## WHY READ 20 MINUTES AT HOME?

Student A Reads	Student B Reads	Student C Reads
❖ 20 minutes per day.	❖ 5 minutes per day.	❖ 1 minute per day
❖ 3,600 minutes per school year.	❖ 900 minutes per school year.	❖ 180 minutes per school year.
❖ 1,800,000 words per year.	❖ 282,000 words per year.	❖ 8,000 words per year.
		
❖ Scores in the 90 <sup>th</sup> percentile on standardized tests.	❖ Scores in the 50 <sup>th</sup> percentile on standardized tests.	❖ Scores in the 10 <sup>th</sup> percentile on standardized tests.

If they start reading for 20 minutes per night in Kindergarten, by the end of 6<sup>th</sup> grade, Student A will have read for the equivalent of 60 school days, Student B will have read for 12 schooldays, and Student C will have read for 3.

(Nagy and Berman, 1987.)

**WANT TO BE A BETTER READER? SIMPLY READ.**

## Accelerated Reader

Accelerated Reader is a program that allows students to earn points for reading and comprehending books. In order to earn points, a student needs to read a book and understand what the book was about. Then log

on to AR using the account provided by their teacher, to take a quiz on the book. Most picture books have 5 questions, and most chapter books have 10 questions. If the student receives a 100% they will earn full points for the book, however if they receive less than a 100% they will receive a portion of the points. Most picture books are worth 0.5 points and chapter books vary in point value based on difficulty. **Quizzes can only be taken at school during school hours**, but we encourage students to read their AR books at home. Kindergarten students will begin taking AR quizzes when they master 100 sight words. You can find out if a book has an AR quiz by visiting [www.arbookfind.com](http://www.arbookfind.com).

### So how can students celebrate these points?

Each grade level has a point goal to reach by the end of the school year. If they reach that goal, they will earn an AR t-shirt and an ice cream party. As students earn points, they will have opportunities throughout the year to purchase items at the AR store using their points.

**Reflex** helps students of all levels to develop fluency with their basic facts in addition, subtraction, multiplication and division. Math fact fluency is the quick and effortless (automatic) recall of basic math facts. This makes learning new math skills much more attainable for students.

Adaptive and individualized instruction

Engaging games that keep students coming back for more

Intuitive and powerful reporting for educators

Students can earn a **Movie and Popcorn party** twice a year if they achieve and maintain 100% fact fluency on Reflex. Students login and practice math facts through colorful interactive video games. Once they have answered enough facts correctly for the day, they will earn a green light. This should be **done at least 3 days per week**.
