# How to Receive Email Updates from Renaissance

How to get to the Page

1. Have your child log in to Renaissance from home. Then, select **Get Email Updates** on the student Home page.

(If you have more than one child using the software, you must log in separately with each child's user name and password and set up email preferences for that child.)

How to Add a New Email

1. On the Email Updates page, enter your name under "**New Email Details**." Then, enter your email address in the two blanks provided.

2. Under **Email Notifications Preferences,** check the boxes for the activities that you'd like to receive updates about.

3. When you're done, select **Submit**.

4. A message will tell you that a verification email has been sent. Click **OK** in the message.

5. When you receive the verification email, click **Verify Email Address** in the email to verify your email address. You will be taken to the Email Verified page to confirm that this has been done.

-- When your child completes one of the activities that you chose, you will receive an email. --
