Unified School District
(ADDRESS)

If you have any questions, please contact Mikhael Florez at 707-967-2740

Notice of Pesticide Application

Date Form Completed: _____

School Name: _____

Location of Planned Pesticide Application: _____

Building Name/Number: _____

Playground or Grounds Section: _____

Name of Pesticide To Be Applied: _____

Active Ingredient(s): _____

Planned Date/Time of Pesticide Application: _____

For more information regarding these pesticides and pesticide use reduction, visit the Department of Pesticide Regulation's website at www.cdpr.ca.gov/ and click School IPM Program.

Dear Parent or Guardian,

The Healthy Schools Act of 2000 requires all California school districts to notify parents and guardians of pesticides they expect to apply during the year. Our goal, and the goal of our Pest Management Company, "Clark Pest Control", is to utilize materials that are considered exempt by EPA as a pesticide. However, should a situation arise that these exempted materials are not enough to control a specific infestation the following pesticides may be used in your school this year.

Product Name

Active Ingredient

Advance Granular Carpenter Ant Bait	Abamectin B1
Advion Ant Gel	Indoxacarb
Advion Cockroach Bait Arena	Indoxacarb
Advion Cockroach Gel Bait	Indoxacarb
Advion Insect Granular Bait	Indoxacarb
Advion WDG	Indoxacarb

WARNING/PESTICIDE TREATED AREA

An application of a pesticide is deemed necessary to get control of pests that are invading this area:

This notice is a 24-hour (State Req'd.) a 72-hour (Not on preapproved list)

an EMERGENCY Posting

Product Name: Essentria IC Pro Mfg. Name: Wellmark

Active Ingredient: Sodium Lauryl Sulfate, Geraniol, Clove Oil, Comm USEPA Reg. No.: 25(b)

Target Pest: Kills and repels flying and crawling insects Date of Application: _____

Reason for Application: Monthly treatment per IPM Plan

Date Sign May Be Removed _____ (No less than 72 hours from application)

Signal Word: **Danger** **Warning** **Caution**

Should you have questions regarding this notification or require additional information, it can be provided.

Please contact St. Helena Unified School District Facilities and Maintenance

This information as well as other IPM related records are maintained in the Main Office of the School site. You may review this information by contacting the site administrator or their designee.
